FORM 2
MCH BUDGET DETAILS FOR FY 2009

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: LA

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
 Of the Federal Allocation (1 above), the amount earmarked for:

\$ 13,491,772

A.Preventive and primary care for children:

\$ 5,612,404 (41.6%)

B.Children with special health care needs:

\$ 4,754,000 (35.24%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 1,349,177 (10%)

(The above figure cannot be more than 10%)[Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 2,370,420

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 23,712,908

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 867,504

5. OTHER FUNDS (Item 15e of SF 424)

\$ 0

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 9,145,374

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 6,207,276

\$ 33,725,786

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 49,587,978

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 94,644

c. CISS: \$ 0

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 0

f. EMSC: \$ 0

g. WIC: \$ 0

h. AIDS: \$ 0

i. CDC: \$ 0

j. Education: \$ 0

k. Other: \$ 0

Early Childhood \$ 140,000

Oral Health \$ 200,740

Perinatal Depression \$ 150,000

PRAMS \$ 145,982

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 731,366

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 50,319,344

FORM NOTES FOR FORM 3

None

FIELD LEVEL NOTES

- 1. Section Number:** Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2007
Field Note:
FY 2007 budgeted amount for Federal Allocation continued to be higher than the expended amount due to the impact of Hurricanes Katrina and Rita. The attrition in agency and contract staff continued and recruiting staff in the hurricane impacted areas continued to be problematic.
- 2. Section Number:** Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2006
Field Note:
FY 2006 budgeted amount for Federal Allocation was much higher than the expended amount due to Hurricanes Katrina and Rita. Office of Public Health lost staff who relocated out of state and contracts were cancelled due to staff leaving Louisiana. Recruiting new staff continues to be problematic in post-hurricane Louisiana.
- 3. Section Number:** Main
Field Name: LocalMCHFundsExpended
Row Name: Local MCH Funds
Column Name: Expended
Year: 2007
Field Note:
FY 2007 Local MCH Funds were budgeted low due to Hurricanes Katrina and Rita, but funding and need increased by the end of the fiscal year.
- 4. Section Number:** Main
Field Name: LocalMCHFundsExpended
Row Name: Local MCH Funds
Column Name: Expended
Year: 2006
Field Note:
FY 2006 budgeted amount of Local MCH Funds was much lower than the expended amount due to Hurricanes Katrina and Rita. Office of Public Health lost staff who relocated out of state and contracts were cancelled due to staff leaving Louisiana. Recruiting new staff continues to be problematic in post-hurricane Louisiana.
- 5. Section Number:** Main
Field Name: ProgramIncomeExpended
Row Name: Program Income
Column Name: Expended
Year: 2006
Field Note:
FY 2006 budgeted amount for Local Program Income was much lower than the expended amount due to Hurricanes Katrina and Rita. Office of Public Health lost staff who relocated out of state and contracts were cancelled due to staff leaving Louisiana. Recruiting new staff continues to be problematic in post-hurricane Louisiana.

FORM NOTES FOR FORM 4

None

FIELD LEVEL NOTES

- 1. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: PregWomenExpended
Row Name: Pregnant Women
Column Name: Expended
Year: 2007
Field Note:
Pregnant Women expenditures were lower than budgeted amount for FY 2007 due to loss of clinic facilities and providers in the New Orleans region due to Hurricane Katrina. Prenatal clinics funded by MCH continued to be closed during FY 2007.
- 2. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: PregWomenExpended
Row Name: Pregnant Women
Column Name: Expended
Year: 2006
Field Note:
Pregnant Women expenditures was much lower than the budgeted amount for FY 2006 due to the loss of all clinic facilities and providers in the New Orleans region due to hurricane Katrina. Four large prenatal clinics were closed due to the hurricane as well as contracted enabling services for pregnant women in the region.
- 3. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: Children_0_1Expended
Row Name: Infants <1 year old
Column Name: Expended
Year: 2007
Field Note:
Infant expenditures were lower than budgeted amount for FY 2007 due to loss of agency and contract staff in the areas impacted by Hurricanes Katrina and Rita.
- 4. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: Children_0_1Expended
Row Name: Infants <1 year old
Column Name: Expended
Year: 2006
Field Note:
Expenditures for Infants under-1-year-old were higher than the FY 2006 budgeted amount due to the prioritization of immunizing children in post hurricane Louisiana, resulting in higher expenditures in the Immunization Program.
- 5. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: CSHCNExpended
Row Name: CSHCN
Column Name: Expended
Year: 2007
Field Note:
CSHCN budgeted amount was set too low anticipating similar reductions as found in other populations. Since there was a drastic loss of pediatric subspecialists in the hurricane affected areas, the CSHCN Program provided a greater amount of direct clinical services because the need was so great.
- 6. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: AllOthersExpended
Row Name: All Others
Column Name: Expended
Year: 2007
Field Note:
Others expenditure was lower than budgeted amount for FY 2007 due to loss of the largest Family Planning clinic facility in New Orleans.
- 7. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: AllOthersExpended
Row Name: All Others
Column Name: Expended
Year: 2006
Field Note:
Expenditures for the Other category was lower than the budgeted FY 2006 amount. The Other category is dedicated to the Family Planning Program services and there was a reduction in the number of patients served by over 13% in post-hurricane Louisiana. All Family Planning clinics in New Orleans, including the largest clinic in the state, was closed post-Katrina and continues to be closed.
- 8. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: AdminExpended
Row Name: Administration
Column Name: Expended
Year: 2007
Field Note:
The overall expenditures for FY 2007 continued to be lower than the budgeted amount due to the loss of agency and contract staff due to Hurricanes Katrina and Rita, resulting in lower expenditures for Administration.
- 9. Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: AdminExpended
Row Name: Administration
Column Name: Expended
Year: 2006
Field Note:
The Administration category had expenditures lower than the FY 2006 budgeted amount due to the overall decrease in expenditures.

Row Name: Direct Health Care Services
Column Name: Expended
Year: 2006
Field Note:
The expended amount for Direct Health Care Services was lower than the FY 2006 expended amount due to the loss of over half of the population in New Orleans, the loss of clinic facilities, the loss of contract providers and Office of Public Health staff resulting from Hurricanes Katrina and Rita.

3. **Section Number:** Main
Field Name: EnablingExpended
Row Name: Enabling Services
Column Name: Expended
Year: 2007
Field Note:
The overall expenditures for FY 2007 continued to be lower than the budgeted amount due to the loss of agency and contract staff due to Hurricanes Katrina and Rita, resulting in lower expenditures for enabling services.

FORM 6

NUMBER AND PERCENTAGE OF NEWBORNS AND OTHERS SCREENED, CASES CONFIRMED, AND TREATED

Sect. 506(a)(2)(B)(iii)

STATE: LA

Total Births by Occurrence: 65,000

Reporting Year: **2007**

Type of Screening Tests	(A) Receiving at least one Screen (1)		(B) No. of Presumptive Positive Screens	(C) No. Confirmed Cases (2)	(D) Needing Treatment that Received Treatment (3)	
	No.	%			No.	%
Phenylketonuria	63,700	98	15	4	4	100

FIELD LEVEL NOTES

- 1. Section Number:** Main
Field Name: PregWomen_TS
Row Name: Pregnant Women
Column Name: Title V Total Served
Year: 2009
Field Note:
Unduplicated count of Maternity patients for SFY 2007 based upon the COMPASS patient encounter system. Due to encounter system's inability to decipher between pregnant women and non-pregnant women seeking pregnancy tests in the public health units, all women of reproductive age receiving pregnancy tests in the health units are reported under pregnant women. The count also includes women served by contracts that do not report through COMPASS, or 546 initial prenatal visits, and women participating in the Nurse Family Partnership home visitation program, or 1534 families in SFY 2007.
- 2. Section Number:** Main
Field Name: PregWomen_XIX
Row Name: Pregnant Women
Column Name: Title XIX %
Year: 2009
Field Note:
Based upon Maternity Medicaid paid clients reported in the COMPASS patient encounter system. No other insurance breakdown is given.
- 3. Section Number:** Main
Field Name: Children_0_1_TS
Row Name: Infants <1 year of age
Column Name: Title V Total Served
Year: 2009
Field Note:
Infants: The number of newborns receiving a newborn screen in 2007. The total number of infants who actually received child health services at a parish health unit was 51,328. Percents of the Primary Source of Coverage are derived from newborn screening lab form data. Estimates are based on source of payments.
- 4. Section Number:** Main
Field Name: Children_1_22_TS
Row Name: Children 1 to 22 years of age
Column Name: Title V Total Served
Year: 2009
Field Note:
This year includes the count of individuals served from the Adolescent School Based Health initiative, in SFY 2006-07 = 24,945, plus individuals served in the parish health units, as reported from the Patient Encounter System via COGNOS.
- 5. Section Number:** Main
Field Name: Children_1_22_XIX
Row Name: Children 1 to 22 years of age
Column Name: Title XIX %
Year: 2009
Field Note:
Adolescent School Based Health shows 62% are paid for by Medicaid. Number includes LaCHIP coverage because ASBH cannot separate LaCHIP and Medicaid recipients.
- 6. Section Number:** Main
Field Name: Children_1_22_Private
Row Name: Children 1 to 22 years of age
Column Name: Private/Other %
Year: 2009
Field Note:
Adolescent School Based Health shows 26% are paid for by private providers.
- 7. Section Number:** Main
Field Name: Children_1_22_None
Row Name: Children 1 to 22 years of age
Column Name: None %
Year: 2009
Field Note:
Adolescent School Based Health shows 8% of their clients had no coverage.
- 8. Section Number:** Main
Field Name: Children_1_22_Unknown
Row Name: Children 1 to 22 years of age
Column Name: Unknown %
Year: 2009
Field Note:
Adolescent School Based Health shows that for 4% of their clients, source of coverage is unknown.
- 9. Section Number:** Main
Field Name: CSHCN_XIX
Row Name: Children with Special Health Care Needs
Column Name: Title XIX %
Year: 2009
Field Note:
Adolescent School Based Health shows 62% are paid for by Medicaid. Number includes LaCHIP coverage because ASBH cannot separate LaCHIP and Medicaid recipients.
- 10. Section Number:** Main
Field Name: AllOthers_TS
Row Name: Others
Column Name: Title V Total Served
Year: 2009
Field Note:
Due to record keeping system's inability to decipher between pregnant women and non-pregnant women seeking pregnancy tests in the public health units, all women of reproductive age receiving pregnancy tests in the health units are reported under pregnant women.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2009
[SEC. 506(A)(1)]
STATE: LA

1. State MCH Administration:
(max 2500 characters)

Louisiana's Title V program is administered by the State Sections of Maternal and Child Health and Children's Special Health Services. These programs are housed within the Office of Public Health's Center for Preventive Health. The Office of Public Health is one of the five major agencies within the Louisiana Department of Health and Hospitals. The MCH program serves a large portion of the State's large medically indigent MCH population, providing personal health services and local public health functions at parish health units distributed throughout the State. In addition to direct service provision, MCH is involved in enabling, population-based, and infrastructure building services.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ <u>13,491,772</u>
3. Unobligated balance (Line 2, Form 2)	\$ <u>2,370,420</u>
4. State Funds (Line 3, Form 2)	\$ <u>23,712,908</u>
5. Local MCH Funds (Line 4, Form 2)	\$ <u>867,504</u>
6. Other Funds (Line 5, Form 2)	\$ <u>0</u>
7. Program Income (Line 6, Form 2)	\$ <u>9,145,374</u>
8. Total Federal-State Partnership (Line 8, Form 2)	\$ <u>49,587,978</u>

9. Most significant providers receiving MCH funds:

Parish Health Units, Louisiana State University
Health Sciences Center, Primary Care Centers,
New Orleans Health Dept., Tulane University Health
Sciences Center, Children's Hospital- New Orleans

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	<u>54,091</u>
b. Infants < 1 year old	<u>63,700</u>
c. Children 1 to 22 years old	<u>74,003</u>
d. CSHCN	<u>13,078</u>
e. Others	<u>0</u>

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:

(max 2500 characters)

Parish Health Units: MCH provides prenatal care services and comprehensive preventive child health services at parish health units and contract agency sites statewide. School-Based Health Centers: MCH's Adolescent School Health Initiative funds and provides technical assistance to 69 school-based health centers statewide. Home Visitation: MCH operates a nurse home visitation program for first-time mothers, entitled Nurse Family Partnership (NFP) in all regions of the state. Children with Special Health Care Needs: CSHS provides direct medical evaluation and treatment services for chronic and disabling medical conditions in children. Parent support and care coordination services are also provided by CSHS.

b. Population-Based Services:

(max 2500 characters)

Sudden Infant Death Syndrome (SIDS) Program: MCH operates a risk reduction campaign, and provides public and professional education, grief counseling and autopsy and death scene investigation. Partners For Healthy Babies: MCH operates a statewide multimedia campaign which utilizes a toll free hotline to link callers with prenatal care, and educates about healthy behaviors during pregnancy. Newborn Screening Programs: The Genetics and Newborn Screening Program assures the screening of all newborns in the State. The Hearing, Speech, and Vision Program coordinates newborn hearing screening statewide. Injury Prevention: MCH funds a state SafeKids Program and regional injury prevention coordinators to inform the public of injury prevention approaches.

c. Infrastructure Building Services:

(max 2500 characters)

MCH operates the Pregnancy Risk Assessment and Monitoring System (PRAMS). Birth and infant death data are analyzed and includes linkages with Medicaid and Newborn Screening programs. The CSHS program has initiated a medical home project to increase primary care access to CSHCN. CSHS has taken leadership in developing a birth defects registry for Louisiana. Legislation was passed in May 2001, creating a Birth Defects Surveillance System. MCH has initiated an infant mortality reduction initiative effort in each region with public and private partner agencies. In conjunction with the state Office of Mental Health and Office of Addictive Disorders, MCH coordinates a screening, referral, and treatment program for perinatal substance abuse, depression, and domestic violence.

12. The primary Title V Program contact person:

Name Joan Wightkin, DrPH, MPH
Title MCH Administrator
Address Office of Public Health, 1450 L & A Rd

TRACKING PERFORMANCE MEASURES
[SECS 485 (2)(2)(B)(III) AND 486 (A)(2)(A)(III)]
STATE: LA

Form Level Notes for Form 11

None

PERFORMANCE MEASURE # 01

The percent of screen positive newborns who received timely follow up to definitive diagnosis and clinical management for condition(s) mandated by their State-sponsored newborn screening programs.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	95	95	95	99	99
Annual Indicator	95.2	94.2	96.0	99.1	97.9
Numerator	120	114	120	116	137
Denominator	126	121	125	117	140

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Final

Field Level Notes

1. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate the NPM06 indicator for the 2005-2006 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the two surveys are not comparable for PM #06 and the 2005-2006 may be considered baseline data.

2. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2006

Field Note:

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

3. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2005

Field Note:

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

PERFORMANCE MEASURE # 07

Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	70	72	74	80	84
Annual Indicator	69.9	74.9	74.9	77	73
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. Section Number: Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2007

Field Note:

The National Immunization Survey (NIS) is sponsored by the National Immunization Program (NIP) and conducted jointly by NIP and the National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention. The survey is a list-assisted random-digit-dialing telephone survey followed by a mailed survey to children's immunization providers. Estimates of vaccine coverage are produced for the nation and for each of 78 Immunization Action Plan (IAP) areas, consisting of the 50 states, the District of Columbia, and 27 large urban areas. Provisional 2007 data from the NIS survey for Louisiana indicates 72.5 + 7.0% of children within the ages of 19-35 months are at the appropriate immunization level for age for the vaccine series 4:3:1:3:3:1 which now includes 1 dose of Varicella vaccine in the series.

2. Section Number: Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2006

Field Note:

The National Immunization Survey (NIS) is sponsored by the National Immunization Program (NIP) and conducted jointly by NIP and the National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention. The survey is a list-assisted random-digit-dialing telephone survey followed by a mailed survey to children's immunization providers. Estimates of vaccine coverage are produced for the nation and for each of 78 Immunization Action Plan (IAP) areas, consisting of the 50 states, the District of Columbia, and 27 large urban areas. Final 2006 data from the NIS survey for Louisiana indicates 77% of children within the ages of 19 – 35 months are at the appropriate immunization level for age for the vaccine series 4:3:1:3:3:1 which now includes 1 dose of Varicella vaccine in the series.

3. Section Number: Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2005

Field Note:

The National Immunization Survey (NIS) is sponsored by the National Immunization Program (NIP) and conducted jointly by NIP and the National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention. The survey is a list-assisted random-digit-dialing telephone survey followed by a mailed survey to children's immunization providers. Estimates of vaccine coverage are produced for the nation and for each of 78 Immunization Action Plan (IAP) areas, consisting of the 50 states, the District of Columbia, and 27 large urban areas. Final 2004 data from the NIS survey for Louisiana indicates 74.9% of children within the ages of 19 – 35 months are at the appropriate immunization level for age.

For 2005, the immunization levels of children 19 – 35 months of age in Louisiana with 4 Diphtheria, tetanus, acellular Pertussis (DTaP), 3 Polio, 1 Measles-Mumps-Rubella (MMR), 3 Haemophilus Influenza Type B (HIB) and 3 Hepatitis B (HBV) – [4:3:1:3:3 schedule]] have not been determined by the National Immunization Survey (NIS). The annual estimate for Louisiana may not be complete as a result of the impact on Southeast Louisiana from Hurricane Katrina. The Center for Disease Control recognizes that the validation of the survey and the multiple parishes impacted as well as the loss of immunization records by parents and medical providers will likely impede the survey results since the survey design is by random telephone dialing methodology.

PERFORMANCE MEASURE # 08

The rate of birth (per 1,000) for teenagers aged 15 through 17 years.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	32	31	30	29	25
Annual Indicator	29.3	29.2	26.6	29.5	29.5

Annual Objective and Performance Data

	2008	2009	2010	2011	2012
Annual Performance Objective	11.5	11	10.5	10.5	10.5
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

- Section Number:** Performance Measure #14

Field Name: PM14

Row Name:

Column Name:

Year: 2007

Field Note:

The WIC's Program data system has now been in operation since May of 2006 with many problems associated with the application design. Currently, the application developer is working with CDC on the criteria required for data transfer to PedNSS. WIC staff have been assisting with testing the PedNSS application data, and the Program anticipates the renewal of PedNSS participation for federal fiscal year 2009.

- Section Number:** Performance Measure #14

Field Name: PM14

Row Name:

Column Name:

Year: 2006

Field Note:

In May of 2006, the WIC Program implemented a new data system. Due to this major change, data cannot be transferred to the CDC Pediatric Nutrition Surveillance System as done in the past. Therefore, no data can be reported this year.

PERFORMANCE MEASURE # 15

Percentage of women who smoke in the last three months of pregnancy.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective				13.8	13.5
Annual Indicator			17.7	17.7	17.7
Numerator			11,117	11,117	11,117
Denominator			62,767	62,767	62,767

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional Provisional

Annual Objective and Performance Data

Field Level Notes

1. **Section Number:** Performance Measure #17
Field Name: PM17
Row Name:
Column Name:
Year: 2007
Field Note:
 Data is provisional and based upon 2006 data.

2. **Section Number:** Performance Measure #17
Field Name: PM17
Row Name:
Column Name:
Year: 2006
Field Note:
 Calculation of the percent of VLBW births born in Level III facilities requires an accurate list of hospitals with corresponding neonatal facility level codes. This list must be updated periodically as facility levels may change over time. This performance measure will be updated with 2006 data once the current facility level codes have been verified against the current hospital licensure records. It is anticipated that the list of current facility level will be available in August 2008.

3. **Section Number:** Performance Measure #17
Field Name: PM17
Row Name:
Column Name:
Year: 2005
Field Note:
 Calculation of the percent of VLBW births born in Level III facilities requires an accurate list of hospitals with corresponding neonatal facility level codes. This list must be updated periodically as facility levels may change over time. This performance measure will be updated with 2005 data once the current facility level codes have been verified against the current hospital licensure records.

PERFORMANCE MEASURE # 18

Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	83.6	84.5	85	86	87
Annual Indicator	84.1	85.5	87.1	87.1	87.1
Numerator	54,305	55,383	52,290	54,193	54,193
Denominator	64,545	64,770	60,058	62,214	62,214

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Field Level Notes

- Section Number:** State Performance Measure #10
Field Name: SM10
Row Name:
Column Name:
Year: 2007
Field Note:
 FY07 data is based on a report provided by the Louisiana DHH Center for Environmental Services. The report documents the number of child care facilities that met the DHH Center for Environmental Services requirements for licensure during the Block Grant FY. Child care staff is required by DHH to have three hours of health and safety training provided by Child Care Health Consultants (CCHC). Parish Sanitarians inspect centers for proof of the three hours of health and safety training provided by a CCHC and for other requirements to ensure a safe environment. Louisiana DHH Center for Environmental Services compiles a database of the centers that pass this inspection and are recommended for licensure.

 FY 2006 data is based on the Child Care Health Consultant monthly report system.
- Section Number:** State Performance Measure #10
Field Name: SM10
Row Name:
Column Name:
Year: 2005
Field Note:
 FY 2005 data is based on the Child Care Health Consultant monthly report system.

FORM 12
TRACKING HEALTH OUTCOME MEASURES
[SECS 505 (A)(2)(B)(III) AND 506 (A)(2)(A)(III)]
STATE: LA

Form Level Notes for Form 12

None

OUTCOME MEASURE # 01

The infant mortality rate per 1,000 live births.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	8.3	9	8.8	8.6	9.4
Annual Indicator	9.3	10.4	10.0	10.0	
Numerator	604	678	596	596	
Denominator	64,689	64,956	59,446	59,446	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional

OUTCOME MEASURE # 04

The postneonatal mortality rate per 1,000 live births.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	2.9	3	2.9	2.8	4.1
Annual Indicator	3.6	4.2	4.3	4.3	
Numerator	233	270	253	253	
Denominator	64,689	64,956	59,446	59,446	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

3 = Completely Met

FORM NOTES FOR FORM 13

None

FIELD LEVEL NOTES

- 1. Section Number:** Main
Field Name: Question1
Row Name: #1. Family members participate on advisory committee or task forces...
Column Name:
Year: 2009
Field Note:
All Parent Liaisons have the opportunity to serve on various community/ regional task forces. All receive 16 hours of training each year and are paid for their time and reimbursed for training expenses.
- 2. Section Number:** Main
Field Name: Question2
Row Name: #2. Financial support (...) is offered for parent activities or parent groups.
Column Name:
Year: 2009
Field Note:
Most of the contracting agencies employing Parent Liaisons receive small stipends to help offset parent's costs to participate in activities in addition to the compensation for parents' time. Child care is not always available for families.
- 3. Section Number:** Main
Field Name: Question3
Row Name: #3. Family members are involved in the Children with Special Health Care Needs...
Column Name:
Year: 2009
Field Note:
MCH Block Grant information is sent to Parent Liaisons, who send it to parents in each region asking for feedback which is reported in the public input section. Statewide parent consultants also participate in the grant writing (such as this section).
- 4. Section Number:** Main
Field Name: Question4
Row Name: #4. Family members are involved in service training of CSHCN staff and providers.
Column Name:
Year: 2009
Field Note:
Family members are incorporated into every aspect of CSHS activities, including training. A parent liaison has been actively involved in the care coordination training.
- 5. Section Number:** Main
Field Name: Question5
Row Name: #5. Family members hired as paid staff or consultants to the State CSHCN program...
Column Name:
Year: 2009
Field Note:
There are three full time statewide parent consultants that participate in CSHS programs: two for CSHS clinics and one for Hearing, Speech and Vision. They provide training for the 13 regional parent liaisons, and families who have children with special health care needs.
- 6. Section Number:** Main
Field Name: Question6
Row Name: #6. Family members of diverse cultures are involved in all of the above activities
Column Name:
Year: 2009
Field Note:
Louisiana is a very culturally diverse state, and parent liaisons reflect these cultural differences. The nationalities of our PL consist of African American, Hispanic, Vietnamese, Cajun French, and Caucasian.

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: LA FY: 2009

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women," and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Decrease infant mortality and morbidity in collaboration with regional coalitions comprised of public and private health and social service providers.
2. Decrease intentional and unintentional injuries in the maternal, child, adolescent, and children with special health care needs populations.
3. Assure access to quality health care for the maternal, child, adolescent, and children with special health care needs populations, addressing barriers including Medicaid provider availability and lack of transportation.
4. Address the mental health needs of the maternal, child, adolescent, and children with special health care needs populations, through prevention and early intervention, screening, referral, and where appropriate, treatment.
5. Address the substance abuse related needs of the maternal and adolescent population, through prevention and early intervention, screening, and referral.
6. Promote comprehensive systems of care and seamless transition to adult services for the children with special health care needs population by providing care coordination.
7. Promote pre-conceptional and inter-conceptional health care including family planning.
8. Address the oral health needs of the maternal, child, adolescent, and children with special health care needs populations.
9. Improve the health of the maternal, child, adolescent, and children with special health care needs populations, addressing healthy nutrition, proper prenatal weight gain, breastfeeding, and physical activity.
10. Obtain and utilize reliable evidence to: a) identify preventable causes of maternal, child and adolescent mortality and morbidity; b) develop preventive public health campaigns targeting high risk populations; and c) perform process and outcome evaluation.

FIELD LEVEL NOTES

None

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: LA

SP # 1

PERFORMANCE MEASURE:

Percent of all children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services.

STATUS:

Active

GOAL

To offer access to comprehensive preventive and primary health services, including mental health services, to children and adolescents enrolled in public schools in Louisiana.

DEFINITION

Number of children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services / Number of children and adolescents enrolled in Louisiana public schools

Numerator:

Number of children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services

Denominator:

Number of children and adolescents enrolled in Louisiana public schools

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

21.2 Receipt of recommended services

Increase to at least 50% the proportion of adolescents, and to at least 80% the proportion of children age 2-12, who have received, as a minimum within the appropriate interval, all of the screening and immunization services and at least one of the counseling services appropriate for their age.

DATA SOURCES AND DATA ISSUES

Adolescent School Health Initiative Annual Services Report. Louisiana Department of Education. Increasing the percent of all children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services will depend on substantial financial support for school-based health centers.

SIGNIFICANCE

According to the 1996 Annie Casey Foundation Kids Count Data Book, Louisiana ranks last in the nation for the manner in which it provides health and quality care for its children. School-based health centers provide convenient access to primary and preventive care for children and adolescents who might otherwise have limited or no access to health care.

SP # 2

PERFORMANCE MEASURE:

Percent of women in need of family planning services who have received such services.

STATUS:

Active

GOAL

To increase the percent of women in need of family planning services who have received such services through publicly supported clinics.

DEFINITION

The number of women in need of family planning services who have received such services from a publicly supported clinic in a calendar year. The number of women in need of family planning services in a calendar year.

Numerator:

The number of women in need of family planning services who have received such services from a publicly supported clinic in a calendar year.

Denominator:

The number of women in need of family planning services in a calendar year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

5.2 Unintended pregnancy

Reduce to no more than 30% the proportion of all pregnancies that are unintended.

DATA SOURCES AND DATA ISSUES

Family planning program data. The Alan Guttmacher Institute report on Contraceptive Needs and Services estimates the need for publicly funded services for women between the ages of 13 and 44 years who are sexually active, and are neither intentionally pregnant nor trying to become pregnant.

SIGNIFICANCE

In the United States, only half of pregnancies are planned at the time of conception. For some of these unplanned pregnancies, the women wanted to get pregnant later; for others, the women wanted no more children at all. About half of unplanned pregnancies are also associated with more problems for the mother and infant than planned pregnancies. Women with unplanned pregnancies cannot take advantage of preconception care, a special health care visit that helps women achieve the healthiest possible pregnancy outcome. Planning to become pregnant at a time when a woman is healthy and ready to become a parent can maximize the health and opportunities for women, children, and families, and can reduce abortions.

SP # 3

PERFORMANCE MEASURE:

Rate of children (per 1,000) under 18 who have been abused or neglected.

STATUS:

Active

GOAL

To prevent child abuse and neglect.

DEFINITION

of validated cases of child abuse and neglect to children under age 18 in Louisiana / Total population under age 18 in Louisiana

Numerator:

Number of validated cases of child abuse and neglect to children under age 18 in Louisiana

Denominator:

Total population under 18 in Louisiana

Units: 1000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

7.4 Child abuse and neglect

Reverse to less than 25.2 per 1000 children the rising incidence of maltreatment of children younger than age 18. (Baseline 25.2 per 1000 in 1986)

DATA SOURCES AND DATA ISSUES

Numerator is from State of Louisiana, Department of Social Services, Office of Community Services. Valid cases, as defined by OCS, mean that a review of the facts showed a reason to believe abuse had taken place. Denominator is from U.S. Bureau of the Census population estimates. The number of reported cases of child abuse and neglect is much higher than the validated cases. For instance, for fiscal year 1996 the numbers were 45,981 reported cases vs. 14,863 validated cases. It is difficult to project five year goals for this measure, since as awareness of child abuse and neglect is heightened, numbers of reported and validated cases may actually increase.

SIGNIFICANCE

Children who witness or are victims of violence at home display emotional and behavioral disturbance as diverse as withdrawal, low self-esteem, nightmares, self-blame, and aggression against peers, family members and/or property. A comparison of delinquent and nondelinquent youth found that a history of family violence or abuse is the most significant difference between the two groups.

SP # 4

PERFORMANCE MEASURE:

Percent of CSHS patients with case management (follow-up visits) from a nurse, social worker, or nutritionist.

STATUS:

Active

GOAL

To ensure that a coordinated continuum of appropriate services exist for the care of children with potential or actual chronic and disabling conditions and their families.

DEFINITION

Unduplicated count of CSHS patients with a follow-up visit / Unduplicated count of CSHS patients

Numerator:

Unduplicated count of CSHS patients with a follow-up visit

Denominator:

Unduplicated count of CSHS patients

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

17.2 Disability due to chronic conditions

Reduce to no more than 8% the proportion of people who experience a limitation in major activity due to chronic conditions.

DATA SOURCES AND DATA ISSUES

A new Ph-9 form collecting more accurate information on follow-up visits for CSHS patients has just been implemented in three regions, and all regions will eventually adopt the new form. In five years, it is expected that 60% of CSHS patients will have received case management services, since Louisiana's CSHS program is placing increasing emphasis on a more holistic approach. The program envisions increased case management for its children, and a shift away from simple direct medical intervention.

SIGNIFICANCE

The establishment of systems of services that reflect the principles of comprehensive, community-based, coordinated, family-centered care are essential for effectively fostering and facilitating activities to (1) reverse or slow the progress of chronic and disabling conditions among children; (2) minimize the complications and impact of chronic disabling conditions among children; (3) strengthen the ability of families to care for children with actual or potential chronic and disabling conditions; and (4) enable children with more serious conditions to remain in the home and community-based living arrangements, rather than in institutional settings.

SP # 6

PERFORMANCE MEASURE:

Percent of infants receiving WIC services through Public Health Units, aged 0-1, screened by the Louisiana Risk Assessment (LRA)-Infant version.

STATUS:

Active

GOAL

To provide a screening system to detect infants and their families at risk for poor social/emotional outcomes, refer for prevention and early intervention services and to provide data to document the need for services to address this problem.

DEFINITION

Percent of infants receiving WIC services through Public Health Units, who are screened by the Louisiana Risk Assessment-Infant version.

Numerator:

Number of infants receiving WIC services, who are screened by the Louisiana Risk Assessment-Infant version.

Denominator:

Average number of infants per calendar year participating in WIC in Louisiana.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

18-6

(Developmental) Increase the number of persons seen in primary health care who receive mental health screening and assessment.

DATA SOURCES AND DATA ISSUES

Numerator is the number of Louisiana Risk Assessment-Infant version screens performed at WIC infant certifications through Public Health Units in Louisiana during the calendar year. Denominator is from the annual WIC participation data of infants as computed by average monthly participation in Public Health Unit WIC clinics in Louisiana during the calendar year.

SIGNIFICANCE

Infants identified as having more than one well-established risk factor for poor social-emotional outcomes, are more likely to demonstrate significant behavior problems with peers, trouble with academic performance, teen-age parenthood, and higher rates of involvement with the juvenile justice system. Identifying such children and their families as early as possible, with referral for appropriate services, will promote greater awareness of problems such as maternal depression and the effects of domestic violence on children, and opportunities for preventive or intervention services for such infants and families.

SP # 7

PERFORMANCE MEASURE:

Percent of women who use alcohol during pregnancy.

STATUS:

Active

GOAL

To reduce alcohol use during pregnancy.

DEFINITION

of women surveyed who report they have used alcohol during the last 3 months of their most recent pregnancy / # of women surveyed

Numerator:

of women surveyed who report they have used alcohol during the last 3 months of their most recent pregnancy

Denominator:

of women surveyed

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

14.10 Alcohol, tobacco, and drug use during pregnancy

Increase abstinence from tobacco use by pregnant women to at least 90%, increase abstinence from alcohol by pregnant women to at least 90%, and increase abstinence from cocaine and marijuana by pregnant women to at least 90%.

DATA SOURCES AND DATA ISSUES

Initially, the data was taken from birth certificate data, which resulted in a low estimate due to the known limitations of birth certificate data. Data from LaPRAMS, Louisiana's Pregnancy Risk Assessment Monitoring System, is now used and is a more accurate data source for this measure.

SIGNIFICANCE

Substance use during pregnancy contributes significantly to the number of low birth weight babies and the infant mortality and morbidity rates in Louisiana.

SP # 8

PERFORMANCE MEASURE:

Rate of infant deaths due to Sudden Infant Death Syndrome.

STATUS:

Active

GOAL

To decrease the rate of infant deaths due to Sudden Infant Death.

DEFINITION

Number of infant deaths due to SIDS in a calendar year/ Number of live births

Numerator:

Number of infant deaths due to SIDS in a calendar year

Denominator:

Number of live births

Units: 1000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

16-1: Reduce Fetal and Infant Deaths

DATA SOURCES AND DATA ISSUES

SIDS Program Data(numerator), Vital Statistics Mortality Data (denominator)

SIGNIFICANCE

SIDS is the number one cause of unexpected infant death. SIDS is the most common cause of death in the post-neonatal period. The U.S. SIDS rate has declined almost 50% since the initiation of the "Back to Sleep Campaign" in 1994. However, there is still significant racial disparity. Rates are much higher in lower social economic status (SES) groups across all populations.

SP # 9

PERFORMANCE MEASURE:

Percent of state fetal and infant deaths reviewed by a Feto-Infant Mortality Review (FIMR).

STATUS:

Active

GOAL

To monitor and evaluate the progress of the Louisiana FIMR Network by measuring the percent of fetal and infant deaths to Louisiana residents that are reviewed by these programs. The goal is to have FIMR case reviews for 20% of the fetal and infant deaths in Louisiana within the next five years (2011).

DEFINITION

The percent of fetal and infant deaths with a birth weight greater than 500gms and/or gestational age larger than 24 weeks, born to Louisiana residents, that are reviewed by a Louisiana FIMR program.

Numerator:

The number of fetal and infant deaths of Louisiana residents weighing 500 or more grams and/or 24 or more weeks gestation, as determined by Louisiana Vital Records, that are reviewed by a Louisiana FIMR program in a calendar year.

Denominator:

The number of fetal and infant deaths of Louisiana residents weighing 500 or more grams and/or 24 or more weeks gestation in a calendar year, as determined by Louisiana Vital Records.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

16-1: Reduce Fetal and Infant Deaths

DATA SOURCES AND DATA ISSUES

Each of the 9 regions in Louisiana has a FIMR program whose coordinator is responsible for reporting the number of cases reviewed at each meeting. Vital Records birth and death data, the denominator for this measure, is not typically available until the following summer after each calendar year. Therefore, calculation of this measure will use the latest available vital records data.

SIGNIFICANCE

Through this process of case identification, data abstraction, and case review, FIMR programs will assure further enhanced understanding of the circumstances surrounding fetal and infant deaths in Louisiana. Quantitatively monitoring a qualitative program helps to bring together data and program specialists for improved outcomes.

SP # 10

PERFORMANCE MEASURE:

Percent of licensed day care centers with a health consultant contact.

STATUS:

Active

GOAL

To improve the health and safety of child care settings by providing support, guidance, and technical assistance to local child care providers, social service agencies, and families.

DEFINITION

The number of licensed day care centers in Louisiana with a health consultant contact / The number of licensed day care centers in Louisiana

Numerator:

The number of licensed day care centers in Louisiana with a health consultant contact

Denominator:

The number of licensed day care centers in Louisiana

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

20.8 Diarrhea among children in child care centers

Reduce infectious diarrhea by at least 25% among children in licensed child care centers.

10.14 Service and protection

Establish in 50 states either public or labor department programs that provide consultation and assistance to small businesses to implement safety and health programs for their employees.

DATA SOURCES AND DATA ISSUES

This program has just begun -- health consultants have been trained and Resource and Referral sites have been established statewide. Data for this measure was initially taken from a November, 1996, needs assessment of LA Child Care Centers. Data is now collected from communications with the health consultants themselves.

SIGNIFICANCE

Basic concepts of health and safety need to be a part of training for all child care providers. Children cared for in group settings are more likely to be exposed to communicable diseases and may be exposed to more risk for injury. These children must depend on the caregiver for proper nutrition and food served in a safe and sanitary manner. National Health and Safety Performance Standards: Guidelines for Out-of-Home Child Care Programs, developed by the American Academy of Pediatrics and the American Public Health Association, offers standards for the major health and safety issues in child care. Recommendation 55: We recommend that each community should have access to an identified child health consultant who can provide consultations and technical assistance on health issues to facilities.

FORM NOTES FOR FORM 16

FORM 17
HEALTH SYSTEMS CAPACITY INDICATORS
FORMS FOR HSCI 01 THROUGH 04, 07 & 08 - MULTI-YEAR DATA
STATE: LA

Form Level Notes for Form 17

None

HEALTH SYSTEMS CAPACITY MEASURE # 01

The rate of children hospitalized for asthma (ICD-9 Codes: 493.0 -493.9) per 10,000 children less than five years of age.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	52.0	74.4	60.3	60.3	60.3
Numerator	1,685	2,388	1,817	1,817	1,817
Denominator	323,991	320,790	301,375	301,375	301,375

Check this box if you cannot report the numerator because
1. There are fewer than 5 events over the last year, and
2. The average number of events over the last 3 years is fewer
than 5 and therefore a 3-year moving average cannot be
applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional

Provisional

Field Level Notes

1. Section Number: Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2007

Field Note:

Data is based upon 2005 Louisiana Hospital Inpatient Discharge Data (LAHIDD). Data is provisional, based on 2005. Since 2002, the primary data source of analysis and reporting for this indicator is the Louisiana Hospital Inpatient Discharge Data (LAHIDD). LAHIDD is compiled by the Health Statistics Department of the Louisiana Office of Public Health, and EMS/Injury Research and Prevention Program analyzes the data needed for this indicator.

Since participation in reporting hospital inpatient discharge data is not mandatory in Louisiana, then differences in the number, size, and type of hospitals reporting annually will affect our data reported. The variability limits year-to-year comparison analyses. Also, since the CDC has changed the 2004 Census population data for Louisiana from 4,515,770 to 4,506,685, then the 2004 statistics reported are based on the new population data.

2. Section Number: Health Systems Capacity Indicator #01

Since 2002, the primary data source of analysis and reporting for this indicator is the Louisiana Hospital Inpatient Discharge Data (LAHIDD). LAHIDD is compiled by the Health Statistics Department of the Louisiana Office of Public Health, and EMS/Injury Research and Prevention Program analyzes the data needed for this indicator.

Since participation in reporting hospital inpatient discharge data is not mandatory in Louisiana, then differences in the number, size, and type of hospitals reporting annually will affect our data reported. The variability limits year-to-year comparison analyses. Also, since the CDC has changed the 2004 Census population data for Louisiana from 4,515,770 to 4,506,685, then the 2004 statistics reported are based on the new population data.

HEALTH SYSTEMS CAPACITY MEASURE # 02

The percent Medicaid enrollees whose age is less than one year during the reporting year who received at least one initial periodic screen.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>87.7</u>	<u>88.7</u>	<u>87.5</u>	<u>89.8</u>	<u>90.2</u>
Numerator	<u>38,174</u>	<u>40,591</u>	<u>40,441</u>	<u>40,505</u>	<u>43,931</u>
Denominator	<u>43,551</u>	<u>45,770</u>	<u>46,225</u>	<u>45,119</u>	<u>48,707</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Final

Final

Field Level Notes

- Section Number:** Health Systems Capacity Indicator #07A

Field Name: HSC07A

Row Name:

Column Name:

Year: 2007

Field Note:

For 2006 and 2007, data was obtained from the Louisiana Department of Health and Hospitals Medicaid Annual Reports for State Fiscal Year 2005/2006 and 2006/2007. The numerator is the (unduplicated) number of all Medicaid children (Title XIX and XXI) under age 19 years who received at least one processed claim during the period involved, whether or not he/she was enrolled on the date the claim was paid but was enrolled at the time the service for the claim was provided. The denominator is the number of all children who applied and have been approved to receive services, regardless of whether he/she received services and/or any claims have been filed on his/her behalf. Therefore, any post-annual report data of all Medicaid children's enrollment, recipients of service(s), and/or total costs of received services received for a specific state fiscal year, which is obtained after the date of the data used for the Medicaid report, will differ from the data in the report because retroactive eligibility will be included in the new figures.

- Section Number:** Health Systems Capacity Indicator #07A

Field Name: HSC07A

Row Name:

Column Name:

Year: 2006

Field Note:

For 2006 and 2007, data was obtained from the Louisiana Department of Health and Hospitals Medicaid Annual Reports for State Fiscal Year 2005/2006 and 2006/2007. The numerator is the (unduplicated) number of all Medicaid children (Title XIX and XXI) under age 19 years who received at least one processed claim during the period involved, whether or not he/she was enrolled on the date the claim was paid but was enrolled at the time the service for the claim was provided. The denominator is the number of all children who applied and have been approved to receive services, regardless of whether he/she received services and/or any claims have been filed on his/her behalf. Therefore, any post-annual report data of all Medicaid children's enrollment, recipients of service(s), and/or total costs of received services received for a specific state fiscal year, which is obtained after the date of the data used for the Medicaid report, will differ from the data in the report because retroactive eligibility will be included in the new figures.

- Section Number:** Health Systems Capacity Indicator #07A

Field Name: HSC07A

Row Name:

Column Name:

Year: 2005

Field Note:

The numerator is data provided by the Louisiana Medicaid Program, which is the (unduplicated) number of Medicaid recipient children under age 19 years who received a medical service during FFY 2003-2004, by date of service, in which CommunityCARE fees are not considered paid claims. The denominator, which is from the American Academy of Pediatrics' Children's Health Insurance Status and Medicaid/ SCHIP Eligibility and Enrollment, 2004: State Reports (September 2005), is an estimate of the number of U.S. children through age 18 eligible for Medicaid/State Child Health Insurance Program.

HEALTH SYSTEMS CAPACITY MEASURE # 07B

The percent of EPSDT eligible children aged 6 through 9 years who have received any dental services during the year.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>39.4</u>	<u>41.5</u>	<u>42.0</u>	<u>40.2</u>	<u>40.4</u>
Numerator	<u>53,553</u>	<u>59,417</u>	<u>62,777</u>	<u>58,224</u>	<u>62,241</u>
Denominator	<u>135,807</u>	<u>143,106</u>	<u>149,564</u>	<u>144,751</u>	<u>153,948</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Year: 2009
Field Note:
Pregnant women are covered under the state's LaMOMS program. This program is a standard Medicaid program and is not covered by SCHIP funds.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: LA

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	3	Yes
Annual linkage of birth certificates and WIC eligibility files	3	Yes
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	3	Yes
Annual birth defects surveillance system	3	Yes
Survey of recent mothers at least every two years (like PRAMS)	3	Yes

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: LA

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	2	No
Other: Caring Community Youth Survey (CCYS)	3	Yes

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

Is the Data Provisional or Final?

Provisional

Field Level Notes

- Section Number:** Health Status Indicator #04C

Field Name: HSI04C

Row Name:

Column Name:

Year: 2007

Field Note:

Data is provisional, and based on 2005. Since 2002, the primary data source of analysis and reporting for this indicator is the Louisiana Hospital Inpatient Discharge Data (LAHIDD). LAHIDD is compiled by the Health Statistics Department of the Louisiana Office of Public Health, and EMS/Injury Research and Prevention Program analyzes the data needed for this indicator. Since participation in reporting hospital inpatient discharge data is not mandatory in Louisiana, then differences in the number, size, and type of hospitals reporting annually will affect our data reported. This variability limits year-to-year comparison analyses.

- Section Number:** Health Status Indicator #04C

Field Name: HSI04C

Field Name: HSIRace_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2009
Field Note:
Annie E. Casey Foundation, KIDS COUNT (<http://aecf.org/kidscount/>) This is for Children under age 18 who live with their own single parent either in a family or subfamily. Updated January 2008. No further racial breakdown is given.

The data for this measure come from the 2000 and 2001 Supplementary Survey and the 2002 through 2006 American Community Survey (ACS). The 2000 through 2004 ACS surveyed approximately 700,000 households monthly during each calendar year. In general but particularly for these years, use caution when interpreting estimates for less populous states or indicators representing small subpopulations, where the sample size is relatively small. Beginning in January 2005, the U.S. Census Bureau expanded the ACS sample to 3 million households (full implementation), and in January 2006 the ACS included group quarters. The ACS, fully implemented, is designed to provide annually updated social, economic, and housing data for states and communities. (Such local-area data have traditionally been collected once every ten years in the long form of the decennial census.) Single-parent families may include cohabiting couples and do not include children living with stepparents. Children who live in group quarters (for example, institutions, dormitories, or group homes) are not included in this calculation. Data Source: Population Reference Bureau, analysis of data from the U.S. Census Bureau, Census 2000 Supplementary Survey, 2001 Supplementary Survey, 2002 through 2006 American Community Survey.

3. **Section Number:** Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2009
Field Note:
Total for all races is from the State Department of Social Services, Office of Family Services, and reflects the number of children age 0-21 receiving Food Stamps in State Fiscal Year 2006-07. A racial breakdown is not available

4. **Section Number:** Indicator 09A
Field Name: HSIRace_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2009
Field Note:
From Medicaid: Unduplicated Count of Eligibles by Race FFY 2007 (October 2007- September 2007). Ages 0-19. Hispanic or Latino includes Hispanic or LATino (no other race information) AND Hispanic or Latino and one or more races. Ethnicity not reported includes Invalid Race Code AND More than One Race (Hispanic or Latino not indicated) AND Unknown.

5. **Section Number:** Indicator 09A
Field Name: HSIRace_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2009
Field Note:
From Medicaid: Unduplicated Count of Eligibles by Race FFY 2007 (October 2007- September 2007). Ages 0-19. Hispanic or Latino includes Hispanic or LATino (no other race information) AND Hispanic or Latino and one or more races. Ethnicity not reported includes Invalid Race Code AND More than One Race (Hispanic or Latino not indicated) AND Unknown.

6. **Section Number:** Indicator 09A
Field Name: HSIRace_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2009
Field Note:
Total for all races is from the State Department of Social Services, Office of Family Services, and reflects the number of children age 0-21 receiving Food Stamps in State Fiscal Year 2007-08. A racial breakdown is not available

7. **Section Number:** Indicator 09A
Field Name: HSIRace_WICNo
Row Name: Number enrolled in WIC
Column Name:
Year: 2009
Field Note:
Data is for FFY 2007. The number was derived by adding the number of infants and children that participated in the reporting year, based on the average number of vouchers. This was found to be more accurate versus using unique identifiers. Past counts of unique identifiers included children later found to be ineligible or duplicates.

The racial and ethnic breakdown were derived from the PHAME Report. Information based upon Race/Idenity as entered into PHAME. This was used to pull a percentage of race and apply to the actual participation numbers. The participation numbers are not unique pass ID's, they reflect the actual number of people served (holding WIC benefits).

8. **Section Number:** Indicator 09A
Field Name: HSIRace_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2009
Field Note:
Data is from National Criminal Justice Reference Service website (www.ncjrs.org). Office of Juvenile Justice and Delinquency Prevention. (OJJDP), Juvenile Justice Bulletin, August 2005, Juvenile Arrest, 2003. Juvenile arrest rates are calculated by dividing the number of arrests of persons ages 10-17 by the number of persons in the population ages 10-17. No racial breakdown is available.

9. **Section Number:** Indicator 09A
Field Name: HSIRace_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2009

Field Note:

Annie E. Casey Foundation, KIDS COUNT (<http://aecf.org/kidscount/>). This is teenagers between the ages of 16 and 19 who are not enrolled in high school and are not high school graduates. Updated January 2008. No further racial breakdown is given.

The data for this measure come from the 2000 and 2001 Supplementary Survey and the 2002 through 2006 American Community Survey (ACS). The 2000 through 2004 ACS surveyed approximately 700,000 households monthly during each calendar year. In general but particularly for these years, use caution when interpreting estimates for less populous states or indicators representing small subpopulations, where the sample size is relatively small. Beginning in January 2005, the U.S. Census Bureau expanded the ACS sample to 3 million households (full implementation), and in January 2006 the ACS included group quarters. The ACS, fully implemented, is designed to provide annually updated social, economic, and housing data for states and communities. (Such local-area data have traditionally been collected once every ten years in the long form of the decennial census.) This measure focuses on teens ages 16 to 19 rather than young adults 16 to 24 because a large share of 18- to 24-year-olds migrate across state lines each year. The high interstate migration rates confound the connection between state policies and programs and state dropout rates. Raw numbers are rounded to the nearest thousand. Data Source: Population Reference Bureau, analysis of data from the U.S. Census Bureau, Census 2000 Supplementary Survey, 2001 Supplementary Survey, 2002 through 2006 American Community Survey.

10. **Section Number:** Indicator 09B

Field Name: HSIEthnicity_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name:

Year: 2009

Field Note:

Annie E. Casey Foundation, KIDS COUNT (<http://aecf.org/kidscount/>) This is for Children under age 18 who live with their own single parent either in a family or subfamily. Updated January 2008. No further ethnicity breakdown is given.

11. **Section Number:** Indicator 09B

Field Name: HSIEthnicity_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name:

Year: 2009

Field Note:

Total for all races is from the State Department of Social Services, Office of Family Services, and reflects the number of children age 0-21 receiving Food Stamps in State Fiscal Year 2007-08. A ethnicity breakdown is not available.

12. **Section Number:** Indicator 09B

Field Name: HSIEthnicity_JuvenileCrimeRate

Field Name: S12_Children

Row Name: Children 0 through 19 years old

Column Name:

Year: 2009

Field Note:

Louisiana Vital Statistics, Data for 2006 is preliminary.

19. Section Number: Indicator 12

Field Name: S12_50percent

Row Name: Percent Below: 50% of poverty

Column Name:

Year: 2009

Field Note:

Annie E. Casey Foundation, KIDS COUNT (<http://aecf.org/kidscount>). This is the share of children under age 18 who live in families with incomes less than 50 percent of the federal poverty level, as defined by the U.S. Office of Management and Budget. Updated January 2008. No further racial breakdown is given.

The data for this measure come from the 2000 and 2001 Supplementary Survey and the 2002 through 2006 American Community Survey (ACS). The 2000 through 2004 ACS surveyed approximately 700,000 households monthly during each calendar year. In general but particularly for these years, use caution when interpreting estimates for less populous states or indicators representing small subpopulations, where the sample size is relatively small. Beginning in January 2005, the U.S. Census Bureau expanded the ACS sample to 3 million households (full implementation), and in January 2006 the ACS included group quarters. The ACS, fully implemented, is designed to provide annually updated social, economic, and housing data for states and communities. (Such local-area data have traditionally been collected once every ten years in the long form of the decennial census.) The federal poverty definition consists of a series of thresholds based on family size and composition. In 2000, a 50% poverty threshold for a family of two adults and two children was \$8,731. Poverty status is not determined for people in military barracks, institutional quarters, or for unrelated individuals under age 18 (such as foster children). Data Source: Population Reference Bureau, analysis of data from the U.S. Census Bureau, Census 2000 Supplementary Survey, 2001 Supplementary Survey, 2002 through 2006 American Community Survey.

20. Section Number: Indicator 12

Field Name: S12_100percent

Row Name: 100% of poverty

Column Name:

Year: 2009

Field Note:

Annie E. Casey Foundation, KIDS COUNT (<http://aecf.org/kidscount>). This is the share of children under age 18 who live in families with incomes below the federal poverty level, as defined by the U.S. Office of Management and Budget. Updated January 2008. No further racial breakdown is given.
