FORM 2
MCH BUDGET DETAILS FOR FY 2009

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: UT

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])

Of the Federal Allocation (1 above), the amount earmarked for:

A.Preventive and primary care for children:

\$ 2,270,284 (37.85%)

B.Children with special health care needs:

\$ 1,995,571 (33.27%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 490,645 (8.18%)

(The above figure cannot be more than 10%) [Sec. 504(d)]

\$ 5,998,100

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 538,000

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 25,386,000

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 5,462,581

5. OTHER FUNDS (Item 15e of SF 424)

\$ 13,290,400

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 8,004,900

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 3,897,700

\$ 52,143,881

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 58,679,981

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 80,200

c. CISS: \$ 140,000

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 0

f. EMSC: \$ 0

g. WIC: \$ 34,444,400

h. AIDS: \$ 0

i. CDC: \$ 10,104,700

j. Education: \$ 5,013,200

k. Other: \$ 0

See FY2009 Notes \$ 764,000

\$ 0

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 50,546,500

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 109,226,481

FORM NOTES FOR FORM 3

None

FIELD LEVEL NOTES

- 1. Section Number:** Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2007
Field Note:
The Federal Allocation was underspent in FY2007 for several reasons. State funding and Other Funds increased and these funds were spent first in order to avoid losing the funds at the end of the state fiscal year. There were several vacancies throughout the year which resulted in lower personnel expenditures as well as lower indirect costs. Also, we received state funding for the Birth Defects Registry which was included in the Federal MCH budgets for FY2007. State funds were spent for this program, rather than the federal funds originally budgeted.
- 2. Section Number:** Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2006
Field Note:
The Federal Allocation was under spent in FY2006 for several reasons. State funding, Other Funds, and Program Income increased. Most of these funds were spent first in order to avoid losing the funds at the end of the state fiscal year. Also, budgets for FY2006 included over \$400,000 for planned special projects. Due to the decreasing federal award and the decreasing unobligated balance, these special projects were not funded. Both of these circumstances resulted in less federal MCH funds being spent for FY2006 than was budgeted.
- 3. Section Number:** Main
Field Name: UnobligatedBalanceExpended
Row Name: Unobligated Balance
Column Name: Expended
Year: 2006
Field Note:
The actual Unobligated Balance for FY2006 was \$1,425,253, which was significantly lower than the projected amount of \$1,874,500. For several years the division has been funding "one time" special projects in order to lower the Unobligated Balance to a more reasonable level. Over the past few years, funding these special projects, and also increased personnel costs have reduced the Unobligated Balance.
- 4. Section Number:** Main
Field Name: LocalMCHFundsExpended
Row Name: Local MCH Funds
Column Name: Expended
Year: 2007
Field Note:
Local MCH funds are budgeted based on expenditures reported by the 12 local health departments from the previous year. The increase in expenditures for Local Funds is a result of the local health departments reporting significant increases in spending of local funds for MCH activities in FY2007.
- 5. Section Number:** Main
Field Name: LocalMCHFundsExpended
Row Name: Local MCH Funds
Column Name: Expended
Year: 2006
Field Note:
Local MCH Funds are budgeted based on the expenditures reported by the 12 local health departments from the previous year. The increase in expenditures for Local Funds is a result of the local health departments reporting significant increases in spending of local funds for MCH activities in FY2006.
- 6. Section Number:** Main
Field Name: OtherFundsExpended
Row Name: Other Funds
Column Name: Expended
Year: 2006
Field Note:
Other Funds budgeted in the FY2006 included \$11,000,500 from the WIC food voucher rebates. Actual rebates received and expended in FY06 were \$11,891,394. Other increases were due to new revenue received for Gold Medal Schools Obesity Prevention from Intermountain Health Care and increased sales of the Baby Your Baby keepsake.
- 7. Section Number:** Main
Field Name: ProgramIncomeExpended
Row Name: Program Income
Column Name: Expended
Year: 2006
Field Note:
Program Income expenditures increased in FY2006 due to approximately \$325,000 additional funds being drawn down from Medicaid for the Tobacco Media Campaign. The Immunization Program also received additional funding from the Child Insurance Program (CHIP) to pay for vaccine for CHIP eligible children. Collections in several of the CSHCN clinics also realized some substantial increases in revenue due to back billing and clean up of our accounts receivables for clinical services.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2009
[SEC. 506(A)(1)]
STATE: UT

1. State MCH Administration:
(max 2500 characters)

The Utah Department of Health is the state Title V agency. The Department's Division of Community and Family Health Services includes all Title V programs in Utah as mandated by state and federal law, including Children with Special Health Care Needs. The Division also is responsible for the Individuals with Disabilities Education Act (IDEA) - Part C, the WIC program funded through the U.S. Department of Agriculture, the Immunization Program funded through the Centers for Disease Control and Prevention (CDC), and the CDC Preventive Block Grant, which includes program activities directed, in part, to MCH populations. Title V-funded programs include: Reproductive Health, Child Adolescent and School Health; Data Resources, Oral Health, Hearing, Speech and Vision, Newborn Screening, Birth Defects and Genetics, Violence and Injury Prevention, Child Development Clinic, Neonatal Follow-up, Community-based Services, and School Age and Specialty Services. Programs that provide direct services include: Hearing, Speech and Vision, Newborn Screening, Neonatal Follow-up, Community-based Services, and School Age and Specialty Services. In addition, some Title V funds are allocated for health promotion efforts, such as obesity prevention in children. With Title V administering other federally funded programs, such as WIC, Immunizations and part C, the staff of these programs are integrated into the "MCH" world to maximize resources and to promote more integration of services. For example, WIC staff are involved in working on the national and state specific performance measures related to healthy weight in women and childhood obesity. The expertise of WIC staff in nutrition and breastfeeding is very helpful for developing strategies that impact the WIC population, but also the general population. We have been able to provide WIC with knowledge and expertise in areas of MCH that they may not be so familiar with, making the relationship mutually beneficial. The same is true for MCH and the other federally funded programs, such as immunizations, etc. We promote collaboration among programs in the agency as well as outside the agency. It provides a more efficient system, a much richer plan for action and also increases skills and knowledge of staff that otherwise would not happen. We are very fortunate to have the state Medicaid agency in the Department of Health and have a productive working relationship with them.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ <u>5,998,100</u>
3. Unobligated balance (Line 2, Form 2)	\$ <u>538,000</u>
4. State Funds (Line 3, Form 2)	\$ <u>25,386,000</u>
5. Local MCH Funds (Line 4, Form 2)	\$ <u>5,462,581</u>
6. Other Funds (Line 5, Form 2)	\$ <u>13,290,400</u>
7. Program Income (Line 6, Form 2)	\$ <u>8,004,900</u>
8. Total Federal-State Partnership (Line 8, Form 2)	\$ <u>58,679,981</u>

9. Most significant providers receiving MCH funds:

	<u>Local health departments</u>
	<u>University of Utah Health Sciences Center</u>
	<u> </u>
	<u> </u>

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	<u>7,442</u>
b. Infants < 1 year old	<u>54,532</u>
c. Children 1 to 22 years old	<u>49,652</u>
d. CSHCN	<u>5,079</u>
e. Others	<u>3,348</u>

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:
(max 2500 characters)

CSHCN provides direct services in specialty clinics in the Salt Lake, Ogden and Utah County areas of the state. Most CSHCN programs provide direct services. CSHCN also provides services to children with special needs in rural areas of the state without pediatric or pediatric specialty providers. Baby Your Baby serves as the Title V hotline and also is a referral source for numerous services for the public. One of its primary functions is referring pregnant women to eligibility workers or UtahClicks for determination of eligibility for Medicaid or Presumptive Eligibility. The Hotline does this through Baby Your Baby By Phone which has been successful in increasing access for Presumptive Eligibility (PE) County women area where access is very limited. A staff member accepts "phone appointments" and processes PE applications via a telephone interview and pregnancy verification. This strategy has been effective in facilitating earlier entry into prenatal care. The Department has access to language translation services for individuals who call hotlines requesting information or who want to apply for services. Utah Clicks, an online eligibility application system, enables individuals to access a number of programs for possible eligibility by entering basic demographic data into the system. UtahClicks pushes the information into a number of programs for which the individual wishes to apply. The benefit is that the individual can access the system from home or other convenient location and only has to enter the demographic information once. UtahClicks indicates to applicants which programs they may be eligible for and facilitates application submission or initiation to the appropriate program. The applicant can then follow the necessary steps to process the application for eligibility and enrollment. UtahClicks includes Presumptive Eligibility, Medicaid, CHIP, Head Start, Early Head Start, CSHCN programs and Early Intervention.

b. Population-Based Services:
(max 2500 characters)

The Department of Health has made childhood obesity a priority for public health intervention. The Department's Executive Director of the Department launched a campaign in 2007 to reduce obesity in children in the state. The group working on this issue, Utah Partnership for Healthy Weight, has formed a 501(c)3 organizational structure and works with the Department and others on issues of obesity. The state Newborn Screening Program has implemented mandatory tandem mass spectrometry (TMS) for 36 conditions tested by TMS as well as congenital adrenal hyperplasia and Biotinidase. The Department will be adding cystic fibrosis to the panel of disorders tested in January 2009. The Baby Your Baby media campaign focuses on early and ongoing prenatal care to address the state's adequacy of prenatal care rate. The campaign promotes "13 by 13" a message about getting into prenatal care by the 13th week and getting 13 visits. The Pregnancy RiskLine provides accurate, current information to callers (public and health care) requesting information on possible effects of substances, infectious agents, chemicals, etc. to pregnant women, her fetus or breast-fed infant. The Utah Birth Defect

Network (UBDN) monitors the occurrence of all structural birth defects that occur in known pregnancies in the state. Currently the Violence and Injury Prevention Program is focusing efforts at the state and local level to reduce the number of teens that are killed in motor vehicle accidents in which a teen is driving. We have seen a number of multi-fatality accidents involving teens that were clearly preventable.

c. Infrastructure Building Services:

(max 2500 characters)

The Division's data capacity is important to assist MCH and CSHCN programs with data needs, program planning and evaluation efforts. With a MCH Epidemiologist the Title V agency is better able to analyze and utilize data to identify issues that need public health intervention. We are able to conduct higher-level data analysis, link datasets for more detailed analysis, participate with outside partners on studies, develop surveys based on sound survey methodology, and develop program plans and evaluation that contribute to quality improvement. Utah PRAMS data have been widely used to frame health issues, such as domestic violence, postpartum depression, obesity, and short interpregnancy spacing. Data are used to develop strategies to impact issues of concern. For example, women who report non use of contraceptives prior to an unintended pregnancy indicated that the primary reason is that they don't want to use contraception. With this information, the Reproductive Health program has developed a training program on two natural family planning methods that are relatively effective and easy to use. The Children's Mental Health Promotion Specialist has worked with a variety of ipartners to promote mental health consultation in child care settings, such as Head Start Programs. The Division continues its promotion of integration of mental health into primary care. We are making good progress on promoting the Title V role in mental health promotion. The CSHCN Medical Home project is maintaining its work with medical home practices.

12. The primary Title V Program contact person:

Name	Nan Streeter
Title	MCH Director
Address	PO Box 142001

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were revisions to the wording, ordering and the number of the questions used to generate the NPM05 indicator for the 2005-2006 CSHCN survey. The data for the two surveys are not comparable for PM #05.

2. **Section Number:** Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2006

Field Note:

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

3. **Section Number:** Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2005

Field Note:

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

PERFORMANCE MEASURE # 06

The percentage of youth with special health care needs who received the services necessary to make transitions to all aspects of adult life, including adult health care, work, and independence.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective					
Annual Indicator	5.8	5.8	5.8	5.8	42.5
Numerator					
Denominator					
Check this box if you cannot report the numerator because					
1. There are fewer than 5 events over the last year, and					
2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.					
<i>(Explain data in a year note. See Guidance, Appendix IX.)</i>

Field Level Notes

- Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate the NPM06 indicator for the 2005-2006 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the two surveys are not comparable for PM #06 and the 2005-2006 may be considered baseline data.

- Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2006

Field Note:

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

Field Name: PM18
Row Name:
Column Name:
Year: 2005
Field Note:
 Office of Vital Records and Statistics. UDOH 2005

STATE PERFORMANCE MEASURE # 1

The percent of women of reproductive age (18-44) who are uninsured.

	Annual Objective and Performance Data				
	2003	2004	2005	2006	2007
Annual Performance Objective				14	17.2
Annual Indicator		14.8	15.3	16.1	16.1
Numerator		74,729	78,617	98,370	98,370
Denominator		505,610	513,839	609,150	609,150
Is the Data Provisional or Final?				Final	Provisional

	Annual Objective and Performance Data				
	2008	2009	2010	2011	2012
Annual Performance Objective	16	15	14	13	12
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. **Section Number:** State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2007

Field Note:

Numerator: The proportion of women with no insurance calculated using the data from the Utah Health Status Survey 2006.

Denominator: IBIS Population estimates

2. **Section Number:** State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2006

Field Note:

Numerator: The proportion of women with no insurance calculated using the data from the Utah Health Status Survey 2006.

Denominator: IBIS Population estimates

3. **Section Number:** State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2005

Field Note:

Numerator: The proportion of women with no insurance calculated using the data from the Utah Health Status Survey 2005.

Denominator: IBIS Population estimates

STATE PERFORMANCE MEASURE # 2

The proportion of pregnancies that result in a live birth that are intended.

	<u>Annual Objective and Performance Data</u>				
	2003	2004	2005	2006	2007
Annual Performance Objective	<u>66</u>	<u>66</u>	<u>66.4</u>	<u>68.7</u>	<u>67.1</u>

Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. Section Number: State Performance Measure #5

Field Name: SM5

Row Name:

Column Name:

Year: 2007

Field Note:

PRAMS data 2006

The questions used for this performance measure are as follows:

*Questions:

Since your new baby was born, how often have you felt down, depressed or hopeless? Always, Often, Sometimes, Rarely, Never

Since your new baby was born, how often have you had little interest or little pleasure in doing things? Always, Often, Sometimes, Rarely, Never

The number of women delivering a live infant who answer Always or Often to either question are counted as having reported postpartum depression which is the denominator.

Since your new baby was born, did you seek help for depression from a doctor, nurse or other health care worker?

2. Section Number: State Performance Measure #5

Field Name: SM5

Row Name:

Column Name:

Year: 2006

Field Note:

PRAMS data 2006

The questions used for this performance measure are as follows:

*Questions:

Since your new baby was born, how often have you felt down, depressed or hopeless? Always, Often, Sometimes, Rarely, Never

Since your new baby was born, how often have you had little interest or little pleasure in doing things? Always, Often, Sometimes, Rarely, Never

The number of women delivering a live infant who answer Always or Often to either question are counted as having reported postpartum depression which is the denominator.

Since your new baby was born, did you seek help for depression from a doctor, nurse or other health care worker?

3. Section Number: State Performance Measure #5

Field Level Notes

- Section Number:** State Performance Measure #9

Field Name: SM9

Row Name:

Column Name:

Year: 2007

Field Note:

Numerator: The number of children served in the rural area based on the Mega West billing system.

Denominator: Estimated proportion of CSHCN children in the rural areas based on SLAITS 2005, 11.0% estimate.

- Section Number:** State Performance Measure #9

Field Name: SM9

Row Name:

Column Name:

Year: 2006

Field Note:

Numerator: The number of children served in the rural area based on the Mega West billing system. Denominator: Estimated proportion of CSHCN children in the rural areas based on SLAITS 2001, 11.2%

FORM 12
TRACKING HEALTH OUTCOME MEASURES
[SECS 505 (A)(2)(B)(III) AND 506 (A)(2)(A)(III)]
STATE: UT

Form Level Notes for Form 12

None

OUTCOME MEASURE # 01

The infant mortality rate per 1,000 live births.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	5.4	5.2	5.1	5.2	4.5
Annual Indicator	5.0	5.2	4.5	5.0	5.0
Numerator	248	262	231	269	269
Denominator	49,834	50,653	51,517	53,475	53,475

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Provisional

Annual Objective and Performance Data

	2008	2009	2010	2011	2012
Annual Performance Objective	4.9	4.9	4.8	4.8	4.7
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. **Section Number:** Outcome Measure 1

Field Name: OM01

Row Name:

Column Name:

Year: 2007

Field Note:

Numerator: Office of Vital Records and Statistics infant mortality data.UDOH CY 2006.

Denominator: Vital Records birth data 2006.

This number differs from the rate calculated from linked Medicaid and Vital Records (5.03 vs. 5.16 per 1,000).

2. **Section Number:** Outcome Measure 1

Field Name: OM01

Row Name:

Column Name:

Year: 2006

Field Note:

Numerator: Office of Vital Records and Statistics infant mortality data.UDOH CY 2006.

Denominator: Vital Records birth data 2006.

This number differs from the rate calculated from linked Medicaid and Vital Records (5.03 vs. 5.16 per 1,000).

3. **Section Number:** Outcome Measure 1

Field Name: OM01

Row Name:

Column Name:

Year: 2005

Field Note:

Office of Vital Records and Statistics.UDOH CY 2005

OUTCOME MEASURE # 02

The ratio of the black infant mortality rate to the white infant mortality rate.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	1.8	1.8	1.7	4.5	4.5
Annual Indicator	3.5	4.4	4.4	2.9	2.9
Numerator	16.7	21.4	21.4	14.6	14.6
Denominator	4.8	4.9	4.9	5	5

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Yes	Yes
Final	Provisional

Annual Objective and Performance Data

	2008	2009	2010	2011	2012
Annual Performance Objective	4	4	3.9	3.9	3.8
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

- Section Number:** Outcome Measure 2
Field Name: OM02
Row Name:
Column Name:
Year: 2007
Field Note:
 In 2006, Black infant mortality was 14.6 per 1,000 live births (7 deaths, 478 live births); white infant mortality was 5.0 per 1,000 live births (251 deaths, 49803 live births).
- Section Number:** Outcome Measure 2
Field Name: OM02
Row Name:
Column Name:
Year: 2006
Field Note:
 In 2006, Black infant mortality was 14.6 per 1,000 live births (7 deaths, 478 live births); white infant mortality was 5.0 per 1,000 live births (251 deaths, 49803 live births).
- Section Number:** Outcome Measure 2
Field Name: OM02
Row Name:
Column Name:
Year: 2005
Field Note:
 The data are using three year annual averages (2002,2003,2004) based on data from the Office of Vital Records and Statistics.UDOH
 This is because the Black infant deaths are small numbers.

OUTCOME MEASURE # 03

The neonatal mortality rate per 1,000 live births.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	3.5	3.5	3.4	3.4	3
Annual Indicator	3.6	3.4	3.0	3.5	3.5
Numerator	181	173	156	186	186
Denominator	49,834	50,653	51,517	53,475	53,475

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

OUTCOME MEASURE # 06

The child death rate per 100,000 children aged 1 through 14.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	19	18.9	20.5	20.2	20.1
Annual Indicator	20.7	20.2	20.1	17.9	17.9
Numerator	122	122	124	114	114
Denominator	589,180	602,710	617,386	635,233	635,233

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: UT FY: 2009

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. To reduce depression and mental health issues for women, especially before, during and after pregnancy, and in children and youth
2. To reduce proportion of women of childbearing ages, pregnant women and children and youth with BMIs in the underweight, overweight and obese categories
3. To increase the proportion of births that are intended, including promotion of healthy interpregnancy spacing
4. To increase the proportion of children, especially those with special health care needs, whose health care is integrated into a medical home
5. To increase access to health care for women of childbearing ages and children including those who do not have insurance and those living in rural areas
6. To increase the use of the oral health care system for all MCH populations
7. To increase children and youth with special health care needs accessing and utilizing transition and vocational rehabilitation services.
8. To increase ethnic and cultural awareness, needs and services for Utah's racial and ethnic populations
9. To increase the awareness of genomics and promote a public health role related to genomics for the MCH populations
- 10.

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: UT

SP # 1

PERFORMANCE MEASURE:

The percent of women of reproductive age (18-44) who are uninsured.

STATUS:

Active

GOAL

Increase the percent of women of reproductive age (18-44) who are not insured

DEFINITION

The percent of women of reproductive age (18-44) who are uninsured.

Numerator:

Number of women of reproductive age who report not being covered by insurance.

Denominator:

Total number of women of reproductive age.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

HP 1-1 Increase the proportion of persons with health insurance.

DATA SOURCES AND DATA ISSUES

Weighted data from the Utah Health Status Survey.

SIGNIFICANCE

Adequate access to health care and related services can increase appropriate use of the health care system and, ultimately, improve health outcomes. The state of Utah has prioritized the issue of health insurance coverage for all citizens of the state. A higher percentage of women of childbearing ages have no insurance compared to the general population. Not having insurance is a barrier to early prenatal care and other preventive health care, such as family planning.

SP # 2

PERFORMANCE MEASURE:

The proportion of pregnancies that result in a live birth that are intended.

STATUS:

Active

GOAL

Increase the proportion of pregnancies that result in a live birth that are intended.

DEFINITION

Numerator:

The number of women delivering live born infants who reported that their pregnancy was intended.

Denominator:

The number of women delivering live born infants.

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

HP 9-1 Increase the proportion of pregnancies that are intended.

DATA SOURCES AND DATA ISSUES

Utah Department of Health, Office of Vital Records and Statistics, birth certificate data and Utah Pregnancy Risk Assessment Monitoring System (PRAMS) data, weighted for sample design and non-response.

SIGNIFICANCE

Unintentional pregnancy (pregnancies that are mistimed (unplanned, but desired) and unwanted (unplanned and not desired) has been linked to poor pregnancy outcomes. Current Utah birth records and Medicaid data have indicated that short inter-pregnancy intervals (less than 18 months between delivery of one child and conception of a subsequent pregnancy) are associated with higher risks for low birth weight, pre-term birth, and small for gestational age infants. Unintended pregnancy may be a reflection of the higher proportion of women of childbearing age without insurance and lack of access to preventive care, including family planning services.

SP # 3

PERFORMANCE MEASURE:

The percent of women who are at a normal weight prior to pregnancy.

STATUS:

Active

GOAL

Increase the percentage of women who are at a normal weight prior to pregnancy.

DEFINITION

Women delivering a live born infant who had a normal prepregnancy BMI.

Numerator:

Number of women delivering a live born infant who had a normal prepregnancy BMI.

Denominator:

The number of women who deliver a live born infant.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

HP 19-1: Increase proportion of adults who are at a healthy weight.

DATA SOURCES AND DATA ISSUES

Utah Department of Health, Office of Vital Records and Statistics, birth certificate data

SIGNIFICANCE

Women who are not at a healthy weight prior to pregnancy are at a higher risk for gestational diabetes, preeclampsia, eclampsia, cesarean section, macrosomia, low birthweight, fetal distress, antepartum stillbirth, preterm delivery, and early neonatal death. Prepregnancy weight is a proxy measure of the overall weight status of women and normal prepregnancy weight may reflect a woman's future weight history.

SP # 4

PERFORMANCE MEASURE:

The percent of pregnant women with appropriate weight gain who deliver live born infants.

STATUS:

Active

GOAL

Increase the percentage of pregnant women with appropriate weight gain during their pregnancies, regardless of gestational age at the time of delivery.

DEFINITION

Numerator:

Number of women with a live birth who have achieved appropriate weight gain for duration of pregnancy at time of delivery.

Denominator:

Number of live births.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

HP 16-12 - (Developmental) Increase the proportion of mothers who achieve a recommended weight gain

DATA SOURCES AND DATA ISSUES

Birth Certificate data, Vital Records, IOM weight gain guides

SIGNIFICANCE

Women with appropriate weight gain during pregnancy have better outcomes than women with inadequate or excessive weight gains. Inadequate weight gain may be associated with increased risks for low birth weight and infant mortality while those with excessive weight gain have increased risk for cesarean delivery, preterm delivery, and long term inappropriate weight status.

SP # 5

PERFORMANCE MEASURE:

The proportion of women who deliver a live born infant reporting postpartum depression who seek help from a doctor, nurse or other health care worker.

STATUS:

Active

GOAL

Increase the percentage of women who report and seek treatment for postpartum depression.

DEFINITION

The proportion of women who deliver a live born infant reporting postpartum depression who seek help from a doctor, nurse or other health care worker.

Numerator:

Number of women delivering a live born infant reporting postpartum depression who report seeking help from a doctor, nurse or other health care worker.

Denominator:

Number of women delivering a live born infant reporting postpartum depression.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

HP 18-9 Increase the proportion of adults with mental disorders who receive treatment.

HP 18-9b. Adults aged 18 years and older with recognized depression.

DATA SOURCES AND DATA ISSUES

Utah Department of Health, Pregnancy Risk Assessment Monitoring System

SIGNIFICANCE

Perinatal depression is emerging as a priority issue in Utah. Among Utah PRAMS respondents from 1999 to 2001, 25.2% indicated that they were moderately to severely depressed? in the months after delivery. Utah had the highest prevalence of low to moderate self-reported postpartum depression (62.3%) among seven PRAMS states (2000 PRAMS national data). In Utah from 1995 through 2002, suicide was the cause of 5 of 61 maternal deaths. Maternal depression impacts a mother's ability to interact with her infant effectively, which may inhibit healthy development of her child. The CDC has recently modified the PRAMS depression questions. The questions used for this performance measure are as follows: *Questions: Since your new baby was born, how often have you felt down, depressed or hopeless? Always, Often, Sometimes, Rarely, Never Since your new baby was born, how often have you had little interest or little pleasure in doing things? Always, Often, Sometimes, Rarely, Never The number of women delivering a live infant who answer Always or Often to either question are counted as having reported postpartum depression. Since your new baby was born, did you seek help for depression from a doctor, nurse or other health care worker?

SP # 6

PERFORMANCE MEASURE:

The percent of children who are at risk of overweight and overweight.

STATUS:

Active

GOAL

To decrease the number of children who are at risk of overweight and overweight.

DEFINITION

Numerator:

The number of children with BMI at or above the 85th percentile cut points from the 2000 CDC Growth Charts.

Denominator:

The number of children with complete height and weight in the sample in grades 1, 3, and 5.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

HP 19-3 Reduce the proportion of children and adolescents who are overweight or obese.

DATA SOURCES AND DATA ISSUES

In fall 2005, the Heart Disease and Stroke Prevention Program will gather height and weight data on approximately 7,900 public school students in grades 1, 3, and 5. The measures will be collected every other year. At risk for overweight is defined as at or above the gender- and age-specific 85th percentile of BMI and Overweight is defined as at or above the gender- and age-specific 95th percentile of BMI based on the revised CDC Growth Charts for the United States <http://www.cdc.gov/growthcharts/>.

SIGNIFICANCE

Utah, similar to the nation, has experienced an increase in the percentage of at risk for overweight and overweight children. Increased weight places children at risk for additional health problems including diabetes and cardiovascular disease. Additionally, overweight children are more likely to face psychological stress and engage in high-risk behaviors. Currently, Utah does not have adequate data to establish a baseline of the prevalence of at risk for overweight and overweight.

SP # 7

PERFORMANCE MEASURE:

The percent of youth during the last 12 months who feel so sad or hopeless almost every day for two weeks or more in a row that they stopped doing usual activities.

STATUS:

Active

GOAL

To decrease the number of adolescents who are so depressed that they cannot carry on usual activities.

DEFINITION

Numerator:

Number of youth surveyed who report that during the prior 12 months feeling so sad or hopeless almost every day for two weeks or more that they stopped doing usual activities.

Denominator:

All youth responding to the Youth Risk Behavior Survey question on depression.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

HP 18-7 Increase the proportion of children with mental health problems who receive treatment.

DATA SOURCES AND DATA ISSUES

Data comes from the Youth Risk Behavior Survey undertaken in the state's public schools. Limitations of the data are that the survey is only undertaken in some of the public schools every other year and private schools are not included.

SIGNIFICANCE

The most recent Title V Needs Assessment identifies child mental health problems as a major issue. This measure is meant to provide a method of tracking depression that is related to a variety of mental health issues including suicide, risk-taking behaviors, low-self esteem, child abuse, and treatable mental health diagnoses including bipolar disorder.

SP # 8

PERFORMANCE MEASURE:

The percent of children six through nine years of age enrolled in Medicaid receiving a dental visit in the past year.

STATUS:

Active

GOAL

Increase the percent of children six through nine years of age enrolled in Medicaid receiving a dental visit in the past year.

DEFINITION

The percent of children six through nine years of age enrolled in Medicaid receiving a dental visit in the past year.

Numerator:

Number of children six through nine years of age enrolled in Medicaid receiveing a dental visit in the past year.

Denominator:

Number of children six to nine years of age enrolled in Medicaid.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

HP21-10:Increase the proportion of children and adults who use the oral health care system each year

DATA SOURCES AND DATA ISSUES

Medicaid CMS 416 EPSDT report

SIGNIFICANCE

Only 47% of children six through nine years of age enrolled in Medicaid had a least one dental visit in FY 2004. Increasing the proportion of children receiving annual dental visits will help to insure that more children are receiving and benefiting from preventive oral health services such as sealants, fluoride applications and daily fluoride supplements as well as needed treatment care. Additionally, annual dental visits for preventive services and early intervention and treatment care will reduce the rate of untreated caries among children. Permanent teeth have begun erupting in most children by six years of age. Regular dental visits can help ensure the healthy future of the permanent dentition by providing essential preventive care, early treatment and education and instruction for home care to children and their parents. Regular dental care can ensure good oral health, thus impacting overall general health.

SP # 9

PERFORMANCE MEASURE:

The percent of children with special health care needs in the rural areas of the state receiving direct clinical services through the state CSHCN program.

STATUS:

Active

GOAL

Increase the percent of children with needed access to specialty care through Children with Special Health Care Needs (CSHCN) clinics in rural areas of Utah.

DEFINITION

Numerator:

The number of children in the State CSHCN program who receive services in rural Utah counties.

Denominator:

The estimated number of children with special health care needs who live in rural counties.

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

HP16-23: Increase the proportion of Territories and States that have service systems for CSHCN.

DATA SOURCES AND DATA ISSUES

The CSHCN National Survey data for number of children with special health care needs in Utah. The UDOH website for county rural population data. <http://health.utah.gov/ibisq/> UDOH CSHCN service data

SIGNIFICANCE

The State CSHCN Program has traditionally provided or financed specialty and subspecialty services to children and youth with special health care need populations when they are not otherwise available. Although there are adequate subspecialty pediatric resources along the Wasatch Front, specialized services are absent or difficult to obtain in rural Utah. By increasing the percentage of children and youth with special health care needs for whom appropriate specialty and subspecialty care is accessible, health outcomes for these children will be improved.

SO # 1

OUTCOME MEASURE:

The maternal mortality rate per 100,000 live births.

STATUS:

Active

GOAL

Reduce the number of women who die due to pregnancy related causes.

DEFINITION

Numerator:

Women of childbearing age who die within 12 months of completion of a pregnancy regardless of duration due to pregnancy or pregnancy related causes.

Denominator:

Number of live births.

Units: 100000 **Text:** 2

HEALTHY PEOPLE 2010 OBJECTIVE

HP 16-4 Reduce maternal deaths

DATA SOURCES AND DATA ISSUES

Match of death certificates of women of childbearing age with birth and fetal death certificates, review of deaths and classification of causes.

SIGNIFICANCE

Pregnancy and pregnancy related causes of death may be preventable. Identification of the contributing factors may lead to prevention of future deaths, thus sparing children the loss of the mothers.

FORM NOTES FOR FORM 16

Denominator: Sample selected by the providers

HEALTH SYSTEMS CAPACITY MEASURE # 04

The percent of women (15 through 44) with a live birth during the reporting year whose observed to expected prenatal visits are greater than or equal to 80 percent on the Kotelchuck Index.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>76.6</u>	<u>78.8</u>	<u>78.8</u>	<u>82.2</u>	<u>82.2</u>
Numerator	<u>38,108</u>	<u>39,844</u>	<u>39,844</u>	<u>43,970</u>	<u>43,970</u>
Denominator	<u>49,766</u>	<u>50,581</u>	<u>50,581</u>	<u>53,475</u>	<u>53,475</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. **Section Number:** Health Systems Capacity Indicator #07A

Field Name: HSC07A

Row Name:

Column Name:

Year: 2007

Field Note:

Numerator: Fee for service claims were used to calculate the number of unduplicated children receiving a medical service provided by Medicaid and estimates of a service received using Medicaid HEDIS data.

Denominator: The number of children enrolled in Medicaid plus the proportion of children with no insurance who could have been eligible for Medicaid based on income for ages 1-18, were calculated using the data from the Utah Health Status Survey 2005.

2. **Section Number:** Health Systems Capacity Indicator #07A

Field Name: HSC07A

Row Name:

Column Name:

Year: 2006

Field Note:

Numerator: Fee for service claims were used to calculate the number of unduplicated children receiving a medical service provided by Medicaid and estimates of a service received using Medicaid HEDIS data.

Denominator: The number of children enrolled in Medicaid plus the proportion of children with no insurance who could have been eligible for Medicaid based on income for ages 1-18, were calculated using the data from the Utah Health Status Survey 2005.

3. **Section Number:** Health Systems Capacity Indicator #07A

Field Name: HSC07A

Row Name:

Column Name:

Year: 2005

Field Note:

Numerator: Fee for service claims were used to calculate the number of unduplicated children receiving a medical service provided by Medicaid and estimates of a service received using Medicaid HEDIS data.

Denominator: The number of children enrolled in Medicaid plus the proportion of children with no insurance who could have been eligible for Medicaid based on income for ages 1-18, were calculated using the data from the Utah Health Status Survey 2005.

HEALTH SYSTEMS CAPACITY MEASURE # 07B

The percent of EPSDT eligible children aged 6 through 9 years who have received any dental services during the year.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>45.2</u>	<u>47.2</u>	<u>48.8</u>	<u>51.2</u>	<u>51.2</u>
Numerator	<u>11,231</u>	<u>12,772</u>	<u>14,127</u>	<u>14,920</u>	<u>14,920</u>
Denominator	<u>24,863</u>	<u>27,088</u>	<u>28,943</u>	<u>29,135</u>	<u>29,135</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Field Name: HSC08

Row Name:

Column Name:

Year: 2005

Field Note:

Numerator: This is the first unduplicated CSHCN number that has been specifically matched for the age range of 16 years and under. The numerator reflects CSHCN systems data for age matched for, SSN, name and date of birth.

Denominator: SSI for calendar year 2005

FORM 18
 HEALTH SYSTEMS CAPACITY INDICATOR #05
 (MEDICAID AND NON-MEDICAID COMPARISON)
 STATE: UT

INDICATOR #05 <i>Comparison of health system capacity indicators for Medicaid, non-Medicaid, and all MCH populations in the State</i>	YEAR	DATA SOURCE	POPULATION		
			MEDICAID	NON-MEDICAID	ALL
a) <i>Percent of low birth weight (< 2,500 grams)</i>	2006	Matching data files	<u>8.8</u>	<u>6</u>	<u>6.9</u>
b) <i>Infant deaths per 1,000 live births</i>	2006	Matching data files	<u>6.9</u>	<u>4.3</u>	<u>5.2</u>
c) <i>Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester</i>	2006	Matching data files	<u>68.7</u>	<u>84.2</u>	<u>79</u>
d) <i>Percent of pregnant women with adequate prenatal care (observed to expected prenatal visits is greater than or equal to 80% [Kotelchuck Index])</i>	2006	Matching data files	<u>73.2</u>	<u>86.8</u>	<u>82.1</u>

FORM 18
HEALTH SYSTEMS CAPACITY INDICATOR #06(MEDICAID ELIGIBILITY LEVEL)
STATE: UT

INDICATOR #06 <i>The percent of poverty level for eligibility in the State's Medicaid programs for infants (0 to 1), children, Medicaid and pregnant women.</i>	YEAR	PERCENT OF POVERTY LEVEL MEDICAID (Valid range: 100-300 percent)
a) <i>Infants (0 to 1)</i>	2007	<u>133</u>
b) <i>Medicaid Children</i> (Age range <u>1</u> to <u>5</u>) (Age range <u>6</u> to <u>18</u>) (Age range <u> </u> to <u> </u>)	2007	<u>133</u> <u>100</u> <u> </u>
c) <i>Pregnant Women</i>	2007	<u>133</u>

FORM 18
HEALTH SYSTEMS CAPACITY INDICATOR #06(SCHIP ELIGIBILITY LEVEL)
STATE: UT

INDICATOR #06 <i>The percent of poverty level for eligibility in the State's SCHIP programs for infants (0 to 1), children, SCHIP and pregnant women.</i>	YEAR	PERCENT OF POVERTY LEVEL SCHIP
a) <i>Infants (0 to 1)</i>	2007	<u>200</u>
b) <i>Medicaid Children</i> (Age range <u>1</u> to <u>18</u>) (Age range <u> </u> to <u> </u>) (Age range <u> </u> to <u> </u>)	2007	<u>200</u> <u> </u> <u> </u>
c) <i>Pregnant Women</i>		<u> </u>

FORM NOTES FOR FORM 18

None

FIELD LEVEL NOTES

1. **Section Number:** Indicator 06 - SCHIP
Field Name: SCHIP_Women
Row Name: Pregnant Women
Column Name:
Year: 2009
Field Note:
Pregnant women are not covered under Utah CHIP program.

2. **Section Number:** Indicator 05
Field Name: InfantDeath
Row Name: Infant deaths per 1,000 live births
Column Name:
Year: 2009
Field Note:
This percentage is based on the linked Medicaid eligibility file and Vital Record data, and may differ slightly from calculations based solely on Vital Record infant mortality data.

3. **Section Number:** Indicator 05
Field Name: AdequateCare
Row Name: Percent of pregnant women with adequate prenatal care
Column Name:
Year: 2009
Field Note:
This percentage is based on linked Medicaid eligibility file and 2006 birth data. This linked data differs slightly from calculations made only using birth data (82.14% vs. 82.23%).

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: UT

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	3	Yes
Annual linkage of birth certificates and WIC eligibility files	1	No
Annual linkage of birth certificates and newborn screening files	2	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	3	Yes
Annual birth defects surveillance system	3	Yes
Survey of recent mothers at least every two years (like PRAMS)	3	Yes

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: UT

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other: Youth Tobacco Survey	3	No

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

3. **Section Number:** Health Status Indicator #04A

Field Name: HSI04A

Row Name:

Column Name:

Year: 2005

Field Note:

IBIS Hospital Discharge Database Injury Query Module, E codes E800-869, E880-E929; CY 2005
 Denominator: IBIS Population Estimates

HEALTH STATUS INDICATOR MEASURE # 04B

The rate per 100,000 of nonfatal injuries due to motor vehicle crashes among children aged 14 years and younger.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	<u>98.5</u>	<u>37.5</u>	<u>39.6</u>	<u>36.9</u>	<u>36.9</u>
Numerator	<u>629</u>	<u>245</u>	<u>265</u>	<u>252</u>	<u>252</u>
Denominator	<u>638,700</u>	<u>653,225</u>	<u>668,784</u>	<u>683,326</u>	<u>683,326</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)
