FORM 2
MCH BUDGET DETAILS FOR FY 2009

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: VA

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
Of the Federal Allocation (1 above), the amount earmarked for:

\$ 12,345,316

A. Preventive and primary care for children:

\$ 6,049,205 (49%)

B. Children with special health care needs:

\$ 4,567,767 (37%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C. Title V administrative costs:

\$ 0 (0%)

(The above figure cannot be more than 10%)[Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 0

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 9,258,987

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 0

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 1,500,000

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 8,718,003

\$ 10,758,987

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 23,104,303

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 94,644

c. CISS: \$ 142,917

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 1,050,000

f. EMSC: \$ 0

g. WIC: \$ 61,511,469

h. AIDS: \$ 0

i. CDC: \$ 5,367,526

j. Education: \$ 0

k. Other: \$ 0

DMAS \$ 447,500

Family Planning \$ 4,527,671

MCHB \$ 284,978

SAMSHA Youth Suicide \$ 400,000

TANF \$ 1,077,150

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 74,903,855

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 98,008,158

FORM NOTES FOR FORM 3

None

FIELD LEVEL NOTES**1. Section Number:** Main**Field Name:** FedAllocExpended**Row Name:** Federal Allocation**Column Name:** Expended**Year:** 2006**Field Note:**

Expenditures for pregnant women served fell short of that budgeted by \$777,245. The expended amount is based on the actual visits while the budgeted amount is an estimate based on the prior year's visits. The amount expended for infants again increased in FY06 due to the increased funding to support screening activities and visits. Expenditures for services for Children 1 to 22 years increased dramatically from the previous year and totals \$4,866,468. However, the budget for this population was not exceeded due to vacancies in several key positions providing such services during this reporting period. This is also true for Children with Special Health Care Needs (CSHCN). Additionally, Lead Screening services are no longer housed in the Office of Family Health Services, thereby reducing expenditures incurred. Form 5 shows that Direct Health Care has a variance from the budgeted amount. This reflects a continuing decrease in the provision of direct clinical services in the local health departments (LHDs) as well as reasons identified above. Virginia continues to emphasize health education and translation services geared toward pregnant women, infants and children. Additionally, Virginia has been moving toward population-based services as opposed to direct provision of care. For 5 indicates significant variation in expenditures by types of service. However, for each type of service, expenditures were within the budgeted amounts. The rationale behind this is discussed above. Also, a concerted effort to secure reimbursement through other sources (Medicaid, commercial insurance, etc.) for direct service provision has proven extremely effective. Infrastructure building expenditures fall below that budgeted due to prior year activities that resulted in enhanced infrastructure.

2. Section Number: Main**Field Name:** StateMCHFundsExpended**Row Name:** State Funds**Column Name:** Expended**Year:** 2007**Field Note:**

Because program income earned was significantly less than budgeted, state matching funds were applied to ensure that the program was funded at the projected total level.

3. Section Number: Main**Field Name:** StateMCHFundsExpended**Row Name:** State Funds**Column Name:** Expended**Year:** 2006**Field Note:**

Year: 2006
Field Note:
Expenditures for pregnant women served fell short of that budgeted by \$777,245. The expended amount is based on the actual visits while the budgeted amount is an estimate based on the prior year's visits. The amount expended for infants again increased in FY06 due to the increased funding to support screening activities and visits. Expenditures for services for Children 1 to 22 years increased dramatically from the previous year and totals \$4,866,468. However, the budget for this population was not exceeded due to vacancies in several key positions providing such services during this reporting period. This is also true for Children with Special Health Care Needs (CSHCN). Additionally, Lead Screening services are no longer housed in the Office of Family Health Services, thereby reducing expenditures incurred. Form 5 shows that Direct Health Care has a variance from the budgeted amount. This reflects a continuing decrease in the provision of direct clinical services in the local health departments (LHDs) as well as reasons identified above. Virginia continues to emphasize health education and translation services geared toward pregnant women, infants and children. Additionally, Virginia has been moving toward population-based services as opposed to direct provision of care. For 5 indicates significant variation in expenditures by types of service. However, for each type of service, expenditures were within the budgeted amounts. The rationale behind this is discussed above. Also, a concerted effort to secure reimbursement through other sources (Medicaid, commercial insurance, etc.) for direct service provision has proven extremely effective. Infrastructure building expenditures fall below that budgeted due to prior year activities that resulted in enhanced infrastructure.
6. **Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: CSHCNExpended
Row Name: CSHCN
Column Name: Expended
Year: 2007
Field Note:
Funds expended for services to Children with Special Health Care Needs increased as the result of several factors. These include: increases in the costs for providing care, as well as a focus on expanding enabling services for this and other populations.
7. **Section Number:** I. Federal-State MCH Block Grant Partnership
Field Name: AllOthersExpended
Row Name: All Others
Column Name: Expended
Year: 2007
Field Note:
Funds expended for services provided for Others exceeded that budgeted as a result of serving a greater than anticipated (20% of total served) number of individuals who were not categorized as pregnant women, infants, children, or children with special health care needs.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2009
[SEC. 506(A)(1)]
STATE: VA

1. State MCH Administration:
(max 2500 characters)

The Virginia Department of Health (VDH) is authorized by Section 32.1-77 of the Code of Virginia to administer the Maternal and Child Health Services Block Grant funds. Within the department, the block grant is managed by the Office of Family Health Services. The services provided with this funding include preventive and primary care services for pregnant women and mothers, preventive and primary care services for infants, children and adolescents, and non-pregnant women of childbearing age. Services are also provided for children with special health care needs (CSHCN).

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ <u>12,345,316</u>
3. Unobligated balance (Line 2, Form 2)	\$ <u>0</u>
4. State Funds (Line 3, Form 2)	\$ <u>9,258,987</u>
5. Local MCH Funds (Line 4, Form 2)	\$ <u>0</u>
6. Other Funds (Line 5, Form 2)	\$ <u>0</u>
7. Program Income (Line 6, Form 2)	\$ <u>1,500,000</u>
8. Total Federal-State Partnership (Line 8, Form 2)	\$ <u>23,104,303</u>

9. Most significant providers receiving MCH funds:

35 District Health Departments
5 (formerly 7) Regional Perinatal Councils
Universities, UVA, EVMS, and VCU
Children;s Hospital of the Kings Daughters, INOVA

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	<u>10,676</u>
b. Infants < 1 year old	<u>106,474</u>
c. Children 1 to 22 years old	<u>58,120</u>
d. CSHCN	<u>9,773</u>
e. Others	<u>46,679</u>

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:

(max 2500 characters)

Maternity and child health clinical services are provided to low income women, infants and children through agreements with the district/local health departments. Services include prenatal and postpartum care, laboratory testing, family planning, well-child care, children's dental care, and prenatal genetics testing. Service availability varies by district health department. The Resource Mothers Program provides intensive home visiting services for teens during the prenatal months through the infant's first birthday. The program encourages early and regular prenatal care, positive health behaviors, maintaining school enrollment/job training, delaying repeat pregnancies and involvement of the infant's father and grandparents. The Care Connection for Children (CCC) provides specialized medical-surgical and care coordination services for children with special health care needs.

b. Population-Based Services:

(max 2500 characters)

The Virginia Newborn Screening Program, mandated by state law, screens all newborns for 28 metabolic conditions. Follow-up and referral services are provided to treatment clinics and special nutritional formulas are supplied as needed. The Virginia Early Hearing Detection Initiative (BEHDI) screens newborns for hearing and provides follow-up retesting and services. The Virginia Congenital Anomalies Reporting and Education System (VaCARES) utilizes information found in birth records and hospital discharge records for children ages birth to 2 to evaluate possible causes of birth defects, to improve the diagnosis and treatment of birth defects, and to inform parents and physicians about available health, financial, social and other support resources.

c. Infrastructure Building Services:

(max 2500 characters)

Five (formerly 7) Regional Perinatal Councils (RPCs) are funded to address issues relating to access to prenatal care, and to provide perinatal outreach education and to collect and review fetal/infant mortality data at the local level. In FY 06, the RPCs trained 11,708 professionals in obstetrical (319), neonatal (362) and other programs (193). The State Maternal Mortality Review Team reviews deaths to determine the causes and circumstances in order to develop recommendations for prevention, education, training and system changes. Title V also provides partial support for the Pregnancy Risk Assessment Monitoring System (PRAMS) a survey to obtain information regarding pregnancy experience and outcomes from a sample of new mothers and will provide partial support for the implementation of the Virginia Youth Survey (YRBS) and an increase in evaluation of OFHS MCH programs.

FORM NOTES FOR FORM 10

None

FIELD LEVEL NOTES

1. **Section Number:** The primary Title V Program contact person

Field Name: PrimaryContact

Row Name:

Column Name:

Year: 2009

Field Note:

Dr. David Suttle is the Title V Director

Dr. David Suttle

Office of Family Health Services

Virginia Department of Health

109 Governor St, 7th Floor

Richmond, VA 23219

Phone (804) 864-7651

FAX (804) 864-7670

email david.suttle@vdh.virginia.gov

FORM 11
TRACKING PERFORMANCE MEASURES
[SECS 485 (2)(2)(B)(III) AND 486 (A)(2)(A)(III)]
STATE: VA

Form Level Notes for Form 11

None

PERFORMANCE MEASURE # 01

The percent of screen positive newborns who received timely follow up to definitive diagnosis and clinical management for condition(s) mandated by their State-sponsored newborn screening programs.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	100	100	100	100	100
Annual Indicator	100.0	100.0	100.0	100.0	100
Numerator	111	99	113	143	
Denominator	111	99	113	143	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Provisional

Annual Objective and Performance Data

	2008	2009	2010	2011	2012
Annual Performance Objective	100	100	100	100	100
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. Section Number: Performance Measure #1

Field Name: PM01

Row Name:

Column Name:

Year: 2007

Field Note:

2007 data not yet available.

Entry is an estimate based on performance in previous years.

2. Section Number: Performance Measure #1

Field Name: PM01

Row Name:

Column Name:

Year: 2006

Field Note:

2006 data from Virginia Newborn Screening Program.

Numerator = number receiving appropriate follow-up (linked to appropriate specialist)

Denominator = number of confirmed cases

Evidence = info from PCP or specialist, oral or written.

3. Section Number: Performance Measure #1

Field Name: PM01

Row Name:

Column Name:

Year: 2005

Field Note:

Appropriate follow-up = linked to appropriate specialist.

Evidence = info from PCP or specialist, oral or written.

PERFORMANCE MEASURE # 02

The percent of children with special health care needs age 0 to 18 years whose families partner in decision making at all levels and are satisfied with the services they receive. (CSHCN survey)

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	60	60	60	60	60
Annual Indicator	58.3	58.3	58.3	58.3	59.8
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional

Annual Objective and Performance Data

	2008	2009	2010	2011	2012
Annual Performance Objective	65	65	65	65	65
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. **Section Number:** Performance Measure #2

Field Name: PM02

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. The same questions were used to generate the NPM02 indicator for both the 2001 and the 2005-2006 CSHCN survey.

2. **Section Number:** Performance Measure #2

Field Name: PM02

Row Name:

Column Name:

Year: 2006

Field Note:

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

3. **Section Number:** Performance Measure #2

Field Name: PM02

Row Name:

Column Name:

Year: 2005

Field Note:

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

PERFORMANCE MEASURE # 03

The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey)

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	60	60	60	60	60
Annual Indicator	54.5	54.5	54.5	54.5	43.9
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

- Section Number:** Performance Measure #3
Field Name: PM03
Row Name:
Column Name:
Year: 2007
Field Note:
 Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions and additions to the questions used to generate the NPM03 indicator for the 2005-2006 CSHCN survey. The data for the two surveys are not comparable for PM #03.
- Section Number:** Performance Measure #3
Field Name: PM03
Row Name:
Column Name:
Year: 2006
Field Note:
 The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.
- Section Number:** Performance Measure #3
Field Name: PM03
Row Name:
Column Name:
Year: 2005
Field Note:
 The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

PERFORMANCE MEASURE # 04

The percent of children with special health care needs age 0 to 18 whose families have adequate private and/or public insurance to pay for the services they need. (CSHCN Survey)

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	67	68	70	70	70
Annual Indicator	65.6	65.6	65.6	65.6	63.7
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. **Section Number:** Performance Measure #4

Field Name: PM04

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. The same questions were used to generate the NPM04 indicator for both the 2001 and the 2005-2006 CSHCN survey.

2. **Section Number:** Performance Measure #4

Field Name: PM04

Row Name:

Column Name:

Year: 2006

Field Note:

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

3. **Section Number:** Performance Measure #4

Field Name: PM04

Row Name:

Column Name:

Year: 2005

Field Note:

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

PERFORMANCE MEASURE # 05

Percent of children with special health care needs age 0 to 18 whose families report the community-based service systems are organized so they can use them easily. (CSHCN Survey)

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	82	82	83	85	85
Annual Indicator	80.1	80.1	80.1	80.1	89.6
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. **Section Number:** Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were revisions to the wording, ordering and the number of the questions used to generate the NPM05 indicator for the 2005-2006 CSHCN survey. The data for the two surveys are not comparable for PM #05.

2. **Section Number:** Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2006

Field Note:

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

3. **Section Number:** Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2005

Field Note:

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

PERFORMANCE MEASURE # 06

The percentage of youth with special health care needs who received the services necessary to make transitions to all aspects of adult life, including adult health care, work, and independence.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	5.8	5.8	6	7	8
Annual Indicator	5.8	5.8	5.8	5.8	37.8
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate the NPM06 indicator for the 2005-2006 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the two surveys are not comparable for PM #06 and the 2005-2006 may be considered baseline data.

2. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2006

Field Note:

The data reported in 2006 are pre-populated with the data from 2005 for this performance measure.

3. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2005

Field Note:

The data reported in 2005 are pre-populated with the data from 2004 for this performance measure.

PERFORMANCE MEASURE # 07

Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	79	82	85	85	87
Annual Indicator	84	81	85.8	81.5	86.2
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. **Section Number:** Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2007

Field Note:

2007 provisional data used for number of births to teens. Denominator entry is an estimate based on previous year.

2. **Section Number:** Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2006

Field Note:

Number of teen births from Vital Records 2006 data. Denominator from NCHS 2006 population estimates.

3. **Section Number:** Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2005

Field Note:

Number of teen births from Vital Records 2005 data. Denominator from NCHS 2005 population estimates.

PERFORMANCE MEASURE # 09

Percent of third grade children who have received protective sealants on at least one permanent molar tooth.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	36	37	39	39	39
Annual Indicator	42.0	43.0	44.0	25.1	29.6
Numerator	856	876	897	50	180
Denominator	2,038	2,038	2,038	199	608

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional Provisional

Annual Objective and Performance Data

	2008	2009	2010	2011	2012
Annual Performance Objective	40	40	40	40	40
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. Section Number: Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2007

Field Note:

Data are derived from dental surveys of school-age children in Virginia. 2007 data are from the 2007 Piedmont Health District Basic Screening Survey of third-grade children. Piedmont is a rural health district and may not be entirely representative of all third graders, but this is the most recent data available. Data presented are unweighted.

Numerator is the unweighted number of children who received a sealant. Denominator is the unweighted number of third grade children examined. Data collection on third graders in targeted counties will continue through 2008.

2. Section Number: Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2006

Field Note:

Data are derived from dental surveys of school-age children in Virginia. The data is derived from more than 1,000 third-grade children from targeted counties throughout the state.

Numerator is the unweighted number of children who received a sealant. Denominator is the unweighted number of third grade children examined. Data collection will continue with analyses and weighting of data in 2007. Weighted numbers are expected to adjust the percent to be in line with the previous years' trends.

3. Section Number: Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2005

Field Note:

Data is derived from a statewide needs assessment of school-age children in Virginia. This comprehensive study examined the oral health condition and needs of over 2,000 third-grade children from throughout the state.

PERFORMANCE MEASURE # 10

The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	2.1	2.1	2.1	2.1	1.9
Annual Indicator	2.7	1.9	2.7	1.9	2.1
Numerator	41	29	41	28	
Denominator	1,496,098	1,497,931	1,508,838	1,490,293	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. **Section Number:** Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2007

Field Note:

Data for 2007 not yet available. Entry is an estimate based on trend.

2. **Section Number:** Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2006

Field Note:

Data from 2006 Death Certificate File.

Relevant changes in Virginia Law:

July 1, 2002:

--All children under age six must be properly restrained in a child safety seat or booster seat. Violations will result in a \$50 fine.

--All children between their 6th and 16th birthday must be properly restrained by a child restraint system or a safety belt. Violations will result in a \$50 fine.

July 1, 2007:

--Child restraint devices are required for children through the age of seven (until 8th birthday). Violations will result in a \$50 fine.

--Rear-facing child restraint devices must be placed in the back seat of a vehicle. In the event the vehicle does not have a back seat, the child restraint device may be placed in the front passenger seat only if the vehicle is either not equipped with a passenger side airbag or the passenger side airbag has been deactivated. Violations will result in a \$50 fine.

--Children can no longer ride unrestrained in the rear cargo area of vehicles. Violations will result in a \$50 fine.

--All children between their 8th and 16th birthday must be properly restrained by a child restraint system or a safety belt. Violations will result in a \$50 fine.

3. **Section Number:** Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2005

Field Note:

Data from 2005 Death Certificate File.

PERFORMANCE MEASURE # 11

The percent of mothers who breastfeed their infants at 6 months of age.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective				40	43
Annual Indicator			39	39	49.8
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

- Section Number:** Performance Measure #15
Field Name: PM15
Row Name:
Column Name:
Year: 2007
Field Note:
 2007 provisional data. Virginia is still using the old birth certificate, so indicator measures women who ever smoked during pregnancy.
- Section Number:** Performance Measure #15
Field Name: PM15
Row Name:
Column Name:
Year: 2006
Field Note:
 2006 data from birth certificates. Virginia is still using the old birth certificate, so indicator measures women who ever smoked during pregnancy.
- Section Number:** Performance Measure #15
Field Name: PM15
Row Name:
Column Name:
Year: 2005
Field Note:
 Data from 2004 birth certificates. Data on smoking in third trimester is not available. Data are percent women reporting smoking throughout pregnancy from birth certificate data, 2004.

 It is anticipated that Virginia will use the 2003 standard birth certificate in 2007. At that point, this measure can be computed directly.

PERFORMANCE MEASURE # 16

The rate (per 100,000) of suicide deaths among youths aged 15 through 19.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	5.8	5.8	5.8	5.4	5.4

Field Level Notes

- Section Number:** State Performance Measure #6

Field Name: SM6

Row Name:

Column Name:

Year: 2007

Field Note:

Data is from a 2006 VDH assessment of dentally underserved areas in Virginia and Manpower Analysis. The annual indicator represents the number of general dentists per 1,000 population, where the numerator is the number of general dentists in all dentally underserved areas and the denominator is the total population of all dentally underserved areas in Virginia. The statewide average dentist to population ratio is 1 dentist per 2,472 persons or ~0.5 dentists per 1,000 persons. Areas of need are defined as those areas having a lower dentist to population ratio than the statewide average, and need at least 0.5 additional dentists to meet the state dentist to population ratio.

- Section Number:** State Performance Measure #6

Field Name: SM6

Row Name:

Column Name:

Year: 2006

Field Note:

Data is from a 2006 VDH assessment of dentally underserved areas in Virginia. The annual indicator represents the number of general dentists per 1,000 population, where the numerator is the number of general dentists in all dentally underserved areas and the denominator is the total population of all dentally underserved areas in Virginia. The statewide average dentist to population ratio is 1 dentist per 2,084 persons or 0.5 dentists per 1,000 persons. Areas of need are defined as those areas having a lower dentist to population ratio than the statewide average.

- Section Number:** State Performance Measure #6

Field Name: SM6

Row Name:

Column Name:

Year: 2005

Field Note:

Data is derived from a 2001 VDH assessment of dentally underserved areas in Virginia. The annual indicator represents the number of general dentists per 1,000 population, where the numerator is the number of general dentists in all dentally underserved areas and the denominator is the total population of all dentally underserved areas in Virginia. The statewide average dentist to population ratio is 1 dentist per 2,084 persons or 0.5 dentists per 1,000 persons. Areas of need are defined as those areas having a lower dentist to population ratio than the statewide average. All areas of need are being reassessed in 2006.

STATE PERFORMANCE MEASURE # 7

The proportion of children (0-21 years) who receive genetic testing.

	Annual Objective and Performance Data

TRACKING HEALTH OUTCOME MEASURES
[SECS 505 (A)(2)(B)(III) AND 506 (A)(2)(A)(III)]
STATE: VA

Form Level Notes for Form 12

None

OUTCOME MEASURE # 01

The infant mortality rate per 1,000 live births.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	6.7	6.6	6.5	6.5	6.5
Annual Indicator	7.6	7.4	7.4	7.1	7.4
Numerator	766	768	777	760	
Denominator	100,561	103,830	104,488	106,474	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

The CSHCN Program is actively recruiting more family members of Asian and Hispanic cultures to participate in committees and training and to hire as paid staff or consultants.

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: VA FY: 2009

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Exercise leadership in nurturing partnerships that promote systematic communication, coordination, shared resource allocation and education around health improvement efforts.
2. Enhance data collection and dissemination efforts to promote evidence-based decision making in planning, policy, evaluation, resource allocation, and accountability.
3. Assess and develop strategies to address underinsurance for vulnerable populations to improve access to affordable, acceptable health care.
4. Evaluate, coordinate and enhance provider education in risk assessment, documentation, intervention, treatment and referral consistent with evidence-based standards of care around health issues specific to women and children.
5. Advance a holistic continuum of care model for women's health services across the life-span toward improvements in health for women, their children and their families.
6. Expand availability, quality and utilization of medical homes for children.
7. Improve access to dental care, awareness of oral health, and application of new models in dental health services.
8. Incorporate mental health into relevant preventive health efforts in MCH; participate in efforts to promote availability and quality of mental health services; and facilitate links between the mental health and health care communities.
9. Improve access to prenatal care including appropriate genetic assessment and breastfeeding support for all women across the state.
10. Apply socio-ecologic models to promote healthy weight by encouraging appropriate nutrition and safe physical activity efforts.

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: VA

SP # 1

PERFORMANCE MEASURE:

The percent of children and adolescents who have a specific source of ongoing primary care for coordination of their preventive and episodic health care.

STATUS:

Active

GOAL

To assure access to primary care services.

DEFINITION

The percent of children and adolescents who have a specific source of ongoing primary care for coordination of their preventive and episodic health care.

Numerator:

Number of children aged 0-18 with a specific source of health care.

Denominator:

Number of children aged 0-18 in the state.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Statewide telephone surveys to be conducted biennially. The 1996 survey asked, "Is there a particular clinic, hospital, doctor's office, or other place that [NAME] usually goes to for health care?" The 1999 and 2001 surveys asked the questions: "Is there a particular clinic, hospital, doctor's office or other place that [NAME] usually goes if he/she is SICK or you need advice about his/her health?" "Is there a particular clinic, hospital, doctor's office, or other place that [NAME] usually goes if she/he needs ROUTINE or PREVENTIVE care, such as a physical examination, well-baby visit or a check-up?" In addition, "Is this the same place where [NAME] usually goes when he/she is sick?"

SIGNIFICANCE

Access to clinical preventive services depends in part on access to an ongoing source of primary care. Increasing access to primary care can help to increase access to clinical preventive services for many of those most in need of these services. Ideally, access should be to a well-organized system of primary care, staffed by well-trained primary care providers, with established and well-functioning networks into the community. Studies have demonstrated that comprehensive public/private collaborative community efforts can reduce access barriers to primary care and increase use of preventive services. Several studies with discrete populations of underserved or uninsured individuals have demonstrated improved health outcomes and reduction in inappropriate use of emergency services following increased access to primary care.

SP # 2

PERFORMANCE MEASURE:

The percent of children who are overweight or obese.

STATUS:

Active

GOAL

To improve the nutritional status and physical activity level of children in Virginia.

DEFINITION

The percent of children who are overweight or obese.

Numerator:

Number children (ages 2-5 years) participating in the WIC program in Virginia who are overweight or obese(at or above the 85th percentile).

Denominator:

Total number of children (ages 2-5 yrs) participating in the WIC program in Virginia.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

WIC Program data.

SIGNIFICANCE

Diet has been associated with 8 of the 10 leading causes of death in the U.S. Healthy behaviors during childhood reduce the potential for conditions in later life, such as diabetes, heart disease, cancer, obesity and osteoporosis. The average American consumes only 1 1/2 servings of calcium rich foods per day as compared to the recommended 3 to 4 servings for children and adolescents. 75% of children do not eat fruits and vegetables daily and 70% of Americans consume high levels of fat. Currently, one-third of adults are overweight with the prevalence among children rapidly increasing. A recent study in Virginia found that one-third of fourth grade students were overweight and had low physical activity levels. The study also found that the students had a good understanding of healthy nutrition behaviors but they do not make choices accordingly. Community efforts and support are needed to encourage children to make healthy choices related to nutrition and physical activity.

SP # 3

PERFORMANCE MEASURE:

The percent of newborns who fail the hearing screening and who receive a diagnosis before three months of age.

STATUS:

Active

GOAL

To reduce the morbidity associated with hearing impairment by ensuring that children are identified with this condition as early as possible and receive needed treatment or other intervention.

DEFINITION

The number of infants who receive a diagnosis as defined in the numerator divided by the number who failed the hearing screen

Numerator:

Number of infants receiving a diagnosis before 3 months of age

Denominator:

Number of infants whose newborn hearing screen warrants need for follow-up screening/diagnostic testing

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Newborn Hearing Screening Program web-based data system, VISITS, and other follow-up data received by the NHSP from clinical evaluations

SIGNIFICANCE

Universal newborn hearing screening programs continue to expand across the nation. Early identification of deafness or hearing loss is a critical factor in preventing or ameliorating language delay or disorder in children who are deaf or hard of hearing, allowing appropriate intervention or rehabilitation to begin while the developing brain is ready. Early identification and intervention have lifelong implications for the child's understanding and use of language. Earliest possible identification of infant hearing loss has been endorsed widely as critical for the developing child as stated in HP2010. This measure was updated for the 2008 Title V Application to reflect a commitment to achieving not just a follow-up visit but an actual diagnosis, whether it is hearing loss or normal hearing.

SP # 4

PERFORMANCE MEASURE:

The unintentional injury hospitalization rate for children aged 1-14 per 100,000.

STATUS:

Active

GOAL

To reduce the number of hospitalizations to children aged 1-14 caused by unintentional injuries.

DEFINITION

Numerator:

Number of hospitalizations to children aged 1-14 caused by unintentional injuries.

Denominator:

All children in Virginia aged 1-14.

Units: 100000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Hospitalization Discharge Data.

SIGNIFICANCE

Injury is the leading cause of child hospitalization. In Virginia more than 2,500 children are hospitalized in a year with an average cost of \$6,000 per injury. It is estimated that 90% of these hospitalizations are preventable.

SP # 5

PERFORMANCE MEASURE:

The percent of low income children (ages 0-5) with dental caries.

STATUS:

Active

GOAL

Reduce the prevalence of caries among high-risk children enrolled in Early Head Start and WIC after three years of semi-annual, fluoride varnish treatment.

DEFINITION

Baseline data collected in FY06 implemented over a three-year period and annual screenings will be used to determine the prevalence and rate of caries.

Numerator:

Total number of decayed and filled teeth for each examined individual.

Denominator:

Total number of individuals in the group.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

21-1a

Reduce the proportion of young children with dental caries experience in their primary teeth.

DATA SOURCES AND DATA ISSUES

Previous studies approved by the Internal Review Board and the "Bright Smiles for Babies" fluoride varnish intervention, Division of Dental Health, Office of Family Health Services.

SIGNIFICANCE

Oral health is an important part of children's overall health and wellbeing, but many children do not receive comprehensive oral health care. Dental caries (tooth decay) is the most common chronic childhood disease, affecting five times as many children as asthma. Untreated oral disorders affect a child's overall medical health, as well as their growth, school attendance, and social and economic outcomes. Approximately 250,000 school hours are lost each year to children in Virginia with dental-related illness. Particular populations of children are more likely to have oral disease: those from low-income families, minority groups, and children with special health care needs. Children in low income families have five times more untreated dental needs than children in higher-income families. For children with special health care needs (which is 18% of all children), dental care is the most common unmet health need. They face increased risk of oral health problems due to their other systemic medical problems, and many providers are not trained and do not feel comfortable delivering oral health care to this population.

PERFORMANCE MEASURE:

The ratio of dentists to population in underserved areas.

STATUS:

Active

GOAL

Increase the number of public and private dental providers in underserved areas through incentives consisting of the Dental Scholarship Program and the Loan Repayment Program.

DEFINITION

The manpower analysis will be used to estimate which areas are underserved so that dental students and dentists may be placed accordingly in public and private practice opportunities. These students and dentists will be tracked to ensure that they are meeting their obligations to work in an underserved region of the state. Approximately 20 dentists are placed annually.

Numerator:

Total number of dentists in underserved areas.

Denominator:

Total population in the underserved area.

Units: 1000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

21-10.

Increase the proportion of children and adults who use the oral health care system each year.

DATA SOURCES AND DATA ISSUES

Manpower analysis and regional data from the Division of Dental Health, Office of Family Health Services.

SIGNIFICANCE

Lack of access to dental care is a severe problem in Virginia. It is estimated that fewer than 40% of Virginia's approximately 1.8 million children younger than 19 had a preventive dental visit during 2001. Although the state's publicly funded children's health insurance programs – FAMIS and FAMIS Plus (formerly Medicaid coverage for Medically Indigent children) – provide fairly comprehensive dental benefits, this coverage does not ensure access to treatment as only one in four FAMIS Plus enrollees receive a single dental visit in a year. One of the major barriers to access is the shortage of dental providers in Virginia. Currently 105 communities in Virginia qualify as areas of need for the Virginia dental scholarship program, meaning they have fewer than the state average. The supply of child specialists is even lower: there are only 81 pediatric dentists in full time practice in Virginia, and 65 of those are concentrated in the three metropolitan areas of Richmond, Northern Virginia, and Tidewater. All but one of the rest are located along an Interstate, leaving more rural areas of the state completely without pediatric dentists. Thus, the problem is one of an overall shortage as well as unequal distribution of specialists.

SP # 7

PERFORMANCE MEASURE:

The proportion of children (0-21 years) who receive genetic testing.

STATUS:

Active

GOAL

To increase the proportion of infants who receive genetic testing.

DEFINITION

This measure looks at the proportion of known children with birth defects who received genetic services through state contracted centers.

Numerator:

Number of children (0-21 years) who were seen by contracted genetic centers for genetic testing.

Denominator:

Number of children reported through VACARES birth defects registry.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Monthly/quarterly reports from contracted genetic centers for the numerator; VA CARES reported cases of birth defects

SIGNIFICANCE

As the human genome is better understood, implications for genetic screening are becoming more significant. Currently, approximately 4,000 children under the age of two are identified each year in Virginia with a birth defect. Expanded newborn screening services, effective March 2006, will substantially increase the number of families with an interest in genetic predispositions for identifiable disorders. One goal of the Virginia Genetics Program is to offer genetic testing to all infants identified through the Birth Defects Registry, including those who test positive for heritable disorders and genetic diseases under the newborn screening program. Early understanding of an infant's genetic risk will allow families to obtain appropriate counseling and, ultimately, should improve birth outcomes across the population.

SP # 8

PERFORMANCE MEASURE:

The percent of women reporting substance use during pregnancy.

STATUS:

Active

GOAL

DEFINITION

Numerator:

The number of resident live births and fetal deaths to mothers who reported tobacco, alcohol, or other drug use during pregnancy.

Denominator:

The total number of resident live births plus fetal deaths.

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

16-17.

Increase abstinence from alcohol, cigarettes, and illicit drugs among pregnant women.

DATA SOURCES AND DATA ISSUES

Birth certificate and fetal death data, Center for Health Statistics, Virginia Department of Health.

SIGNIFICANCE

A range of harmful effects, including spontaneous abortion, low birth weight and preterm delivery have been associated with prenatal use of alcohol, tobacco, and illicit drugs such as cocaine and marijuana.

SP # 9

PERFORMANCE MEASURE:

The percent of women with an ongoing source of primary care.

STATUS:

Active

GOAL

To increase the number of women you have an ongoing source of primary care.

DEFINITION

Numerator:

The number of women who responded that they have one person who they think of as their personal doctor or health care provider

Denominator:

The total number of women responding to this question

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

1-4C

Increase the proportion of persons who have a specific source of ongoing care.

DATA SOURCES AND DATA ISSUES

The Virginia Behavioral Risk Factor Surveillance System data.

SIGNIFICANCE

The BRFSS is a telephone survey conducted by the health departments of all states, the District of Columbia, Puerto Rico, the Virgin Islands, and Guam with assistance from CDC. Congress appropriated \$7.6 million for this system in fiscal year 2005. The BRFSS is the largest continuously conducted telephone health surveillance system in the world. States use BRFSS data to identify emerging health problems; to establish health objectives and track their progress toward meeting them, and to develop and evaluate public health policies and programs to address identified problems. The BRFSS is the primary source of information for states and the nation on the health-related behaviors of adults. States collect data through monthly telephone interviews with adults aged 18 years or older. BRFSS interviewers ask questions related to behaviors that are associated with preventable chronic diseases, injuries, and infectious diseases.

SO # 1

OUTCOME MEASURE:

The black-white low birth weight ratio among singleton live births.

STATUS:

Active

GOAL

Reduce disparities in birth outcomes.

DEFINITION

Numerator:

Percentage of low birth weight (<2500g) singleton live births among black women in the calendar year.

Denominator:

Percentage of low birth weight (<2500g) singleton live births among white women in the calendar year.

Units: 1 **Text:** Ratio

HEALTHY PEOPLE 2010 OBJECTIVE

16-10.

Reduce low birth weight (LBW) and very low birth weight (VLBW).

DATA SOURCES AND DATA ISSUES

Birth certificate data, Virginia Center for Health Statistics.

SIGNIFICANCE

LBW is the risk factor most closely associated with neonatal death. The neonatal mortality rate for black infants (9.4 per 1000) was over 2 times that of white infants (4.1 per 1000) in Virginia in 2003. Similarly, the LBW rate (13.2%) among black infants was nearly 2 times that of white infants (6.9%). Improvements in infant birth weight can contribute substantially to reductions in the neonatal mortality rate.

FORM NOTES FOR FORM 16

HEALTH SYSTEMS CAPACITY MEASURE # 01

The rate of children hospitalized for asthma (ICD-9 Codes: 493.0 -493.9) per 10,000 children less than five years of age.

	Annual Indicator Data				
	2003	2004	2005	2006	2007
Annual Indicator	42.2	36.6	32.2	31.6	29.6
Numerator	2,072	1,826	1,653	1,607	
Denominator	491,229	498,386	513,018	508,965	

Check this box if you cannot report the numerator because
1. There are fewer than 5 events over the last year, and
2. The average number of events over the last 3 years is fewer
than 5 and therefore a 3-year moving average cannot be
applied.

(Explain data in a year note. See Guidance, Appendix IX.)

HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: VA

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	1	No
Annual linkage of birth certificates and WIC eligibility files	2	Yes
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	1	No
Annual birth defects surveillance system	3	Yes
Survey of recent mothers at least every two years (like PRAMS)	3	Yes

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: VA

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other: Virginia Youth Tobacco Survey	2	No

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Relevant changes in Virginia Law:

July 1, 2002:

--All children under age six must be properly restrained in a child safety seat or booster seat. Violations will result in a \$50 fine.

--All children between their 6th and 16th birthday must be properly restrained by a child restraint system or a safety belt. Violations will result in a \$50 fine.

July 1, 2007:

--Child restraint devices are required for children through the age of seven (until 8th birthday). Violations will result in a \$50 fine.

--Rear-facing child restraint devices must be placed in the back seat of a vehicle. In the event the vehicle does not have a back seat, the child restraint device may be placed in the front passenger seat only if the vehicle is either not equipped with a passenger side airbag or the passenger side airbag has been deactivated. Violations will result in a \$50 fine.

--Children can no longer ride unrestrained in the rear cargo area of vehicles. Violations will result in a \$50 fine.

--All children between their 8th and 16th birthday must be properly restrained by a child restraint system or a safety belt. Violations will result in a \$50 fine.

FIELD LEVEL NOTES

1. **Section Number:** Indicator 09A
Field Name: HSIRace_Children
Row Name: All children 0 through 19
Column Name:
Year: 2009
Field Note:
Data from Census Population Estimates, 2006.
2. **Section Number:** Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2009
Field Note:
Data from Virginia Department of Social Services, Division of Strategy Management and Research, 2008. TANF cases include children less than 18 years old. The categories Native Hawaiian or Other Pacific Islander and More than one race reported were not included due to concerns from DSS about data integrity.
3. **Section Number:** Indicator 09A
Field Name: HSIRace_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2009
Field Note:
Data from Virginia Department of Social Services, Division of Strategy Management and Research, 2008. Food stamp enrollment includes children less than 18 years old. The categories Native Hawaiian or Other Pacific Islander and More than one race reported were not included due to concerns from DSS about data integrity.
4. **Section Number:** Indicator 09A
Field Name: HSIRace_WICNo
Row Name: Number enrolled in WIC
Column Name:
Year: 2009
Field Note:
Data from Virginia WIC program, CY2007.
5. **Section Number:** Indicator 09A
Field Name: HSIRace_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2009
Field Note:
Numerator from Crime in Virginia 2006 published by the Virginia State Police, Denominator from Census Population Estimates for 2006.
6. **Section Number:** Indicator 09A
Field Name: HSIRace_DropOutPercent
Row Name: Percentage of high school drop-outs (grade 9 through 12)
Column Name:
Year: 2009
Field Note:
Data from Virginia Department of Education. Dropout rates are calculated using children enrolled in grades 7-12 as of September 30, 2006 as the denominator and the criteria for a dropout are as follows:
A dropout is an individual who:
(1) Was enrolled in school at some time during the previous school year and was not enrolled on October 1 of the current school
(2) Was not enrolled on October 1 of the previous school year although expected to be in membership; and
(3) Has not graduated from high school or completed a state- or district-approved educational program; and
(4) Does not meet any of the following exclusionary conditions:
(i) Transfer to another public school district, private school, or state- or district-approved education program;
(ii) Temporary school-recognized absence due to suspension or illness;
(iii) Death.
7. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_Children
Row Name: All children 0 through 19
Column Name:
Year: 2009
Field Note:
Data from Census Population Estimates, 2006.
8. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2009
Field Note:
Data from Virginia Department of Social Services, Division of Strategy Management and Research, 2008. TANF cases include children less than 18 years old.
9. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2009
Field Note:
Data from Virginia Department of Social Services, Division of Strategy Management and Research, 2008. Food stamp enrollment includes children less than 18 years old.
10. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_WICNo
Row Name: Number enrolled in WIC
Column Name:
Year: 2009
Field Note:
Data from Virginia WIC program, CY2007.

11. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2009
Field Note:
Numerator from Crime in Virginia 2006 published by the Virginia State Police, Denominator from Census Population Estimates for 2006.
12. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_DropOutPercent
Row Name: Percentage of high school drop-outs (grade 9 through 12)
Column Name:
Year: 2009
Field Note:
Data from Virginia Department of Education. Dropout rates are calculated using children enrolled in grades 7-12 as of September 30, 2006 as the denominator and the criteria for a dropout are as follows:
A dropout is an individual who:
(1) Was enrolled in school at some time during the previous school year and was not enrolled on October 1 of the current school
(2) Was not enrolled on October 1 of the previous school year although expected to be in membership; and

(ii) Temporary school-recognized absence due to suspension or illness;
(iii) Death.
13. **Section Number:** Indicator 11
Field Name: S11_total
Row Name: Total Population
Column Name:
Year: 2009
Field Note:
Data from American Community Survey 2006.
14. **Section Number:** Indicator 12
Field Name: S12_Children
Row Name: Children 0 through 19 years old
Column Name:
Year: 2009
Field Note:
Total number of children 0-19 from 2007 Census population estimates.
15. **Section Number:** Indicator 09A
Field Name: HSIRace_FosterCare
Row Name: Number living in foster home care
Column Name:
Year: 2009
Field Note:
Data from the Virginia Department of Social Services, monthly snapshot for January 2008. December 2007 snapshot was not available.
16. **Section Number:** Indicator 09B
Field Name: HSIEthnicity_FosterCare
Row Name: Number living in foster home care
Column Name:
Year: 2009
Field Note:
Data from the Virginia Department of Social Services, monthly snapshot for January 2008. December 2007 snapshot was not available. Hispanic ethnicity was not reported.
