FORM 2
MCH BUDGET DETAILS FOR FY 2009

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: NH

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])

Of the Federal Allocation (1 above), the amount earmarked for:

A.Preventive and primary care for children:

\$ 787,515 (39.42%)

B.Children with special health care needs:

\$ 826,057 (41.35%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 121,662 (6.09%)

(The above figure cannot be more than 10%) [Sec. 504(d)]

\$ 1,997,739

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 0

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 7,170,215

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 870,000

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 0

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 2,872,257

\$ 8,040,215

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 10,037,954

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 94,644

c. CISS: \$ 140,000

d. Abstinence Education: \$ 94,901

e. Healthy Start: \$ 0

f. EMSC: \$ 0

g. WIC: \$ 0

h. AIDS: \$ 0

i. CDC: \$ 306,260

j. Education: \$ 0

k. Other: \$ 0

NH Univ Newborn Hear \$ 120,000

\$

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 755,805

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 10,793,759

FIELD LEVEL NOTES

1. **Section Number:** I. Federal-State MCH Block Grant Partnership

Field Name: PregWomenExpended

Row Name: Pregnant Women

Column Name: Expended

Year: 2007

Field Note:

A significant impact to the difference between the budget vs the actual expenditures for this reporting category (and others) is reflective of the increased cost to salary, health benefits, rent, cost of travel. These costs are increasing at a higher rate than was expected when the FFY07 budget was prepared.

2. **Section Number:** I. Federal-State MCH Block Grant Partnership

Field Name: Children_0_1Expended

Row Name: Infants <1 year old

Column Name: Expended

Year: 2007

Field Note:

A significant impact to the difference between the budget vs the actual expenditures for this reporting category (and others) is reflective of the increased cost to salary, health benefits, rent, cost of travel. These costs are increasing at a higher rate than was expected when the FFY07 budget was prepared.

Also having an impact in this reporting category is the collection of filter paper fees for the Newborn Screening Program. The fees collected were greater than the projection when preparing the FFY07 budget.

3. **Section Number:** I. Federal-State MCH Block Grant Partnership

Field Name: CSHCNExpended

Row Name: CSHCN

Column Name: Expended

Year: 2006

Field Note:

10% variance primarily due to continued budget reductions of State Funds, as well as ongoing reorganizational structure.

4. **Section Number:** I. Federal-State MCH Block Grant Partnership

Field Name: AllOthersExpended

Row Name: All Others

Column Name: Expended

Year: 2006

Field Note:

10% variance primarily due to continued budget reductions of State Funds, as well as ongoing reorganizational structure.

5. **Section Number:** I. Federal-State MCH Block Grant Partnership

Field Name: AdminExpended

Row Name: Administration

Column Name: Expended

Year: 2007

Field Note:

Special Medical Services (SMS) has revised their method of calculating the budget and expenditures for the allotment of the Title V grant and general funds designated to their Section. SMS no longer budgets or reports expenditures as "admin".

SMS also received a significant general fund reduction. This will impact to some degree several reporting categories.

6. **Section Number:** I. Federal-State MCH Block Grant Partnership

Field Name: AdminExpended

Row Name: Administration

Column Name: Expended

Year: 2006

Field Note:

The percentage used in cost allocation will vary from year to year depending on staffing, funding, budget reductions, etc. The combination of which could create a variance of 10% +/- .

Field Name: SickCellDisease_Confirmed
Row Name: SickCellDisease
Column Name: Confirmed Cases
Year: 2009
Field Note:
The number of confirmed cases was the same as the number of presumptive positive screens.

2. **Section Number:** Other Screening Types
Field Name: Other
Row Name: All Rows
Column Name: All Columns
Year: 2009
Field Note:
"Other" is Expanded Metabolics, which began July 1, 2007

FORM 7
NUMBER OF INDIVIDUALS SERVED (UNDUPLICATED) UNDER TITLE V
(BY CLASS OF INDIVIDUALS AND PERCENT OF HEALTH COVERAGE)

[Sec. 506(a)(2)(A)(i-ii)]

STATE: NH

Reporting Year: 2007

Types of Individuals Served	TITLE V	PRIMARY SOURCES OF COVERAGE				
	(A) Total Served	(B) Title XIX %	(C) Title XXI %	(D) Private/Other %	(E) None %	(F) Unknown %
Pregnant Women	2,119	69.0		10.0	12.0	9.0
Infants < 1 year old	13,897	27.0		69.0	2.0	2.0
Children 1 to 22 years old	30,052	19.0		41.0	40.0	0.0
Children with Special Healthcare Needs	3,582	42.1	2.2	47.5	2.5	5.6
Others	55,176	19.0		46.0	35.0	0.0
TOTAL	104,826					

FORM NOTES FOR FORM 7

None

FIELD LEVEL NOTES

1. **Section Number:** Main
Field Name: Children_0_1_TS
Row Name: Infants <1 year of age
Column Name: Title V Total Served
Year: 2009
Field Note:
Number of infants is the same as on Form 6, and is the number of newborns screened for heritable disorders. Many of these infants are also served by other MCH programs, such as community health agencies.
2. **Section Number:** Main
Field Name: Children_1_22_TS
Row Name: Children 1 to 22 years of age
Column Name: Title V Total Served
Year: 2009
Field Note:
Number of 1 to 22 year olds and payor percentages are estimates using contract agency Uniform Data System (UDS) data.
3. **Section Number:** Main
Field Name: CSHCN_TS
Row Name: Children with Special Health Care Needs
Column Name: Title V Total Served
Year: 2009
Field Note:
SMS has embarked on a Data Integrity Enhancement Initiative in FY 2007. This has included reviewing and purging the client list of children and youth who do not have a current application. This does result in what appears to be a decrease in total served but program reporting does indicates that services remain stable.
4. **Section Number:** Main
Field Name: AllOthers_TS
Row Name: Others
Column Name: Title V Total Served
Year: 2009
Field Note:
"Other" include non-pregnant adults and elderly clients served by primary care centers throughout the state.

FIELD LEVEL NOTES

1. Section Number: Main

Field Name: calls_2

Row Name: Number of calls received On the State MCH Hotline This reporting period

Column Name: FY

Year: 2007

Field Note:

Several secretaries receive calls inquiring about MCH related services. The data supplied is an estimate of these calls during the year.

2. Section Number: Optional

Field Name: hnumber_1

Row Name: State MCH toll-free hotline telephone number

Column Name: FY

Year: 2007

Field Note:

NH Family Voices toll-free number funded by SMS is (800) 852-3345 Ext. 4225.

The Parent to Parent of New Hampshire (contract agent of SMS) toll-free number is (800) 698-5465.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2009
[SEC. 506(A)(1)]
STATE: NH

1. State MCH Administration:
(max 2500 characters)

The Title V program is located in the NH Department of Health and Human Services. The Title V program is divided between the Maternal and Child Health Section (MCH) located within the Division of Public Health Services and the Special Medical Services Unit (SMS) located within the Division of Community Based Services. Guided by a newly instituted Memorandum of Understanding, Administration of the Block Grant is assigned jointly to MCH for services to women, infants and children, and to SMS for children and youth with special health care needs. Together both components of the Title V program provide direct, enabling, population based, and infrastructure building services in the following areas: maternal and child health; children with special health care needs; family planning; childhood lead poisoning prevention; adolescent health; home visiting; health and safety in child care; injury prevention; early hearing detection and intervention; and newborn screening.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 1,997,739
3. Unobligated balance (Line 2, Form 2)	\$ 0
4. State Funds (Line 3, Form 2)	\$ 7,170,215
5. Local MCH Funds (Line 4, Form 2)	\$ 0
6. Other Funds (Line 5, Form 2)	\$ 870,000
7. Program Income (Line 6, Form 2)	\$ 0
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 10,037,954

9. Most significant providers receiving MCH funds:

<u>New Hampshire's community health centers</u>
<u>University of New Hampshire</u>
<u>Trustees of Dartmouth College</u>
<u>Child Health Services, Manchester NH</u>

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	2,119
b. Infants < 1 year old	13,897
c. Children 1 to 22 years old	30,052
d. CSHCN	3,582
e. Others	55,176

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:

(max 2500 characters)

Through contacts with community agencies, MCH's, Prenatal, Family Planning, Child Health and Home Visiting Programs provide direct care and enabling services to women, families and children. Home Visiting New Hampshire provides education and support to pregnant women on Medicaid throughout their pregnancy and up to the infant's first birthday. Home visits are made by nurses, social workers, and paraprofessionals. Special emphasis is placed on smoking cessation, decreasing subsequent pregnancies, and maternal depression. Special Medical Services provides community-based care coordination (3 sites) and Neuromotor Specialty Care (6 sites). SMS supports nutrition, feeding & swallowing assessment/treatment and psychology consultation. Special Medical Services works collaboratively with Partners in Health, a project providing family support in 11 communities serving families of children with chronic conditions, as well as with the 12 area agencies serving families with children with developmental disabilities.

b. Population-Based Services:

(max 2500 characters)

MCH prenatal outreach is ongoing. NH SIDS program materials are distributed at conferences, trainings, and health fairs. Child health personnel promote breastfeeding in SIDS risk reduction outreach efforts. MCH and SMS have jointly worked on a legislative Autism Commission and is coordinating efforts as part of a statewide Autism Plan. The Injury Prevention Program (IPP) provides information to the public and media on prevention of motor vehicle crash injuries and child passenger safety. MCH staff are active participants in promoting and utilizing the State Suicide Prevention Plan; participating on the NH Youth Suicide Prevention Advisory Assembly; and supporting community-based post-ventions after a visible suicide in a community. The IPP also continues to educate the public about firearm safety and coordinates the Buckle Up NH Coalition Week activities. The IPP supports domestic and sexual violence centers to facilitate programs on sexual and intimate partner violence. MCH provided financial support for the WIC Program's annual breastfeeding conference. MCH also distributed breastfeeding resources and information from the Breastfeeding Task Force and WIC staff to Title V-funded agencies. The Newborn Screening Program continues to provide education and technical assistance for hospitals and healthcare providers throughout the state to assure that every newborn is screened and receives appropriate follow-up, when indicated. The EHDI program assists hospitals to establish screening programs, through the provision of hospital guidelines, education, and technical assistance. A data tracking system is operational. Special Medical Services provides nutrition outreach education activities for children with diabetes and cystic fibrosis.

c. Infrastructure Building Services:

(max 2500 characters)

One of the most significant efforts of NH's Title V program is the support of a network of 13 community health centers throughout the state. Title V funds enable the community health centers to develop innovative plans and new relationships for integrating oral health and primary care as well as mental health care and primary care. Title V funds are often the "glue" that enable health centers to do outreach, build systems, and meet the unique needs of vulnerable populations that are not covered by fees for service for direct care. The NH SSDI project is leading efforts to provide increased data capacity for MCH. Projects include data linkages in the EHDI program, Newborn Screening Program and a web based prenatal data collection and linkage process. The Early Childhood Comprehensive Systems (ECCS) project has developed with partners throughout the state the ECCS Implementation Plan that focuses on infrastructure building across domains for unified early childhood services. As part of ECCS, Healthy Child Care New Hampshire trains and supports health consultants to work with child care programs to improve health and safety in childcare. MCH collaborates with CHIP program to improve outreach and enrollment of children in Healthy Kids. MCH is implementing an adolescent health strategic plan to identify gaps and meet the health needs of youth. SMS, in partnership, financially supports continued planning of communities in response to infant mental health concerns SMS advised the Bureau of Behavioral Health in its CARE New Hampshire

Initiative to develop an implement systems of care for children with Serious Emotional Disturbance (SED) and their families. SMS provides support for the activities of the Center for Medical Home Improvement (Crotched Mountain). Through the activities of the Health Care Transition Project, consultation is offered to pediatric practices needing assistance with planning for youth and young adults. SMS works with the New Hampshire Pediatric Society and other collaborators to provide education and develop health transition services. Collaboration has begun with the Hood Center and the New Hampshire Integrated Services Grant (MCHB funded) to provide consultation to 3 additional pediatric practices to support chronic care management for children with special health care needs.

12. The primary Title V Program contact person:

Name Patricia Tilley
 Title Title V Director/Administrator Maternal and Child Health
 Address 29 Hazen Drive
 City Concord
 State NH
 Zip 03301

FORM NOTES FOR FORM 10

None

FIELD LEVEL NOTES

1. **Section Number:** Most significant providers receiving MCH funds

Field Name: ProviderFund1

Row Name:

Column Name:

Year: 2009

Field Note:

Matched with significant state general funds, Title V provides support to a network of 13 community health centers that serve as the safety net providers of health care for NH's vulnerable low-income families, pregnant women and children.

2. **Section Number:** Most significant providers receiving MCH funds

Field Name: ProviderFund2

Row Name:

Column Name:

Year: 2009

Field Note:

MCH funds the MCH Epidemiologist through a shared arrangement with UNH.

3. **Section Number:** Most significant providers receiving MCH funds

Field Name: ProviderFund3

Row Name:

Column Name:

Year: 2009

Field Note:

Trustees of Dartmouth College are the financial stewards for the Injury Prevention Center and Child Development Clinics for CYSHCN.

4. **Section Number:** Most significant providers receiving MCH funds

Field Name: ProviderFund4

Row Name:

Column Name:

Year: 2009

Field Note:

Through Title V contracts, Child Health Services, located in Manchester NH, provides population-based pediatric primary care and adolescent care as well as Community Based Care Coordination, Neuromotor Clinics, and Comprehensive Nutrition Network Services for CYSHCN.

FORM 11
TRACKING PERFORMANCE MEASURES
[SECS 485 (2)(2)(B)(iii) AND 486 (A)(2)(A)(iii)]
STATE: NH

Form Level Notes for Form 11

This reflects those children with a BMI of 95% or greater. If the population of children with a BMI of 85-95% (identified by the CDC as "at risk for overweight") is included, the percentage more than doubles from 9% to 18.9%. This is the second year of data collection for this measure. The numbers represent solely a select population of children who are being served by the Neuromotor Clinic Program. Those with a diagnosis of Spina Bifida were not able to be included in this years data set but will be targeted next year.

PERFORMANCE MEASURE # 01

The percent of screen positive newborns who received timely follow up to definitive diagnosis and clinical management for condition(s) mandated by their State-sponsored newborn screening programs.

	Annual Objective and Performance Data				
	2003	2004	2005	2006	2007
Annual Performance Objective	85	85	90	95	100
Annual Indicator	100.0	100.0	100.0	100.0	100.0
Numerator	13	11	16	14	23
Denominator	13	11	16	14	23

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate the NPM06 indicator for the 2005-2006 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the two surveys are not comparable for PM #06 and the 2005-2006 may be considered baseline data.

2. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2006

Field Note:

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

3. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2005

Field Note:

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

PERFORMANCE MEASURE # 07

Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	80	80	80	87	87
Annual Indicator	80.9	83.9	86.3	82.5	80.7
Numerator	12,177	12,628	12,990	12,418	11,485
Denominator	15,052	15,052	15,052	15,052	14,233

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. **Section Number:** Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2007

Field Note:

The numerator was obtained by using the most recent CDC National Immunization Survey rate for NH (revised February, 2008 estimates), available from the NH Immunization Program, and applying it to the denominator. The denominator is two year olds in NH in 2007, from the US Bureau of the Census Estimates Branch.

2. **Section Number:** Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2006

Field Note:

The numerator was obtained by using the most recent CDC National Immunization Survey rate for NH, available from the NH Immunization Program, and applying it to the denominator. The denominator is two year olds in NH from the 2000 census.

3. **Section Number:** Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2005

Field Note:

Data is from calendar 2004. This is the most recent data available.

PERFORMANCE MEASURE # 08

The rate of birth (per 1,000) for teenagers aged 15 through 17 years.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	12	12	10	6.9	6.9
Annual Indicator	7.4	7.4	6.9	7.2	7.4
Numerator	199		195	205	203
Denominator	26,864		28,128	28,653	27,473

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Field Level Notes

- Section Number:** Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2007

Field Note:

Birth data is resident occurrent births only, i.e. out-of-state data is not available.

- Section Number:** Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2006

Field Note:

Birth data is resident occurrent births only, i.e. out-of-state data is not available.

- Section Number:** Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2005

Field Note:

NH moved to the 2003 National Birth Certificate Specifications in July, 2004. Neighboring states were not using the new national specifications in 2004, making it particularly difficult to calculate certain measures when including out-of-state births to NH residents. In addition, since the change was implemented by NH Vital Records (Department of State) in the middle of 2004, seamless statistics for the entire year (2004) is difficult or impossible to produce for many measures. As such, we have decided to provide 2005 birth data for this application. Although these data come with the significant limitation of only including resident occurrent births (i.e. no NH resident out-of-state births yet), we feel it is the best possible choice at this time. We recognize the critical importance of vital records and are actively working on multiple approaches to improve the accuracy and timeliness of vital records in New Hampshire.

PERFORMANCE MEASURE # 09

Percent of third grade children who have received protective sealants on at least one permanent molar tooth.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	46	46	42.4	42.4	42.4
Annual Indicator	45.9	42.4	42.4	42.4	42.4
Numerator	188	249	249	249	249
Denominator	410	587	587	587	587

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Field Level Notes

- Section Number:** Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2007

Field Note:

Statewide oral health data for NPM #9 and SPM #4 is generally collected every five years through the Oral Health Survey of Third Grade Children. The next data from the survey will not be available until the spring of 2010.

- Section Number:** Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2006

Field Note:

Statewide oral health data for NPM #9 and SPM #4 is generally collected every three years through the Oral Health Survey of Third Grade Children. The next data from the survey will not be available until the spring of 2009.

- Section Number:** Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2005

Field Note:

Statewide oral health data for NPM #9 and SPM #4 is collected every three years through The Oral Health Survey of Third Grade Children. The survey was conducted for the second time in the spring of 2004 and will be repeated again in the spring of 2007.

PERFORMANCE MEASURE # 10

The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	36	36	36	60	60
Annual Indicator	51.7	60.7	0	0	89.3
Numerator					
Denominator					
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. <i>(Explain data in a year note. Field Level Notes

1. Section Number: Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2007

Field Note:

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Calendar year 2007 vital records death data is provisional, due to the fact that out-of-state data is incomplete.

Raw data is as follows:

NH numerator: 3

NH denominator: 241,716

US Rate per 100,000; 2005: 1.39

US data source: http://webappa.cdc.gov/sasweb/ncipc/mortrate10_sy.html

The Standard Ratio methodology as described in the block grant guidance is used to calculate the indicator. Essentially, 89.3 means that 3 events in NH is 89.3% of what one would expect, given the US rate per 100,000. Please note that this calculation is based on the 2005 US rate, because it was the most recent year available.

2. Section Number: Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2006

Field Note:

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Calendar year 2006 vital records death data is provisional, due to the fact that out-of-state data is incomplete. As of the time of the 2009 grant submission, there were no deaths.

3. Section Number: Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2005

Field Note:

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Finalized data for 2005 became available during preparation of the 2009 application, so this data has been entered, superceding the 2004 data that was provided for 2005 in the 2008 application. There were no deaths in 2005.

PERFORMANCE MEASURE # 11

The percent of mothers who breastfeed their infants at 6 months of age.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective				45	45
Annual Indicator			45.9	43.8	48.7

Field Level Notes

1. Section Number: Performance Measure #13

Field Name: PM13

Row Name:

Column Name:

Year: 2007

Field Note:

Data was obtained from the March, 2007 report, "Whose Kids are Covered, A State-by-State Look at Uninsured Children" prepared for the Robert Wood Johnson Foundation. The data comes from page 4, table 3 of the report, "Number and Percent of Children (0-18) With and Without Health Insurance Coverage in the United States, by State: Three-Year Average 2003-2005". According to the "Kids Count New Hampshire Data Book, 2008", the uninsured rate continues to be 6% (data obtained from Census estimates). Kids Count New Hampshire is based at the Children's Alliance of NH.

The Kaiser Family Foundation Website (statehealthfacts.org) show 7% for NH. Their uninsured estimates are based on the Census Bureau's March 2006 and 2007 Current Population Survey (CPS: Annual Social and Economic Supplements).

The Behavioral Risk Factor Surveillance Survey conducted in NH in 2005-2006 may be releasing information they have gathered in the near future, regarding the percentage of children uninsured in NH. When this data is released, it will be reviewed to see how it compares with the census estimates.

2. Section Number: Performance Measure #13

Field Name: PM13

Row Name:

Column Name:

Year: 2006

Field Note:

Data was obtained from the March, 2007 report, "Whose Kids are Covered, A State-by-State Look at Uninsured Children" prepared for the Robert Wood Johnson Foundation. The data comes from page 4, table 3 of the report, "Number and Percent of Children (0-18) With and Without Health Insurance Coverage in the United States, by State: Three-Year Average 2003-2005".

3. Section Number: Performance Measure #13

Field Name: PM13

Row Name:

Column Name:

Year: 2005

Field Note:

Data was obtained from Tricia Brooks, Executive Director of the Healthy Kids Corporation, and "is a three-year average of the 2004 census data". This data is now deemed by Healthy Kids to be more reliable than the previously used Insurance Family Survey from 2001.

PERFORMANCE MEASURE # 14

Percentage of children, ages 2 to 5 years, receiving WIC services with a Body Mass Index (BMI) at or above the 85th percentile.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective				35	35

Field Level Notes

1. **Section Number:** Performance Measure #15
Field Name: PM15
Row Name:
Column Name:
Year: 2007
Field Note:
 Data does not include out-of-state births, as they are not available.

2. **Section Number:** Performance Measure #15
Field Name: PM15
Row Name:
Column Name:
Year: 2006
Field Note:
 Resident occurrent births, as data for out-of-state births are not available.

In preparation for the 2009 application, the denominator was changed from 12788 to 12605, thus changing the indicator from 12.5 to 12.7. This was done to correct the mistaken inclusion of 183 "unknowns".

3. **Section Number:** Performance Measure #15
Field Name: PM15
Row Name:
Column Name:
Year: 2005
Field Note:
 556 birth records are missing information for this measure.

NH moved to the 2003 National Birth Certificate Specifications in July, 2004. Neighboring states were not using the new national specifications in 2004, making it particularly difficult to calculate certain measures when including out-of-state births to NH residents. In addition, since the change was implemented by NH Vital Records (Department of State) in the middle of 2004, seamless statistics for the entire year (2004) is difficult or impossible to produce for many measures. As such, we have decided to provide 2005 birth data for this block grant. Although these data come with the significant limitation of only including resident occurrent births (i.e. no NH resident out-of-state births yet), we feel it is the best possible choice at this time. We recognize the critical importance of vital records and are actively working on multiple approaches to improve the accuracy and timeliness of vital records in New Hampshire.

PERFORMANCE MEASURE # 16

The rate (per 100,000) of suicide deaths among youths aged 15 through 19.

Field Level Notes

1. Section Number: Performance Measure #16

Field Name: PM16

Row Name:

Column Name:

Year: 2007

Field Note:

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Raw 2007 *provisional* (incomplete) data is as follows:

NH numerator: 3

NH denominator: 98207

US Rate per 100,000 in *2005*: 8.2

US data source: http://webappa.cdc.gov/sasweb/ncipc/mortrate10_sy.html

The Standard Ratio methodology as described in the block grant guidance is used to calculate the indicator. Essentially, 37.2 means that 3 events in NH is 37.2% of what one would expect, given the US rate per 100,000. Please note that the US Rate for *2005* was used in this calculation, as it was the most recent available.

2. Section Number: Performance Measure #16

Field Name: PM16

Row Name:

Column Name:

Year: 2006

Field Note:

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Raw 2006 *provisional* (incomplete) data is as follows:

NH numerator: 1

NH denominator: 96995

US Rate per 100,000 in *2005*: 8.2

US data source: http://webappa.cdc.gov/sasweb/ncipc/mortrate10_sy.html

The Standard Ratio methodology as described in the block grant guidance is used to calculate the indicator. Essentially, 12.6 means that 1 event in NH is 12.6% of what one would expect, given the US rate per 100,000. Please note that the US Rate for *2005* was used in this calculation, as it was the most recent available.

3. Section Number: Performance Measure #16

Field Name: PM16

Row Name:

Column Name:

Year: 2005

Field Note:

Finalized data for 2005 became available during preparation of the 2009 application, so this data has been entered, superceding the 2004 data that was provided for 2005 in the 2008 application.

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Raw 2005 data is as follows:

NH numerator: 5

NH denominator: 95761

US Rate per 100,000 in 2005: 8.2

US data source: http://webappa.cdc.gov/sasweb/ncipc/mortrate10_sy.html

The Standard Ratio methodology as described in the block grant guidance is used to calculate the indicator. Essentially, 63.7 means that 5 events in NH is 63.7% of what one would expect, given the US rate per 100,000.

PERFORMANCE MEASURE # 17

Percent of very low birth weight infants delivered at facilities for high-risk deliveries and neonates.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	86	86	80	80	86
Annual Indicator	80.0	80	78.7	85.3	78.0
Numerator	96		107	110	92
Denominator	120		136	129	118

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional Provisional

Field Level Notes

1. **Section Number:** Performance Measure #17

Field Name: PM17

Row Name:

Column Name:

Year: 2007

Field Note:

Data is for resident occurrent births. Out-of-state data is not available for 2007.

2. **Section Number:** Performance Measure #17

Field Name: PM17

Row Name:

Column Name:

Year: 2006

Field Note:

Data is for resident occurrent births. Out-of-state data is not available for 2006.

3. **Section Number:** Performance Measure #17

Field Name: PM17

Row Name:

Column Name:

Year: 2005

Field Note:

NH moved to the 2003 National Birth Certificate Specifications in July, 2004. Neighboring states were not using the new national specifications in 2004, making it particularly difficult to calculate certain measures when including out-of-state births to NH residents. In addition, since the change was implemented by NH Vital Records (Department of State) in the middle of 2004, seamless statistics for the entire year (2004) is difficult or impossible to produce for many measures. As such, we have decided to provide 2005 birth data for this application. Although these data come with the significant limitation of only including resident occurrent births (i.e. no NH resident out-of-state births yet), we feel it is the best possible choice at this time. We recognize the critical importance of vital records and are actively working on multiple approaches to improve the accuracy and timeliness of vital records in New Hampshire.

PERFORMANCE MEASURE # 18

Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	88	88	90	85	82
Annual Indicator	91.0	91	83.4	81.5	82.0
Numerator	13,090		9,251	8,980	9,233
Denominator	14,383		11,095	11,015	11,263

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. Section Number: Performance Measure #18

Field Name: PM18

Row Name:

Column Name:

Year: 2007

Field Note:

1425 birth records did not have information for this measure, and were not included in the denominator.

Out-of-state birth data is not available.

Data is not comparable to years prior to 2005, due to the fact that the month prenatal care began is no longer explicitly collected after 2004. Instead, we collect the date of the first prenatal care visit and calculate the month of pregnancy in which prenatal care began, by subtracting the date of the last menses.

2. Section Number: Performance Measure #18

Field Name: PM18

Row Name:

Column Name:

Year: 2006

Field Note:

1773 birth records did not have information for this measure, and were not included in the denominator.

Out-of-state birth data is not available.

Data is not comparable to years prior to 2005, due to the fact that the month prenatal care began is no longer explicitly collected after 2004. Instead, we collect the date of the first prenatal care visit and calculate the month of pregnancy in which prenatal care began, by subtracting the date of the last menses.

3. Section Number: Performance Measure #18

Field Name: PM18

Row Name:

Column Name:

Year: 2005

Field Note:

1707 birth records did not have information for this measure.

NH moved to the 2003 National Birth Certificate Specifications in July, 2004. Neighboring states were not using the new national specifications in 2004, making it particularly difficult to calculate certain measures when including out-of-state births to NH residents. In addition, since the change was implemented by NH Vital Records (Department of State) in the middle of 2004, seamless statistics for the entire year (2004) is difficult or impossible to produce for many measures. As such, we have decided to provide 2005 birth data for this application. Although these data come with the significant limitation of only including resident occurrent births (i.e. no NH resident out-of-state births yet), we feel it is the best possible choice at this time. We recognize the critical importance of vital records and are actively working on multiple approaches to improve the accuracy and timeliness of vital records in New Hampshire.

In addition, for this measure: data is not comparable to previous years due to the fact that the month prenatal care began is no longer explicitly collected. Instead, we collect the date of the first prenatal care visit and calculate the month of pregnancy in which prenatal care began by subtracting the date of the last menses.

Field Level Notes

1. Section Number: State Performance Measure #7

Field Name: SM7

Row Name:

Column Name:

Year: 2007

Field Note:

Although most centers did not have a monthly on-site visit by a child care health consultant, many child care centers did have at least one on-site visit in the year 2007.

Number of centers surveyed: 55

Number of on-site visits by a child care health consultant to centers: 67

Number of children in attendance at the centers on an average day: 813

The survey was conducted by telephone. In addition to the collection of more accurate data by phone, this had the advantage of personalized marketing of the child care health consultation network. Follow-up thank you letters will be sent to the providers, with specific health and safety information that they requested during the survey; they will also be sent contact information for their child health care health consultant.

2. Section Number: State Performance Measure #7

Field Name: SM7

Row Name:

Column Name:

Year: 2006

Field Note:

NH's performance measure is consistent with Caring for Our Children, The National Health and Safety Performance Standards Guidelines for Out of Home Child Care Programs. Although 5 of the cohort of 43 child care centers had received at least one on site CCHC consultation, none had received a visit in each month of 2006.

3. Section Number: State Performance Measure #7

Field Name: SM7

Row Name:

Column Name:

Year: 2005

Field Note:

This is a new measure for FY07. In FY06 it was a "placeholder measure".

STATE PERFORMANCE MEASURE # 9

[REVISED]:The percent of CSHCN who are at risk for/are overweight or obese

	Annual Objective and Performance Data				
	2003	2004	2005	2006	2007

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

- Section Number:** State Performance Measure #9

Field Name: SM9

Row Name:

Column Name:

Year: 2006

Field Note:

This reflects those children with a BMI of 95% or greater. If the population of children with a BMI of 85-95% (identified by the CDC as "at risk for overweight") is included, the percentage more than doubles from 8.54% to 18.9%. This is the first year of data collection for this measure. The numbers represent solely a select population of children who are being served by the Neuromotor Clinic Program. Next year's data is expected to include a larger population of children with Neuromotor conditions and those with a diagnosis of Spina Bifida.

- Section Number:** State Performance Measure #9

Field Name: SM9

Row Name:

Column Name:

Year: 2005

Field Note:

This is a new performance measure and as of the end of this fiscal year there is no data available to submit.

STATE PERFORMANCE MEASURE # 10

[REVISED]: The percent of respite/childcare providers, serving medically and behaviorally complex children, who have participated in competence-based training.

<u>Annual Objective and Performance Data</u>

FORM 13
CHARACTERISTICS DOCUMENTING FAMILY PARTICIPATION IN CSHCN PROGRAMS
STATE: NH

1. Family members participate on advisory committee or task forces and are offering training, mentoring, and reimbursement, when appropriate.

 3

2. Financial support (financial grants, technical assistance, travel, and child care) is offered for parent activities or parent groups.

 3

3. Family members are involved in the Children with Special Health Care Needs elements of the MCH Block Grant Application process.

 3

4. Family members are involved in service training of CSHCN staff and providers.

 2

5. Family members hired as paid staff or consultants to the State CSHCN program (a family member is hired for his or her expertise as a family member).

 3

6. Family members of diverse cultures are involved in all of the above activities.

 1

Total Score: 15

Rating Key

0 = Not Met

1 = Partially Met

2 = Mostly Met

3 = Completely Met

FORM NOTES FOR FORM 13

Ratings were calculated from direct survey results of the staff of Family Voices

FIELD LEVEL NOTES

1. **Section Number:** Main
Field Name: Question1
Row Name: #1. Family members participate on advisory committee or task forces...
Column Name:
Year: 2009
Field Note:
Responses included: "Mechanisms for families with young children utilizing services through SMS to participate in a feedback loop continued to need to be explored"
2. **Section Number:** Main
Field Name: Question2
Row Name: #2. Financial support (...) is offered for parent activities or parent groups.
Column Name:
Year: 2009
Field Note:
Responses included: "We are proud of SMS's dedication to supporting family involvement"
3. **Section Number:** Main
Field Name: Question3
Row Name: #3. Family members are involved in the Children with Special Health Care Needs...
Column Name:
Year: 2009
Field Note:
Responses included: "This year has been particularly rewarding in the inclusion of families being surveyed" and "This is the most involvement we've ever had!"
4. **Section Number:** Main
Field Name: Question4
Row Name: #4. Family members are involved in service training of CSHCN staff and providers.
Column Name:
Year: 2009
Field Note:
Responses included: "This continues to be limited" and "Administration has been very supportive of these activities. Unfortunately staff and providers have not utilized these supports as much as we would like to see."
5. **Section Number:** Main
Field Name: Question5
Row Name: #5. Family members hired as paid staff or consultants to the State CSHCN program...
Column Name:
Year: 2009
Field Note:
Responses included: "Top score for the past 17 years!"
6. **Section Number:** Main
Field Name: Question6
Row Name: #6. Family members of diverse cultures are involved in all of the above activities
Column Name:
Year: 2009
Field Note:
Responses included: "Always more outreach can be done..but moving in the right direction."

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: NH FY: 2009

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. To improve the Title V program's ability to impact the health of MCH populations through data collection and analysis, identifying disparities, examining barriers to care, and researching and implementing best practice models
2. To assure safe and healthy pregnancies for all women, especially vulnerable populations
3. To assure safe and healthy environments for MCH populations, including those with special health care needs
4. To decrease dental disease in MCH populations
5. To decrease unintentional injuries among children and adolescents, including those with special health care needs
6. To promote healthy behaviors and access to health care services for adolescents, including those with special health care needs
7. To preserve effective public health programming, including an infrastructure of safety net providers, to address the needs of MCH populations
8. To improve access to mental health services for children, including those with special health care needs, and their families
9. To decrease the prevalence of childhood obesity
10. To increase the availability of respite and child care for medically and behaviorally complex children with special health care needs

TECHNICAL ASSISTANCE(TA) REQUEST**

STATE: NH

APPLICATION YEAR: 2009

No.	Category of Technical Assistance Requested	Description of Technical Assistance Requested <i>(max 250 characters)</i>	Reason(s) Why Assistance Is Needed <i>(max 250 characters)</i>	What State, Organization or Individual Would You suggest Provide the TA (if known) <i>(max 250 characters)</i>
1.	State Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> 3 </u>	Technical assistance is requested to provide clinicians background information and recent data in lead poisoning and its effects.	Because lead hazard exposure and poisoning is such a pervasive issue throughout New Hampshire, it is imperative that we keep medical providers aware of and engaged in clinical guidelines for lead screening.	Dr. Michael Shannon, chair of Pediatrics at Harvard Medical School
2.	State Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> 6 </u>	Technical assistance is requested to provide MCH-funded community health center clinicians information on how to best utilize Bright Futures and how to incorporate it into their electronic medical records (EMR).	With increased focus on assuring that all eligible children receive EPSDT visits, clinicians should be prepared to use the tools available to ensure that anticipatory guidance is delivered in a systemic way.	Unknown
3.	National Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> 5 </u>	Technical assistance to facilitate Special Medical Services' completing strategic planning to include the review of: care coordination, clinic services, program design, needs assessment, cultural & linguistic competence and public awareness	SMS has significantly changed the direction of its services but formal reflection and strategic planning has not taken place. SMS needs to develop a vision and mission statement and a planned approach to meet the needs of CSHCN in NH	Unknown
4.	National Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> 3 </u>	Technical assistance with the development of a survey tool and evaluation of the resultant data to identify issues related to the adequacy of health insurance coverage in NH for CSHCN	A follow-up survey to the NH SSI population revealed specific adequacy issues within a select population. It is necessary to perform a wide-scale survey/data collection process to fully interpret the needs of NH families	Catalyst Center, Boston University, School of Public Health.
5.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>			
6.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: NH

SP # 1

PERFORMANCE MEASURE: Percent of data linkage projects completed

STATUS: Active

GOAL To link MCH and Vital Records data to improve analytical opportunities.

DEFINITION See numerator and denominator below. Linkages projected for the future are: births and infant deaths, births and prenatal care, births and infant hearing screening, births and newborn metabolic screening, and Medicaid and births with regard to prenatal care.

Numerator:
Number of linkage projects completed

Denominator:
Total number of linkage projects planned (5)

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES Sources are: MCH program data (including data from prenatal program, newborn metabolic screening program, and newborn hearing screening program), as well as medicaid data and vital records data (both births and infant deaths). Access to vital records is particularly difficult at this time, due to the transfer of this department from public health to the Secretary of State's office. We wish to link the following: - births and fetal deaths - prenatal program data and births - early hearing screening data and births - newborn metabolic screening data and births - Medicaid and birth data related to prenatal care

SIGNIFICANCE Linking MCH-related data sets has been shown to expand analytic opportunities and lead to improved information generation. We wish to increase our ability to evaluate programs and identify needs, to decrease the reporting burden on MCH-funded agencies by reducing redundant data collection, and improve data accuracy.

SP # 3

PERFORMANCE MEASURE:

Percent of children age two (24-35 months) on Medicaid who have been tested for lead.

STATUS:

Active

GOAL

To reduce the morbidity associated with lead poisoning through early detection.

DEFINITION

Numerator:

The number of children age two (24-35 months) in the state who are enrolled on Medicaid and have been tested for lead at least once during the year.

Denominator:

The number of children age two who are enrolled on Medicaid.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Lead testing figure is from the NH Childhood Lead Poisoning Prevention Program; Medicaid figure is from the NH Medicaid Administration Bureau via the NH Childhood Lead Poisoning Prevention Program.

SIGNIFICANCE

Lead poisoning is one of the most common and preventable childhood environmental health problems in the U.S. Studies have shown associations between decreased intelligence, impaired neurobehavioral development, decreased hearing acuity and growth inhibition with lead levels as low as 10-15 micrograms per deciliter. Low-income children, especially those living in the inner city, are at an increased risk for lead poisoning. Ages one and two years are the recommended targeted times for testing at-risk children for lead exposure. In NH, the Childhood Lead Poisoning Prevention Protocols recommend that all one and two year olds enrolled on Medicaid be tested for lead. A recent national study showed that the testing rate of children on Medicaid, especially two year olds, is significantly lower than expected. In NH, the lead testing rates for all two year olds is approximately half the rate for one year olds.

SP # 4

PERFORMANCE MEASURE:

Percent of third grade children screened who had untreated dental decay.

STATUS:

Active

GOAL

To reduce the proportion of children with untreated dental decay.

DEFINITION

See numerator and denominator below

Numerator:

Number of third grade children screened who had untreated dental decay.

Denominator:

Number of third grade children screened.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

State wide Third Grade Oral Health Survey. This is a random sample survey of all third grade students in the state, developed by the Association of State and Territorial Dental Directors. This survey will be done every 3 years and the first one was done in 2001.

SIGNIFICANCE

As stated in the Surgeon General's report on Oral Health in America, dental decay is the single most common childhood disease. Results of screening 2nd and 3rd graders in 9 school-based programs in NH revealed that 23% of children were suffering from untreated dental decay. Developing programs and policies, in order to reduce the burden of this disease on children, is of prime significance.

SP # 5

PERFORMANCE MEASURE:

The rate (per 100,000) of emergency department visits among youths aged 15-19 resulting from being an occupant in a motor vehicle crash

STATUS:

Active

GOAL

To reduce injuries among adolescents, aged 15-19, associated with being an occupant in a motor vehicle crash.

DEFINITION

see numerator and denominator below

Numerator:

Number of adolescents age 15-19 seen in an emergency department as a result of injuries associated with being an occupant in a motor vehicle crash.

Denominator:

Number of adolescents ages 15-19

Units: 100000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

NH Bureau of Health Statistics and Data Management

SIGNIFICANCE

Motor vehicle crashes are a leading cause of death and injuries among adolescents. Previously we had a state measure (#3, now inactive) which addressed fatalities only. However, due to the small number of fatalities annually in NH among this population (usually less than 10/year), it was not appropriate to use fatalities in setting annual performance measures. This new objective has two benefits: first, it will capture a more significant aspect of the adverse health outcomes among adolescents resulting from motor vehicles crashes; and it will allow us to analyze and report annual population-based incidence rates.

SP # 6

PERFORMANCE MEASURE:

Percent of adolescents (ages 10-20) eligible for an EPSDT service who received an EPSDT service during the past year

STATUS:

Active

GOAL

To ensure Medicaid-eligible adolescents receive preventive health care services

DEFINITION

see numerator and denominator below

Numerator:

Total eligibles receiving at least one initial or periodic EPSDT screen

Denominator:

Total eligibles who should receive at least one initial or periodic EPSDT screen ("should" based on the state's periodicity schedule)

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

1-9: Reduce hospitalization rates for three ambulatory-care-sensitive conditions—pediatric asthma, u

14-27: Increase routine vaccination coverage levels for adolescents

DATA SOURCES AND DATA ISSUES

The data source is the State-Contracted Managed Care Organization Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form HCFA-416). Guidelines for collecting data for this measure are in lines 8 and 9 of the report. Medicaid-eligible individuals under the age of 21 are considered eligible for EPSDT services, regardless of whether they have been informed about the availability of EPSDT services or whether they accept EPSDT services at the time of informing.

SIGNIFICANCE

Insured adolescents are more likely to receive health care but insurance does not guarantee that adequate services are provided. Most adolescent morbidities are preventable and amenable to change with comprehensive screening services increasing the likelihood that problems are addressed early and often.

SP # 7

PERFORMANCE MEASURE:

Percent of center-based child care facilities in the MCH catchment area and serving children under age 2, that are visited at least once a month by a child care health consultant

STATUS:

Active

GOAL

To increase health and safety in child care

DEFINITION

Percent of center-based child care facilities serving any child under 2 years of age, that are visited at least once a month by a child care health consultant within the catchment area of the MCH Child Care Health Consultant (CCHC) contract

Numerator:

The number of center-based child care facilities receiving an on-site visit at least once per month by a child care health consultant

Denominator:

The number of center-based child care facilities in the MCH CCHC catchment area serving any child under 2 years of age

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 15-13: Reduce deaths caused by unintentional injuries

DATA SOURCES AND DATA ISSUES

Child Care Licensing Bureau, child care health consultation contract reports. Only regional data will be collected through the contract reports.

SIGNIFICANCE

A child care health consultant, working together with child care providers, can help achieve the goal of providing a safe, healthy, and developmentally appropriate environment for young children.

SP # 9

PERFORMANCE MEASURE:

[REVISED]:The percent of CSHCN who are at risk for/are overweight or obese

STATUS:

Active

GOAL

To increase the number of CSHCN, with impaired mobility, who receive individualized education regarding proper nutrition and safe physical activity.

DEFINITION

The percent of CSHCN who are at a risk for/are overweight or obese (as determined by diagnosis and/or BMI criteria as established by the CDC).

Numerator:

Number of CSHCN served by the SMS Neuromotor clinic/DHMC spina bifida clinic with a medical diagnosis of being at risk for or being overweight/obese, or who meet the CDC BMI criteria (>95th percentile).

Denominator:

Number of CSHCN served by the SMS Neuromotor clinic/DHMC spina bifida clinic.

Units: No **Text:** Text

HEALTHY PEOPLE 2010 OBJECTIVE

19-3 Reduce the proportion of children and adolescents who are overweight or obese.

DATA SOURCES AND DATA ISSUES

Diagnoses from caseload lists, SMS database information, Nutrition, Feeding & Swallowing service notes.

SIGNIFICANCE

The percentage of children and adolescents in the state who are obese or overweight is higher than the national average and appears to be increasing; however, there is no substantive information regarding the CSHCN population. The most common source of data is the NHANES survey. According to the NHANES 1999-2002 the population of children with "limitations" who are at-risk-for overweight is 50.9% and who are overweight is 29.7%. However this study excluded children who were unable to weight bear and stand. Therefore, the indication is that CSHCN have significant numbers related to overweight and obesity issues but the population with impaired mobility are not clearly represented. This is important because the impact of overweight and obesity on the functional status of CSHCN who have mobility impairment is critical to their development of skills for independent living.

SP # 10

PERFORMANCE MEASURE:

[REVISED]: The percent of respite/childcare providers, serving medically and behaviorally complex children, who have participated in competence-based training.

STATUS:

Active

GOAL

To develop/implement a respite care training curriculum and competencies that identify core information basic to the broad needs of medically and behaviorally complex children.

DEFINITION

The percent of respite/childcare providers, serving medically and behaviorally complex children, who have participated in competence-based training.

Numerator:

Number of respite/childcare providers, serving medically and behaviorally complex children, who have participated in competence-based training.

Denominator:

Number of respite/childcare providers serving medically and behaviorally complex children.

Units: No **Text:** Text

HEALTHY PEOPLE 2010 OBJECTIVE

N/A

DATA SOURCES AND DATA ISSUES

State Title V program checklists, surveys of stakeholder programs, program registration/attendance records.

SIGNIFICANCE

There is an identified lack of respite and child care available, by a trained work force, for medically and behaviorally complex children with special health care needs. The National Survey of CSHCN results for NH indicate that 37% (n=1,936) of the children that needed respite services, did not receive such services. The group reporting the need for respite constituted approximately 8% of New Hampshire CSHCN.

FORM NOTES FOR FORM 16

None

FIELD LEVEL NOTES

HEALTH SYSTEMS CAPACITY INDICATORS
FORMS FOR HSCI 01 THROUGH 04, 07 & 08 - MULTI-YEAR DATA
STATE: NH

Form Level Notes for Form 17

None

HEALTH SYSTEMS CAPACITY MEASURE # 01

The rate of children hospitalized for asthma (ICD-9 Codes: 493.0 -493.9) per 10,000 children less than five years of age.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	12.9	12.9	14.7	17.2	17.1
Numerator	98	98	107	125	126
Denominator	75,685	75,685	72,789	72,789	73,500

Check this box if you cannot report the numerator because
1. There are fewer than 5 events over the last year, and
2. The average number of events over the last 3 years is fewer
than 5 and therefore a 3-year moving average cannot be
applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Provisional

Field Level Notes

1. Section Number: Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2007

Field Note:

Data is from the NH Asthma Control Program and is from New Hampshire Inpatient Hospital Discharge Data for 2005. It does capture the number of NH residents hospitalized in border states.

2. Section Number: Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2006

Field Note:

Data is from the NH Asthma Control Program and is based on the cleaned and final data from Calendar Year 2004. The Census data is from the U.S. Census 2004 estimates (which are based on adjusted 2000 Census numbers).

It is different from last year's numbers as it does capture the number of NH residents hospitalized in border states. In addition the NH Asthma Control Program reports this rate to 16.8. The difference is that they utilize age adjusted rates. This allows for a more meaningful analysis when comparing data between state or when looking at trends within a single state.

3. Section Number: Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2005

Field Note:

Data is from the NH Asthma Control Program and is based on the cleaned and final data from Calendar Year 2004. The Census data is from the U.S. Census 2004 estimates (which are based on adjusted 2000 Census numbers).

It is important to note that this Annual Indicator might be an underestimate, as it only represents NH residents hospitalized in NH and does not capture the number of NH residents hospitalized in border states.

HEALTH SYSTEMS CAPACITY MEASURE # 02

The percent Medicaid enrollees whose age is less than one year during the reporting year who received at least one initial periodic screen.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>81.1</u>	<u>83.7</u>	<u>83.4</u>	<u>84.9</u>	<u>86.1</u>
Numerator	<u>3,715</u>	<u>4,415</u>	<u>4,430</u>	<u>4,776</u>	<u>4,929</u>
Denominator	<u>4,582</u>	<u>5,272</u>	<u>5,312</u>	<u>5,628</u>	<u>5,722</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Final

Field Level Notes

1. **Section Number:** Health Systems Capacity Indicator #02

Field Name: HSC02

Row Name:

Column Name:

Year: 2007

Field Note:

Data is from the 2007 416 report, via Maria Pliakos (ext. 7194) and Jackie Leone (ext 8169) in the Office of Medicaid Administration.

Part of NH SCHIP development was Medicaid expansion for infants (0-1), from 185% to 300% of poverty. Therefore the numbers for HSCI # 2 and HSCI # 3 are the same.

2. **Section Number:** Health Systems Capacity Indicator #02

Field Name: HSC02

Row Name:

Column Name:

Year: 2006

Field Note:

Data is from the FY2006 416 report, via Denise Towle (ext 7194) and Jackie Leone (ext 8169) in the Office of Medicaid Administration. This report was slightly revised for FY2006, and - retroactively - for 2004 and 2005. The revision made the numerator and denominator for this indicator much more clear and explicit (and therefore the data we used for the FY08 application is much more accurate than what we have used in the past). We have used this more accurate data for the FY06 indicator, and have also revised the indicators for FY04 and FY05 - i.e., using the new and more accurate data.

Part of NH SCHIP development was Medicaid expansion for infants (0-1), from 185% to 300% of poverty. Therefore the numbers for HSCI #2 and #3 are the same.

3. **Section Number:** Health Systems Capacity Indicator #02

Field Name: HSC02

Row Name:

Column Name:

Year: 2005

Field Note:

Data is from FY2005 416 report, via Denise Towle (ext. 7194) and Jackie Leone. The 416 report has been revised, with rows that make explicit the numbers for initial periodic screens (i.e., not simply "expected and received" screens OF ANY KIND); therefore this data for 2005 has been revised with the submission of the FY08 application (i.e., revised in the spring of 2007).

Part of NH SCHIP development was Medicaid expansion for infants (0-1), from 185% to 300% of poverty. Therefore the numbers for HSCI #2 and #3 are the same.

HEALTH SYSTEMS CAPACITY MEASURE # 03

The percent State Childrens Health Insurance Program (SCHIP) enrollees whose age is less than one year during the reporting year who received at least one periodic screen.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>81.1</u>	<u>83.7</u>	<u>83.4</u>	<u>84.9</u>	<u>86.1</u>
Numerator	<u>3,715</u>	<u>4,415</u>	<u>4,430</u>	<u>4,776</u>	<u>4,929</u>
Denominator	<u>4,582</u>	<u>5,272</u>	<u>5,312</u>	<u>5,628</u>	<u>5,722</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Note:
 Part of NH SCHIP development was Medicaid expansion for infants (0-1), from 185% to 300% of poverty. Therefore the numbers for HSCI #2 and #3 are the same.

See the notes for HSCI # 2 for further information regarding these numbers.

HEALTH SYSTEMS CAPACITY MEASURE # 04

The percent of women (15 through 44) with a live birth during the reporting year whose observed to expected prenatal visits are greater than or equal to 80 percent on the Kotelchuck Index.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	90.7	90.7	81.7	84.0	85.8
Numerator	12,642		8,841	9,087	9,509
Denominator	13,934		10,819	10,823	11,079

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional Provisional

Field Level Notes

1. Section Number: Health Systems Capacity Indicator #04

Field Name: HSC04

Row Name:

Column Name:

Year: 2007

Field Note:

1574 birth records did not have information needed to do the necessary computations. These records were therefore not included in the denominator.

Data does not include out-of-state births (unavailable), includes multiple births, and is only for women 15-44.

Data is not comparable to years prior to 2005, due to the fact that the month prenatal care began is not collected after 2004. Instead, we collect the date of the first prenatal care visit and calculate the month of pregnancy in which prenatal care began by subtracting the date of the last menses. Moreover, this indicator is likely skewed downward for 2005-2007, for the following reason: out-of-state births to NH residents typically have an appropriately high score on the Kotelchuck Index. This is because complicated pregnancies, resulting in high prenatal care usage (i.e. many visits) tend to go to specialty centers outside of NH. In other words, it is reasonable to assume that, if the the out-of-state births were included in the data, the indicator for Kotelchuck would be higher.

2. Section Number: Health Systems Capacity Indicator #04

Field Name: HSC04

Row Name:

Column Name:

Year: 2006

Field Note:

1,933 birth records did not have information needed to do the necessary computations. These records were therefore not included in the denominator.

Data does not include out-of-state births (unavailable), includes multiple births, and is only for women 15-44.

Data is not comparable to years prior to 2005, due to the fact that the month prenatal care began is not collected after 2004. Instead, we collect the date of the first prenatal care visit and calculate the month of pregnancy in which prenatal care began by subtracting the date of the last menses. Moreover, this indicator is likely skewed downward for 2005 and 2006, for the following reason: out-of-state births to NH residents typically have an appropriately high score on the Kotelchuck Index. This is because complicated pregnancies, resulting in high prenatal care usage (i.e. many visits) tend to go to specialty centers outside of NH. In other words, it is reasonable to assume that, if the the out-of-state births were included in the data, the indicator for Kotelchuck would be higher.

3. Section Number: Health Systems Capacity Indicator #04

Field Name: HSC04

Row Name:

Column Name:

Year: 2005

Field Note:

In 2005, 1,954 birth records did not have information needed to do the necessary computations.

NH moved to the 2003 National Birth Certificate Specifications in July, 2004. Neighboring states were not using the new national specifications in 2004, making it particularly difficult to calculate certain measures when including out-of-state births to NH residents. In addition, since the change was implemented by NH Vital Records (Department of State) in the middle of 2004, seamless statistics for the entire year (2004) is difficult or impossible to produce for many measures. As such, we have decided to provide 2005 birth data for this application. Although these data come with the significant limitation of only including resident occurrent births (i.e. no NH resident out-of-state births yet), we feel it is the best possible choice at this time. We recognize the critical importance of vital records and are actively working on multiple approaches to improve the accuracy and timeliness of vital records in New Hampshire.

In addition: data is not comparable to previous years due to the fact that the month prenatal care began is no longer explicitly collected. Instead, we collect the date of the first prenatal care visit and calculate the month of pregnancy in which prenatal care began by subtracting the date of the last menses. Moreover, this indicator is likely skewed downward for 2005, for the following reason: out-of-state births to NH residents typically have an appropriately high score on the Kotelchuck Index. This is because complicated pregnancies, resulting in high prenatal care usage (i.e. many visits) tend to go to specialty centers outside of NH. In other words, it is reasonable to assume that, if the the out-of-state births were included in the data, the annual indicator for Kotelchuck would be higher.

HEALTH SYSTEMS CAPACITY MEASURE # 07A

Percent of potentially Medicaid-eligible children who have received a service paid by the Medicaid Program.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	72.3	73.0	74.8	76.4	74.0
Numerator	68,982	68,129	71,350	74,571	72,906
Denominator	95,347	93,337	95,444	97,655	98,463

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

1. **Section Number:** Health Systems Capacity Indicator #07A

Field Name: HSC07A

Row Name:

Column Name:

Year: 2007

Field Note:

The numerator was provided by Maria Pliakos (ext 7194) and Jackie Leone. Data for the denominator is the sum of two numbers: the number of 1-21 year olds enrolled/eligible for Medicaid plus 15,157, obtained by Christina Purdam of the DHHS Office of Planning and Research, from the 2001 DHHS Insurance Family Survey. The latter number reflects uninsured 0-18 year-olds that were eligible for Healthy Kids insurance. Although the age groups added for the denominator do not match exactly, this methodology results in the most accurate estimate available.

2. **Section Number:** Health Systems Capacity Indicator #07A

Field Name: HSC07A

Row Name:

Column Name:

Year: 2006

Field Note:

The numerator was provided by Denise Towle (ext 7194) and Jackie Leone. Data for the denominator is the sum of two numbers: the number of 1-21 year olds enrolled/eligible for Medicaid plus 15,157, obtained by Christina Purdam of the DHHS Office of Planning and Research, from the 2001 DHHS Insurance Family Survey. The latter number reflects uninsured 0-18 year-olds that were eligible for Healthy Kids insurance. Although the age groups added for the denominator do not match exactly, this methodology results in the most accurate estimate available.

Final

Field Level Notes

- Section Number:** Health Systems Capacity Indicator #08
Field Name: HSC08
Row Name:
Column Name:
Year: 2007
Field Note:
 The numerator is specifically those under the age of 16 as of 12/31/07 and the denominator is the number of recipients of SSI as reported from a SSA December 2007 report and a table titled "Number of children under age 16 receiving federally administered SSI payments"
- Section Number:** Health Systems Capacity Indicator #08
Field Name: HSC08
Row Name:
Column Name:
Year: 2006
Field Note:
 The decrease in the percentage reported for this HSCI this year is related to the increased specificity of the data retrieval from the SMS database. In previous years the number has included those 16 years old. This year the numerator is specifically those under the age of 16 as of 12/31/06 and the denominator is the number of recipients of SSI as reported from a SSA December 2006 report and a table titled "Number of children under age 16 receiving federally administered SSI payments"
- Section Number:** Health Systems Capacity Indicator #08
Field Name: HSC08
Row Name:
Column Name:
Year: 2005
Field Note:
 Data on state CSHCN program enrollees receiving SSI is an estimate derived from the SMS database and includes those 0-16 years of age. Data for number of recipients of SSI is from a SSA December 2005 report and a table titled "Number of children under age 16 receiving federally administered SSI payments" .

FORM NOTES FOR FORM 18

None

FIELD LEVEL NOTES

1. **Section Number:** Indicator 05
Field Name: InfantDeath
Row Name: Infant deaths per 1,000 live births
Column Name:
Year: 2009
Field Note:
Numbers reported last year for 2004 were:

Medicaid: 5.7
Non-Medicaid: 5.5
All: 5.6

We believe the change seen in the difference between the Medicaid and non-Medicaid infant death rates for 2005 is an artifact of the calculation methodology, rather than a significant change in the actual rates. Preliminary analyses support this conclusion, and we will be doing further analysis to confirm our findings.

Applying the methodology used this year to the 2004 data results in the following numbers:

Medicaid: 10.7
Non-Medicaid: 3.8
All: 5.6

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: NH

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	2	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	1	No
Annual linkage of birth certificates and WIC eligibility files	1	No
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	3	Yes
Annual birth defects surveillance system	3	Yes
Survey of recent mothers at least every two years (like PRAMS)	1	No

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: NH

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other: NH Youth Tobacco Survey	3	No
Behavioral Risk Factor Surveillance Survey	3	Yes

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional Provisional

Field Level Notes

- Section Number:** Health Status Indicator #02B
Field Name: HSI02B
Row Name:
Column Name:
Year: 2007
Field Note:
 Out-of-state births not included (unavailable for 2007).
- Section Number:** Health Status Indicator #02B
Field Name: HSI02B
Row Name:
Column Name:
Year: 2006
Field Note:
 Out-of-state births not included (unavailable for 2006).
- Section Number:** Health Status Indicator #02B
Field Name: HSI02B
Row Name:
Column Name:
Year: 2005
Field Note:
 Missing data, i.e. data for which a response was not recorded on the birth certificate, is not included in the denominator.

NH moved to the 2003 National Birth Certificate Specifications in July, 2004. Neighboring states were not using the new national specifications in 2004, making it particularly difficult to calculate certain measures when including out-of-state births to NH residents. In addition, since the change was implemented by NH Vital Records (Department of State) in the middle of 2004, seamless statistics for the entire year (2004) is difficult or impossible to produce for many measures. As such, we have decided to provide 2005 birth data for this application. Although these data come with the significant limitation of only including resident occurrent births (i.e. no NH resident out-of-state births yet), we feel it is the best possible choice at this time. We recognize the critical importance of vital records and are actively working on multiple approaches to improve the accuracy and timeliness of vital records in New Hampshire.

HEALTH STATUS INDICATOR MEASURE # 03A

The death rate per 100,000 due to unintentional injuries among children aged 14 years and younger.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>4.8</u>	<u>6.1</u>	<u>3.3</u>	<u>3.3</u>	<u>3.7</u>
Numerator	<u>12</u>	<u>15</u>	<u>8</u>	<u>8</u>	<u>9</u>
Denominator	<u>249,369</u>	<u>246,953</u>	<u>245,896</u>	<u>243,822</u>	<u>241,716</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Check this box if you cannot report the numerator because					
1. There are fewer than 5 events over the last year, and					
2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.			Yes	Yes	Yes
(Explain data in a year note. See Guidance, Appendix IX.)					
Is the Data Provisional or Final?				Provisional	Provisional

Field Level Notes

1. Section Number: Health Status Indicator #03B

Field Name: HSI03B

Row Name:

Column Name:

Year: 2007

Field Note:

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Calendar year 2007 vital records death data is provisional, due to the fact that out-of-state data is incomplete.

Raw data is as follows:

NH numerator: 3

NH denominator: 241,716

US Rate per 100,000; 2005: 1.39

US data source: http://webappa.cdc.gov/sasweb/ncipc/mortrate10_sy.html

The Standard Ratio methodology as described in the block grant guidance is used to calculate the indicator. Essentially, 89.3 means that 3 events in NH is 89.3% of what one would expect, given the US rate per 100,000. Please note that this calculation is based on the 2005 US rate, because it was the most recent year available.

2. Section Number: Health Status Indicator #03B

Field Name: HSI03B

Row Name:

Column Name:

Year: 2006

Field Note:

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Updated data for 2006 became available during preparation of the 2009 application, so this data has been entered, superceding the 2004 data that was provided for 2006 in the 2008 application. There were no deaths in 2006.

3. Section Number: Health Status Indicator #03B

Field Name: HSI03B

Row Name:

Column Name:

Year: 2005

Field Note:

Starting with the year 2005, NH is using the following document as guidance for injury data:

Johnson RL, Thomas KE, Sarmiento K. State Injury Indicators: Instructions for Preparing 2005 Data. Atlanta (GA): Centers for Disease Control and Prevention, National Center for Injury Prevention and Control; 2007.

Finalized data for 2005 became available during preparation of the 2009 application, so this data has been entered, superceding the 2004 data that was provided for 2005 in the 2008 application. There were no deaths in 2005.

HEALTH STATUS INDICATOR MEASURE # 03C

The death rate per 100,000 from unintentional injuries due to motor vehicle crashes among youth aged 15 through 24 years.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>19.3</u>	<u>27.8</u>	<u>6.0</u>	<u>4.8</u>	<u>6.3</u>
Numerator	<u>34</u>	<u>50</u>	<u>11</u>	<u>9</u>	<u>12</u>
Denominator	<u>176,367</u>	<u>179,723</u>	<u>183,353</u>	<u>187,372</u>	<u>191,336</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

FORM NOTES FOR FORM 21

None

FIELD LEVEL NOTES

1. **Section Number:** Indicator 09A
Field Name: HSIRace_Children
Row Name: All children 0 through 19
Column Name:
Year: 2009
Field Note:
Data from US Bureau of Census, Estimates Branch.
2. **Section Number:** Indicator 09A
Field Name: HSIRace_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2009
Field Note:
Based on U.S. Census data.
3. **Section Number:** Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2009
Field Note:
Data from Ellen Boudreau of Family Services (227-0380)
4. **Section Number:** Indicator 09A
Field Name: HSIRace_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2009
Field Note:
Data from Maria Pliakos and Jackie Leone.
5. **Section Number:** Indicator 09A
Field Name: HSIRace_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2009
Field Note:
Data is from Healthy Kids NH website, enrolled as of December 31, 2007. Includes all categories of eligibility, i.e. including buy-in. Race and ethnicity is not available for this data, and so is estimated.
6. **Section Number:** Indicator 09A
Field Name: HSIRace_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2009
Field Note:
Data is from Ellen Boudreau of Family Services (227-0380).
7. **Section Number:** Indicator 09A
Field Name: HSIRace_WICNo
Row Name: Number enrolled in WIC
Column Name:
Year: 2009
Field Note:
Data is for calendar year 2007, from the CDC Pediatric Nutrition Surveillance System via Lisa Richards of the NH WIC program.
8. **Section Number:** Indicator 09A
Field Name: HSIRace_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2009
Field Note:
This data is not available by race or ethnicity. The number used to calculate the rate is the number of petitions (arrests), not the number of individuals arrested. The data is only available for juveniles through age 16. This data came from Gary Fowler (455-4567 and gfwlower@courts.state.nh.us). In future years the statistics person will be Susan Moseley (smoseley@courts.state.nh.us).
9. **Section Number:** Indicator 09A
Field Name: HSIRace_DropOutPercent
Row Name: Percentage of high school drop-outs (grade 9 through 12)
Column Name:
Year: 2009
Field Note:
Data is from 2006/2007 school year, from www.ed.state.nh.us/education

Race and ethnicity is not available.
10. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_Children
Row Name: All children 0 through 19
Column Name:
Year: 2009
Field Note:
Data from US Bureau of Census, Estimates Branch.
11. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2009

Field Note:
Based on U.S. Census data

12. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2009
Field Note:
Data from Ellen Boudreau of Family Services (227-0380)
13. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2009
Field Note:
Data from Maria Pliakos and Jackie Leone.
14. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2009
Field Note:
Data is from Healthy Kids NH website, enrolled as of December 31, 2007. Includes all categories of eligibility, i.e. including buy-in. Race and ethnicity is not available for this data, and so is estimated.
15. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2009
Field Note:
Data is from Ellen Boudreau of Family Services (227-0380).
16. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_WICNo
Row Name: Number enrolled in WIC
Column Name:
Year: 2009
Field Note:
Data is for calendar year 2007, from the CDC Pediatric Nutrition Surveillance System via Lisa Richards of the NH WIC program.
17. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2009
Field Note:
This data is not available by race or ethnicity. The number used to calculate the rate is the number of petitions (arrests), not the number of individuals arrested. The data is only available for juveniles through age 16. This data came from Gary Fowler (455-4567 and gfowler@courts.state.nh.us). In future years the statistics person will be Susan Moseley (smoseley@courts.state.nh.us).
18. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_DropOutPercent
Row Name: Percentage of high school drop-outs (grade 9 through 12)
Column Name:
Year: 2009
Field Note:
Data is from 2006/2007 school year, from www.ed.state.nh.us/education

Race and ethnicity is not available.
19. **Section Number:** Indicator 09A
Field Name: HSIRace_FosterCare
Row Name: Number living in foster home care
Column Name:
Year: 2009
Field Note:
Data is from Melissa Correia in the NH Division of Children and Youth (ext. 3009).
20. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_FosterCare
Row Name: Number living in foster home care
Column Name:
Year: 2009
Field Note:
Data is from Melissa Correia in the NH Division of Children and Youth (ext. 3009).
