**FORM 2**  
**MCH BUDGET DETAILS FOR FY 2009**

*[Secs. 504 (d) and 505(a)(3)(4)]*

**STATE: MN**

**1. FEDERAL ALLOCATION**

(Item 15a of the Application Face Sheet [SF 424])  
 Of the Federal Allocation (1 above), the amount earmarked for:

\$ 9,043,482

A.Preventive and primary care for children:

\$ 3,354,060 ( 37.09%)

B.Children with special health care needs:

\$ 3,292,723 ( 36.41%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 851,000 ( 9.41%)

(The above figure cannot be more than 10% ) [Sec. 504(d)]

**2. UNOBLIGATED BALANCE** (Item 15b of SF 424)

\$ 842,441

**3. STATE MCH FUNDS** (Item 15c of the SF 424)

\$ 7,032,333

**4. LOCAL MCH FUNDS** (Item 15d of SF 424)

\$ 3,248,335

**5. OTHER FUNDS** (Item 15e of SF 424)

\$ 5,420,487

**6. PROGRAM INCOME** (Item 15f of SF 424)

\$ 50,782

**7. TOTAL STATE MATCH** (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 6,184,197

\$ 15,751,937

**8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)**

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 25,637,860

**9. OTHER FEDERAL FUNDS**

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 87,500

b. SSDI: \$ 94,644

c. CISS: \$ 140,000

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 0

f. EMSC: \$ 0

g. WIC: \$ 124,576,089

h. AIDS: \$ 0

i. CDC: \$ 1,756,322

j. Education: \$ 512,250

k. Other:

HRSA \$ 4,598,815

PRAMS \$ 151,052

**10. OTHER FEDERAL FUNDS** (SUBTOTAL of all Funds under item 9)

\$ 131,916,672

**11. STATE MCH BUDGET TOTAL**

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 157,554,532

**TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT**  
**STATE PROFILE FOR FY 2009**  
*[Sec. 506(A)(1)]*  
**STATE: MN**

1. State MCH Administration:  
*(max 2500 characters)*

The Minnesota Department of Health is one of the major administrative agencies of state government. The Commissioner of Health is appointed by the governor with confirmation by the state senate. The Executive Office is organized into three Bureaus: Policy Quality and Compliance Bureau, Health Protection Bureau, and Community and Family Health Promotion Bureau. Within the Bureau of Community and Family Health Promotion is the Division of Community and Family Health, the Division of Health Promotion and Chronic Disease and the Office of Minority and Multicultural Health. The Division of Community and Family Health administers the Title V Programs. Other programs within the division include WIC and the Office of Public Health Practice.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ <u>9,043,482</u>
3. Unobligated balance (Line 2, Form 2)	\$ <u>842,441</u>
4. State Funds (Line 3, Form 2)	\$ <u>7,032,333</u>
5. Local MCH Funds (Line 4, Form 2)	\$ <u>3,248,335</u>
6. Other Funds (Line 5, Form 2)	\$ <u>5,420,487</u>
7. Program Income (Line 6, Form 2)	\$ <u>50,782</u>
<b>8. Total Federal-State Partnership (Line 8, Form 2)</b>	<b>\$ <u>25,637,860</u></b>

9. Most significant providers receiving MCH funds:

CHBs (local public health agencies)

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	<u>10,855</u>
b. Infants < 1 year old	<u>71,645</u>
c. Children 1 to 22 years old	<u>16,215</u>
d. CSHCN	<u>7,244</u>
e. Others	<u>3,497</u>

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:  
*(max 2500 characters)*

The Family Planning Special Projects fund 32 statewide family planning clinics and a statewide family planning hotline. Positive Alternatives program funds 31 statewide grantees to provide services to pregnant women and their infants. The Medical Home Project supports quality improvement of care provided to children with special health care needs within 21 clinical settings. Title V programs partner with the MDH Labs, the University of Minnesota and Mayo Clinic to provide newborn screening, diagnosis and follow-up services. MCSHN clinics are available in underserved areas of the state.

b. Population-Based Services:  
*(max 2500 characters)*

The Title V programs continue to work with others within the department to improve the interoperability of data systems impacting children's health (Birth Defects Information System, WIC, Immunization Registry, Lead Screening, and Newborn Screening Program). The Follow-Along Program provides screening for children at risk up to age 3 years, including the social emotional domain of development. The Title V and Title XIX programs meet regularly to discuss issues impacting low-income high risk populations.

c. Infrastructure Building Services:  
*(max 2500 characters)*

The Data/Epi Unit supports program planning, analysis, and evaluation across the Title V programs. The Title V programs sponsor statewide trainings and provide technical assistance in the areas of maternal depression, infant and children's mental health, reproductive health, hearing and vision screening, home visiting, available resources for families with cshcn, EPSDT training and others.

12. The primary Title V Program contact person:

Name Maggie Diebel

Title Division Director

Address P.O. Box 64882

**FIELD LEVEL NOTES**

None

**FORM 11**  
**TRACKING PERFORMANCE MEASURES**  
[SECS 485 (2)(2)(B)(iii) AND 486 (A)(2)(A)(iii)]  
**STATE: MN**

**Form Level Notes for Form 11**

Error noted in 2004 entry which should have been entered into 2005 and 2005 data which should have been entered into 2006. To correct this unintentional error we entered correct data into 2006 and current data into 2007. Note that 2004 data is in reality data representing 2005 but we are unable to correct the data for 2004 and 2005.

**PERFORMANCE MEASURE # 01**

The percent of screen positive newborns who received timely follow up to definitive diagnosis and clinical management for condition(s) mandated by their State-sponsored newborn screening programs.

	Annual Objective and Performance Data				
	2003	2004	2005	2006	2007
Annual Performance Objective	100	100	100	100	100
Annual Indicator	100.0	100.0	100.0	100.0	
Numerator	81	74	141	141	
Denominator	81	74	141	141	

Check this box if you cannot report the numerator because  
 1. There are fewer than 5 events over the last year, and  
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

*(Explain data in a year note. See Guidance, Appendix IX.)*

**Field Note:**

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

Denominator is based on prevalence estimate of 12.4% of child population in MN having a special health care need. Child population based on US Census estimate for 2005.

**PERFORMANCE MEASURE # 06**

The percentage of youth with special health care needs who received the services necessary to make transitions to all aspects of adult life, including adult health care, work, and independence.

**Annual Objective and Performance Data**

	2003	2004	2005	2006	2007
Annual Performance Objective	5.8	5.8	6.4	6.4	6.4
Annual Indicator	5.8	5.8	5.8	5.8	52.9
Numerator	9,535	8,920	8,843		
Denominator	164,392	153,795	152,468		

Check this box if you cannot report the numerator because  
 1. There are fewer than 5 events over the last year, and  
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final Final

Annual Performance Objective	55	55	57	57	59
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

**Field Level Notes**

1. **Section Number:** Performance Measure #6

**Field Name:** PM06

**Row Name:**

**Column Name:**

**Year:** 2007

**Field Note:**

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate the NPM06 indicator for the 2005-2006 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the two surveys are not comparable for PM #06 and the 2005-2006 may be considered baseline data.

2. **Section Number:** Performance Measure #6

**Field Name:** PM06

**Row Name:**

**Column Name:**

**Year:** 2006

**Field Note:**

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

3. **Section Number:** Performance Measure #6

**Field Name:** PM06

**Row Name:**

**Column Name:**

**Year:** 2005

**Field Note:**

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

Denominator is based on prevalence estimate of 12.4% of child population in MN having a special health care need. Child population based on US Census estimate for 2005.

**PERFORMANCE MEASURE # 07**

Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.

**Annual Objective and Performance Data**

	2003	2004	2005	2006	2007
Annual Performance Objective	90	90	90	90	90
Annual Indicator	83.9	85.2	82.5	82.6	
Numerator	55,373	56,015	55,417	58,242	
Denominator	65,999	65,745	67,173	70,511	

Check this box if you cannot report the numerator because  
 1. There are fewer than 5 events over the last year, and  
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

2007 data not yet available

2. **Section Number:** Performance Measure #7

**Field Name:** PM07

**Row Name:**

**Column Name:**

**Year:** 2006

**Field Note:**

2006 data are not yet available.

3. **Section Number:** Performance Measure #7

**Field Name:** PM07

**Row Name:**

**Column Name:**

**Year:** 2005

**Field Note:**

The percentage of children age 19 to 35 months old who have completed recommended immunizations is estimated from the National Immunization Survey. The denominator is estimated from the birth records, resident 2 year olds. The numerator is calculated as the percentage of children, age 19 to 35 months old, who have completed immunizations, multiplied by the denominator.

Data is estimated from the National Immunization Survey and not true population values and have a built-in error margin which fluctuates between 1-5%. When comparing estimates between years, the difference, especially if small could easily be due to chance. Thus, this decrease is believed to be due to natural fluctuations rather than an indication of negative trends. Next years data will be monitored closely to assure this assumption is correct.

**PERFORMANCE MEASURE # 08**

The rate of birth (per 1,000) for teenagers aged 15 through 17 years.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	13.5	13.5	13	13	12
Annual Indicator	13.4	13.6	12.5	13.8	
Numerator	1,467	1,478	1,365	1,533	
Denominator	109,237	108,688	109,134	110,819	

Check this box if you cannot report the numerator because  
 1. There are fewer than 5 events over the last year, and  
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

[Sec. 505(a)(5)]

**STATE: MN FY: 2009**

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. To improve access to care of CYSHCN (Medical home, specialty care and services, oral health, services organized for easy use)
2. To improve Early Identification of and intervention for CYSHCN (Birth to three).
3. To improve access to comprehensive mental health screening, evaluation, and treatment of CYSHCN.
4. To assure that children and adolescents receive quality, comprehensive health care, including well child care, immunizations, and dental health care.
5. To prevent child abuse and neglect.
6. To prevent teen pregnancy and sexually transmitted infections.
7. To promote mental health for children and adolescents, including suicide prevention.
8. To assure early and adequate prenatal care.
9. To eliminate racial and ethnic health disparities impacting mothers and infants.
10. To promote planned pregnancies and child spacing.

**FORM 15  
TECHNICAL ASSISTANCE(TA) REQUEST**

STATE: MN

APPLICATION YEAR: 2009

No.	Category of Technical Assistance Requested	Description of Technical Assistance Requested <i>(max 250 characters)</i>	Reason(s) Why Assistance Is Needed <i>(max 250 characters)</i>	What State, Organization or Individual Would You suggest Provide the TA (if known) <i>(max 250 characters)</i>
1.	<b>State Performance Measure Issues</b> If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>2</u>	Service delivery models of mental health care for toddlers and young children identified with social-emotional conditions.	Rigorous screening tools, adoption of those tools and reimbursement are fast outpacing the capacity to provide service. Models need to be examined to respond to identified needs, especially in rural areas.	Zero to Three, Washington DC. other to be identified
2.	<b>National Performance Measure Issues</b> If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>4</u>	Toolkit explaining health reimbursement arrangements, health savings accounts and consumer directed health care. Pros and cons from perspective of CYSHCN.	Changes in health insurance are segmenting the market. Segmentation negatively impacts vulnerable populations. CYSHCN programs need to fully understand these changes to better inform and education youth and families of CYSHCN.	National Association of State Health Policy
3.	<b>National Performance Measure Issues</b> If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>3</u>	Description and explanation of various medels of certifying clinical practices for enhanced reimbursement for medical home level of care.	Reimbursement for care coordination looks promising. Standards of clinical practice to justify that reimbursement are needed.	AAP; Illinois, Center for Medical Home Improvement
4.	<b>National Performance Measure Issues</b> If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>1</u>	TA to develop an index for the EHDl loss to follow-up collaborative teams similar to the medical home index.	Would enhance current state efforts in developing a newborn screening and follow-up program.	To be determined
5.	<b>National Performance Measure Issues</b> If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>18</u>	Addressing barriers to first trimester care, increase capacity of providers, raise the standard of practice for early referral. TA expanding providers hours/days of service, assure low income uninsured get health coverage started early.	MN ranks below most other states on this measure. Early, adequate prenatal care will reduce the risk of poor birth outcomes. Maternal conditions need to be addressed early in pregnancy.	Consultation from some perinatal systems expert or from a state that does well on this performance measure.
6.	<b>Data-related Issues - Data Systems Development</b> If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>N/A</u>	Assistance with planning for increasing interoperability of children's health information systems.	MN is a state where data privacy issues have created challenges in developing an interoperable children's health information system.	To be determined
7.	<b>Data-related Issues - Data Systems Development</b> If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>N/A</u>	TA from expert on public health surveillance to provide training to Data/Epi and other pertinent staff in AQ/AC methods and analysis for public health surveillance systems.	Increased activity in developing public health surveillance systems especially around oral health and autism.	Russ Kirby from Alabama
8.	<b>Data-related Issues - Data Systems Development</b> If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>N/A</u>	TA in evaluation of statewide programs when there are not uniform performance/ outcome indicators used by all programs throughout the state. Strategies for assessing overall performance of a statewide program.	Need to evaluate effectiveness of home visiting efforts in MN, but there are various home visiting models in place throughout the state.	To be determined
9.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: _____			

10.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: _____			
11.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: _____			
12.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: _____			

**FORM NOTES FOR FORM 15**

None

**FIELD LEVEL NOTES**

None

**FORM 16**  
**STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET**  
**STATE: MN**

SP #     1    

<b>PERFORMANCE MEASURE:</b>	Proportion of counties that universally offer the Follow-Along Program, or an equivalent approved tracking program, to all children birth to age three.
<b>STATUS:</b>	Active
<b>GOAL</b>	Improve early identification of and participation in early intervention for Children with Special Health Care Needs (CSHCN), birth to three years.
<b>DEFINITION</b>	<p>This performance measure was designed to track children from the time of birth to age three for the purpose of identifying those who may have special health care needs.</p> <p><b>Numerator:</b> Number of counties that implement the Follow-Along Program, or an equivalent approved tracking system, universally.</p> <p><b>Denominator:</b> Total number of counties in Minnesota (N=87)</p> <p><b>Units: 1 Text: 0</b></p>
<b>HEALTHY PEOPLE 2010 OBJECTIVE</b>	Not applicable to this measure.
<b>DATA SOURCES AND DATA ISSUES</b>	Data Sources: MN Follow-Along Program; Local Public Health data (counties)
<b>SIGNIFICANCE</b>	Early identification, screening and referral systems identify children's strengths as well as their needs. These systems can maximize healthy child development and minimize adverse health, social and emotional incidents. Universal screening of all children, birth to age three—regardless of perceived risk factors—promotes thorough identification of those with special health care needs and subsequent provision of intervention services to children who are eligible under Part C of Individuals with Disabilities Education Act (IDEA).

SP # 2

**PERFORMANCE MEASURE:**

Percent of children enrolled in Medicaid who receive Early Periodic Screening, Diagnosis, and Treatment (EPSDT), also known as Child & Teen Checkup (CTC) in MN.

**STATUS:**

Active

**GOAL**

Assure that children and adolescents receive comprehensive health care.

**DEFINITION**

This measure addresses preventive and comprehensive health care for children and adolescents receiving Medicaid. The measure is the percent of children who receive well child visits according to the state's EPSDT periodicity schedule. This measure does not include dental screening or health care services.

**Numerator:**

Number of Minnesota children enrolled in Medicaid who receive one or more EPSDT in any given year.

**Denominator:**

All Minnesota children enrolled in Medicaid who should have received at least one visit in any given year.

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

Not applicable to this measure.

**DATA SOURCES AND DATA ISSUES**

Data Source: MN Dept. of Human Services (MDHS) Data Issues: These data are limited to children and adolescents receiving Medicaid. Estimates must be made for the larger child and adolescent population.

**SIGNIFICANCE**

Well-child care reduces long-term costs by encompassing a variety of health promoting/disease preventing services and by providing opportunities to detect and treat health conditions early. Within the Medicaid population, as in the entire population of children and adolescents in Minnesota, incidence of chronic disease is growing—particularly childhood obesity, diabetes, asthma, mental health disorders, and injuries. Early detection and treatment may assist in reversing this trend.

SP #        3

**PERFORMANCE MEASURE:**

Percent of sexually active ninth grade students who used a condom at last intercourse.

**STATUS:**

Active

**GOAL**

Prevent teen pregnancy and sexually transmitted infections(STIs).

**DEFINITION**

This measure seeks to monitor the prevention of teen pregnancy and STIs by determining (1) the number of sexually active ninth grade students and (2) the percentage of those students who used a condom at last intercourse.

**Numerator:**

Number of sexually active ninth grade students reporting on the Minnesota Student Survey (MSS) in any given year that they used a condom at last intercourse.

**Denominator:**

Total number of sexually active ninth grade students responding to the MSS in any given year.

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

#9-7 (Reduce pregnancies among adolescent females).

#25-11 (Increase the proportion of adolescents who abstain from sexual intercourse or use condoms if sexually active).

**DATA SOURCES AND DATA ISSUES**

Data Source: MSS Data Issues: MSS is administered by the MN Dept. of Education (MDE) in most Minnesota public schools every three years beginning in sixth grade. While this system provides relative consistency of data across grade levels (6th and 9th graders take survey again in 9th and 12th grades), data are unavailable during intervening years.

**SIGNIFICANCE**

Teen pregnancy has been steadily decreasing in recent years but has reached a plateau in Minnesota, while STIs have continued to increase among females and among adolescents and young adults, with significant disparities among some racial/ethnic groups. Tracking condom use by high school students is one method of targeting positive interventions for sexually active teens in both of these critical areas.

SP # 4

**PERFORMANCE MEASURE:**

Incidence of determined cases of child maltreatment by persons responsible for a child's care.

**STATUS:**

Active

**GOAL**

Prevent child abuse and neglect.

**DEFINITION**

For our purposes, a "case" is defined as a child maltreatment report which met the initial statutory screening criteria, was handled using "traditional assessment," and resulted in a "determined" case. MN Counties are increasingly adopting a less conventional and proscribed investigative method called "alternative assessment" wherein a definite determination of abuse/neglect is not made. Instead, families are provided with "wrap around" services that address both their strengths and weaknesses. Because a determination of abuse is not made in these cases, they are not included in the count of child maltreatment cases in this measure.

**Numerator:**

Number of new determined child maltreatment cases, 17 years and under, for any given year in Minnesota.

**Denominator:**

Total number of Minnesota children, 17 years and under, for any given year.

**Units:** 1000 **Text:** Rate

**HEALTHY PEOPLE 2010 OBJECTIVE**

#15-33 (Reduce maltreatment and maltreatment fatalities of children)

**DATA SOURCES AND DATA ISSUES**

Data Sources: MN Department of Human Services (MDHS); MN Department of Health (MDH), Center for Vital Statistics. Data Issues: Abuse and neglect are traditionally underreported; therefore, both incidence and prevalence are usually underestimated. While it might be advantageous to track the number of children allegedly maltreated rather than the number of maltreatment cases, many children would be counted more than once due to the enormous volume of child maltreatment reports received by MDHS. A "case" is a more consistent measure because it consolidates all of the reports received on a particular family or household, even though that family/household may contain more than one child.

**SIGNIFICANCE**

Child maltreatment is among the most prevalent and far-reaching forms of violence in Minnesota. All four maltreatment types (neglect, physical abuse, sexual abuse, mental/emotional injury) are represented here. Further, child and adolescent maltreatment often precedes adult violence and substance misuse/addiction as the abused child grows older.

SP # 5

**PERFORMANCE MEASURE:**

Percent of pregnancies that are intended.

**STATUS:**

Active

**GOAL**

To promote planned pregnancies and child spacing among women and their families.

**DEFINITION**

Adopting a more positive approach, this performance measure is the reverse of our previous measure: Percentage of pregnancies that are unintended (SPM #05, 2000-2005). It also captures the aspect of child spacing by planning pregnancies that have optimal spacing between them.

**Numerator:**

Number of women per year responding on the annual Minnesota Pregnancy Risk Assessment Monitoring System (PRAMS) survey that they became pregnant intentionally.

**Denominator:**

Total number of women responding to the annual PRAMS survey each year.

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

#9-1 (Increase proportion of pregnancies that are intended.)

**DATA SOURCES AND DATA ISSUES**

Source: Annual Minnesota PRAMS survey. Data Issues: This measure depends upon accuracy of self-report procedure as well as response rate to the annual survey. This data has been weighted according to the uniform procedure established by the Centers for Disease Control (CDC) for all states and territories participating in PRAMS. For Minnesota, this is particularly important as we intentionally oversampled two minority populations: American Indians and Blacks. The weighting procedure assures that the responses of these persons will be given weight equal to their actual proportional representation in the population, rather than to their increased numbers in the PRAMS survey.

**SIGNIFICANCE**

Pregnancies which are intended and/or planned will likely result in improved health outcomes, lower occurrence of perinatal/postpartum depression, fewer abortions, decreased child maltreatment and other negative outcomes for pregnant women, infants and children.

SP #          6

**PERFORMANCE MEASURE:**

Percent of pregnant women screened for depression during routine prenatal care.

**STATUS:**

Active

**GOAL**

To assure that screening for perinatal depression becomes a standard component of early and adequate prenatal care for women.

**DEFINITION**

This performance measure was designed to capture an element of early and adequate prenatal care that is not currently being measured in Minnesota.

**Numerator:**

Number of women per year responding on the Minnesota Pregnancy Risk Assessment Monitoring System (PRAMS) survey that they talked with a doctor, nurse or other health care provider about postpartum depression.

**Denominator:**

Total number of women responding to the annual PRAMS survey each year.

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

#18-6 (Increase number of persons seen in primary health care who receive mental health screening & assessment); #16-5 (Reduce maternal illness & complications due to pregnancy); #16-5 (Early & adequate prenatal care)

**DATA SOURCES AND DATA ISSUES**

Source: Annual Minnesota PRAMS survey. Data Issues: This measure depends upon accuracy of self-report procedure as well as response rate to the ongoing annual survey. This data has been weighted according to the uniform procedure established by the Centers for Disease Control (CDC) for all states and territories participating in PRAMS. For Minnesota, this is particularly important as we intentionally oversampled two minority populations: American Indians and Blacks. The weighting procedure assures that the responses of these persons will be given weight equal to their actual proportional representation in the population, rather than to their increased numbers in the PRAMS survey.

**SIGNIFICANCE**

Perinatal depression is a critical element of care for pregnant women, in terms of both mother's and child's well-being. Currently it is not routinely addressed in Minnesota. Screening is the initial step in determining whether treatment or intervention may be appropriate.

**PERFORMANCE MEASURE:**

The degree to which Title V programs enhance statewide capacity for a public health approach to mental health promotion and suicide prevention for children and adolescents.

**STATUS:**

Active

**GOAL**

Promote mental health for children and adolescents, including suicide prevention.

**DEFINITION**

This is a process goal to be accomplished in four stages. Attainment of this goal will be evidenced by the development and implementation of a statewide plan to build capacity for the role of public health in mental health promotion and suicide prevention for children and adolescents.

**Numerator:**

Current stage of activity, with stages being: Stage 1—During the first year Title V staff will work internally to: (a) determine the extent and current status of all mental health activities across all divisions at MDH; (b) develop a comprehensive framework which includes the location and role of mental health within the Department (i.e., where mental health “fits” at MDH); (c) draft a mission statement which outlines our vision of and commitment to mental health promotion and suicide prevention throughout the state, focusing on the child and adolescent population. Stage 2—During years 2-3 Title V staff will work with local public health (LPH) agencies to: (a) determine the additional capacity and training needs of LPH nurses, health educators and other staff regarding mental health promotion and suicide prevention; and (b) support development of needed resources and capacity for our LPH constituents.

**Denominator:**

Number of stages possible, with final stages being: Stage 3—Based on this assessment MDH will draft a statewide mental health promotion/ suicide prevention training plan, together with an evaluation component, in year four. Stage 4—During year 5, MDH will begin implementing its statewide training plan, accompanied by evaluation and other data collection related to the plan.

**Units:** 4 **Text:** Scale

**HEALTHY PEOPLE 2010 OBJECTIVE**

#18-7 (Increase the proportion of children with mental health problems who receive treatment)

#18-2 (Reduce the rate of suicide attempts by adolescents).

**DATA SOURCES AND DATA ISSUES**

Data Source: Minnesota Student Survey (MSS); ASQ (Ages and States Questionnaire); Social Emotional (SE) component; Local county health boards (CHBs); MDH home visiting data; Data derived from the statewide training plan itself. Also, there will be multiple sources of qualitative data. Data Issues: At the present time we have no baseline data regarding the prevalence or incidence of mental health issues in Minnesota, largely because mental health has not been viewed as a public health priority until recently. Quantitative data on mental health is difficult to acquire, as most data relates to mental illness, but we will continue our efforts to gather both qualitative and quantitative data on mental health.

**SIGNIFICANCE**

Mental disorders were the sixth leading cause of emergency room visits among 5-19 year olds in Minnesota and the leading cause of hospitalization for 5-14 year olds in 2001. From 1998-2002 suicide was the third and second leading cause of death for 10-14 year olds and 15-19 year olds, respectively. Today’s numbers are very similar. Public Health Title V programs need to adopt a proactive stance to address these issues by advancing a statewide mental health promotion plan.

SP # 8

**PERFORMANCE MEASURE:**

The ratio of the low birth weight (<2500 grams) rate for American Indian women and women of color to the low birth rate for white women.

**STATUS:**

Active

**GOAL**

To eliminate racial and ethnic health disparities impacting pregnant women, mothers and infants.

**DEFINITION**

Birth weight is a prominent and reliable indicator of health disparities between white and non-white women in Minnesota.

**Numerator:**

Rate of low birth weight for American Indian women and women of color per 1,000 live births.

**Denominator:**

Rate of low birth weight for white women per 1,000 live births.

**Units:** 1 **Text:** Ratio

**HEALTHY PEOPLE 2010 OBJECTIVE**

#16-10 (Reduce low birth weight and very low birth weight.)

**DATA SOURCES AND DATA ISSUES**

Source: State of Minnesota Vital Statistics birth records. Data Issues: This measure depends upon the accuracy of individual birth records.

**SIGNIFICANCE**

There are substantial health disparities for pregnant women, mothers and infants in Minnesota. Many of these disparities are masked by the excellent health outcomes and very high proportion of our white population. Birth weight outcomes are a key indicator of such disparities and a crucial area for improvement. Although very low birth weight infants (VLBW; <1500 grams) are more seriously ill, more likely to die, and incur the most significant short and long term health and education costs, public health has limited ability to affect VLBW which is more in the domain of the maternal and fetal medical care system. Public health can, however, impact low birth weight rates by encouraging early and regular prenatal care, enrollment in WIC, supporting smoking cessation during pregnancy, teaching signs of early labor, assessing for and helping pregnant women deal with stress, and educating about healthy birth intervals.

SP #      9

**PERFORMANCE MEASURE:**

Percent of Children and Youth with Special Health Care Needs (CYSHCN) with one or more unmet needs for specific health care services.

**STATUS:**

Active

**GOAL**

Improve access for CYSHCN to comprehensive care, including specialty services and oral health.

**DEFINITION**

This measure will identify the percent of CYSHCN who have not received all needed oral health or specialty medical services.

**Numerator:**

Number of CYSHCN with one or more unmet service needs.

**Denominator:**

Total number of identified CYSHCN in Minnesota.

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

N/A

**DATA SOURCES AND DATA ISSUES**

Data Sources: State and Local Area Integrated Telephone Survey (SLAITS), CYSHCN version. Data issues: SLAITS data not available every year.

**SIGNIFICANCE**

CYSHCN often have multiple disabilities and service needs cutting across several areas. Thus it is critical to have access to a variety of specialized services, as well as oral health care. Of those children in Minnesota who needed specialty services in 2001, nearly 23,000 (14%) had one or more unmet needs, placing MN last in the Upper Midwest in meeting specialized service needs for CYSHCN.

SP # 10

**PERFORMANCE MEASURE:**

Degree to which comprehensive mental health screening, evaluation, and treatment is provided to Children and Youth with Special Health Care Needs (CYSHCN).

**STATUS:**

Active

**GOAL**

Improve access to comprehensive mental health screening, evaluation, and treatment for CYSHCN.

**DEFINITION**

This specially constructed composite measure was designed to capture three basic mental health identification and service areas: screening, evaluation, and treatment. The scale contained within the measure also has five sub-areas that can be summed across areas for a total score.

**Numerator:**

N/A

**Denominator:**

N/A Units: Scale contains a maximum of 20 units or possible points. Text: Direction and degree of change on this scale (-4 to +4) will be calculated for each of the five sub-scales and aggregated to form a composite number. Individual components, as well as total scores, will be tracked across the years. This process will permit each sub-scale to be assessed individually, leading to greater identification of areas attaining or needing improvement.

**Units:** 20 **Text:** Scale

**HEALTHY PEOPLE 2010 OBJECTIVE**

#18-7 (Increase the proportion of children with mental health problems who receive treatment.)

**DATA SOURCES AND DATA ISSUES**

Data sources: Local Development and Behavior Clinics (DBC) process evaluation; MN Follow-Along Program (FAP) reports; MN Dept. of Human Services (MDHS), Children's Mental Health data; State & Local Area Integrated Telephone Survey (SLAITS), CYSHCN survey; DBC family survey. Data Issues: Specially constructed scale not standardized. SLAITS data not available every year.

**SIGNIFICANCE**

Anxiety, depression (including suicidal thoughts) and other mental disorders often occur among CYSHCN. In addition, CYSHCN are highly vulnerable to maltreatment, including neglect and physical, sexual, and mental abuse. Early identification of and intervention in mental health issues are critical in this population.

**FORM NOTES FOR FORM 16**

Percent of potentially Medicaid-eligible children who have received a service paid by the Medicaid Program.

	<b>Annual Indicator Data</b>				
	<b>2003</b>	<b>2004</b>	<b>2005</b>	<b>2006</b>	<b>2007</b>
<b>Annual Indicator</b>	88.1	87.6	79.3	79.2	
<b>Numerator</b>	355,484	397,000	361,695	364,416	
<b>Denominator</b>	403,484	453,000	456,000	460,000	

Check this box if you cannot report the numerator because  
 1. There are fewer than 5 events over the last year, and  
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

*(Explain data in a year note. See Guidance, Appendix IX.)*

**Is the Data Provisional or Final?**

Final

**Field Level Notes**

1. **Section Number:** Health Systems Capacity Indicator #07A

**Field Name:** HSC07A

**Row Name:**

**Column Name:**

**Year:** 2007

**Field Note:**

2007 data is not yet available

2. **Section Number:** Health Systems Capacity Indicator #07A

**Field Name:** HSC07A

**Row Name:**

**Column Name:**

**Year:** 2005

**Field Note:**

Programs included under Medicaid are Medicaid, Emergency Medicaid, and Medicaid subsidized MNCare enrollees covered under the MA/Minnesota Care waiver.

Denominator: 422,000 ever enrolled during the State FY 2005 + 34,000 uninsured all year and potentially eligible for MA or MinnesotaCare (based on the 2004 survey) = 456,000.

Beginning in 2005, capitation payments are no longer included in the numerator count. This largely explains the decrease in the annual indicator.

**HEALTH SYSTEMS CAPACITY MEASURE # 07B**

The percent of EPSDT eligible children aged 6 through 9 years who have received any dental services during the year.

	<u>Annual Indicator Data</u>				
	2003	2004	2005	2006	2007
Annual Indicator	45.9	46.7	48.5	48.2	48.8
Numerator	32,063	33,479	35,728	36,160	36,814
Denominator	69,788	71,681	73,680	75,058	75,490

Check this box if you cannot report the numerator because  
 1. There are fewer than 5 events over the last year, and  
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

*(Explain data in a year note. See Guidance, Appendix IX.)*

**HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM**  
**STATE: MN**

**HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)**  
*(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)*

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
<b>ANNUAL DATA LINKAGES</b>		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	3	Yes
Annual linkage of birth certificates and WIC eligibility files	3	Yes
Annual linkage of birth certificates and newborn screening files	3	No
<b>REGISTRIES AND SURVEYS</b>		
Hospital discharge survey for at least 90% of in-State discharges	3	Yes
Annual birth defects surveillance system	2	No
Survey of recent mothers at least every two years (like PRAMS)	3	Yes

\*Where:  
1 = No, the MCH agency does not have this ability.  
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.  
3 = Yes, the MCH agency always has this ability.

**FORM 19**  
**HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM**  
**STATE: MN**

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	1	No
Other: MN Student Survey (similar to YRBS)	3	Yes

\*Where:

1 = No

2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.

3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

**Notes:**

**FORM NOTES FOR FORM 21**

None

**FIELD LEVEL NOTES**

1. **Section Number:** Indicator 09A  
**Field Name:** HSIRace\_SCHIPNo  
**Row Name:** Number enrolled in SCHIP  
**Column Name:**  
**Year:** 2009  
**Field Note:**  
In MN, eligibility for SCHIP is children under 2 who live in families with incomes between 275% FPG and 280% FPG. Historically this has been less than 100 children.
  
2. **Section Number:** Indicator 09B  
**Field Name:** HSIEthnicity\_SingleParentPercent  
**Row Name:** Percent in household headed by single parent  
**Column Name:**  
**Year:** 2009  
**Field Note:**  
This is an estimate, based on 2002 data.
